INAUGURAL ADDRESS BY MAYOR THOMAS S. BURGIN

January 1, 1940

Gentlemen of the Council:

• As we stand on the threshold of the new year amidst a general world turmoil, may we resolutely and with determination take up our duties and responsibilities in the conduct of this city government. With a prayer that the United States of America may remain free from entangling alliances across the sea, and that the principles of democracy under which we are privileged to live and serve may be continued through peace, we look forward to the year 1940 with the hope that men and nations will settle their differences and that the world at large will be transformed from a battle ground into a world of peace between countries and the resulting opportunities for mankind.

At the last meeting of the 1939 Council I stated that my remarks to the incoming Council would be brief, inasmuch as they would be in the nature of a mid-term message, and that from time to time during the year I would forward communications on matters of general importance as they presented themselves. Therefore, in following out that thought I shall limit my message this morning principally to the general condition of our city and to its financial status especially. Upon you, as members of the legislative body, rests the responsibility of appropriating all the moneys necessary to properly conduct the city's business during the coming year, and I offer you my wholehearted cooperation to this end. Upon me will rest the responsibility of expending these funds wisely and judiciously. Through our many departments the details of this assignment will be carried out as efficiently and effectively as possible with the cooperation I know that I can count upon from you gentlemen.

Before proceeding further, may I take this opportunity of expressing my appreciation for the cooperation I have received from your retiring president, John W. Savage, during the past two years while he has occupied this position. His voluntary retirement from public office makes the only change in the Council membership. To his successor, Councillor George, representing the citizens of Ward Two, I extend a cordial welcome as the only incoming member of the 1940 Council.

Let us briefly look at the general financial condition of Quincy as a basis of determining the policies and program to be carried out during the coming year. Perhaps you have not had the opportunity of studying the latest figures released by the City Treasurer's Office or as yet becoming familiar with the financial problems that will present themselves during 1940, so with that thought in mind it will be my purpose to outline our present condition and dwell somewhat on the program I shall present to you for your serious consideration.

Present Financial Condition

The total funded debt of our city on December 31, 1939, stood at \$4,280,500, divided in the following manner: long term bonds, \$4,145,500, and tax title loans from the Commonwealth of Massachusetts, \$135,000. The present debt shows a total reduction of \$1,157,000 from the figure at which it stood on July 1, 1935, just after I assumed office. This reduction in four and a half years is 21.3% which, under the abnormal economic conditions existing, is worthy of particular note. It might be interesting for you to know that of the \$1,157,000, tax title loan reductions totaled \$382,000 and the long term debt (including water bonds) was reduced by \$775,000. Not in thirteen years (December 31, 1926) has the debt of our city been as low as it is today, and again I reiterate my pledge to the people of Quincy that, barring emergencies, the policy of debt reduction which I have maintained will be continued in the future.

During the past year the maturing bonded debt payments of previous years amounted to \$932,000. The borrowings necessary for such purposes as street, sewer, and water construction, together with a relief loan of \$250,000, totaled \$570,000. However, added to this borrowing, it was necessary that we issue bonds in the amount of \$52,000 for the city's share in the development of Town River, \$50,000 for the 1938 hurricane emergency, and \$85,000, which was a half of the 1938 state tax deficit of approximately \$170,000. These three issues amounting to \$187,000 as you can see were unusual, but nevertheless of necessity had to be included in our 1939 borrowings.

The total then of our past year's bonds was \$757,000 and, deducting this from what we paid off on maturing debt, our net reduction of long term debt for the year was \$175,000.

In 1940, however, our maturing debt will amount to \$823,000. Normally our new borrowings should be about \$525,000. Should the loan already authorized for the cost of our municipal parking area be issued, this would increase our borrowings by \$220,000, making the total long term borrowing for the year \$745,000. Even with this large amount included for parking, there still can be a debt reduction in the year 1940.

In view of the general conditions existing throughout the world, I do not consider it to be advisable for our city to embark on a public building program this year unless the United States Government will liberally cooperate by providing a direct grant of 45% similar to the provisions of the P.W.A. Therefore, we should not anticipate any bond issues other than those previously referred to.

It has been more than gratifying for me to observe that the City of Quincy obligations have sold during the past year on a basis equal to the best quality Massachusetts municipal securities. This is the result of our well planned program producing tax rate reductions for four successive years without increased valuations, improved tax collections, reduced debt, and generally efficient municipal management. Justifiably proud as we may be of our general financial condition and standing among the other thirty-eight cities of the Commonwealth, we should not permit this pride to encourage us into borrowings which might weaken our splendid position.

As to the Departments

Leaving the financial side of our municipal government, let us briefly refer to some of the many departments in the general conduct of city business.

WELFARE

Probably the outstanding one in which you gentlemen and the public at large are vitally interested is that of welfare. Through its expenditures we can follow the general trend of economic conditions, particularly by examining the Outside Aid account which includes our direct city relief cases and some supplementary help to persons on W.P.A. It is gratifying to note that the costs for outside aid have dropped considerably in 1939 from the expenditures for the same purpose in 1938:

1938—\$265,633.44
1939— 185,942.00 (Estimate)

Although the 1939 figure is listed as an estimate, Mr. Venna advises me that it is correct within a matter of a few hundred dollars. An eighty thousand dollar drop from the previous year in this division of our Welfare Department is more than encouraging and is deserving of special commendation. In 1938 the average number of cases on Outside Aid per month was 705, while in 1939 the average dropped to 542 cases per month. We have about 1040 cases now on Old Age Assistance, which has shown a steady increase over the past three years, and the average gross cost to the city is about \$29,000 per month. Reducing of the age limit from 70 to 65 years has caused this rather heavy increase. On Old Age cases, however, the city receives five-sixths of the cost per month per person back from the federal and state governments, so that with the maximum of \$30 per month per case our net cost is \$5. I believe that we have about reached our peak in the number of Old Age cases.

Much credit is due to the efficient work of our Welfare Commissioner, Mr. Venna, for his excellent handling of the welfare problem in Quincy, and I particularly mention the cooperation he is receiving from the employees in his department.

ASSESSORS' DEPARTMENT

To the property owners especially and to our citizens in general, one of the most vital problems is that of taxation. This matter has received an unusual amount of attention, due principally to the growing interest of the public in the study of tax problems. At my request, the Board of Assessors have been working for a year on a revaluation of the entire city. It is a well known fact that in a city of this size it would take at least five years to do this work as thoroughly as it would have to be done for an examination of the properties for loan purposes.

Although Quincy has grown tremendously in the last twenty years, both as to population and as to new property development, it should be noted that the number on the Board of Assessors has not been increased to cope with this situation as well as the many economic problems which have arisen since the depression. The task, therefore, of even attempting a reassessment during the past year has been tremendous, and the public should realize that sale

prices of properties today do not necessarily constitute fair values for assessing purposes.

The result of this revaluation will show a gross decrease in valuation of about three million dollars, principally on our residential property. However, it is hoped to offset at least a half of this decrease through assessments on new construction.

I would call your particular attention to the fact that during the last three years, through an Act of our State Legislature exempting certain classifications of machinery from local taxation, we have lost approximately three million dollars worth of valuation in personal property. There was no alternative but to add this additional burden to the real estate. New construction, however, did offset this in part. Even with this direct loss our tax rates have decreased each year, and the total valuations of the city have dropped from \$124,163,575 in 1936 to \$121,854,475 in 1939.

W. P. A.

Much constructive work has been accomplished during the past year through the Works Progress Administration of the Federal Government. Several miles of street curbing have been laid and much sidewalk construction completed in every section of the city. Added to this was the completing of the granite wall around the Mount Wollaston Cemetery and the covering of Town Brook through the new Parking Area. Re-wallling of brooks in other parts of the city and the extensive development of the Montclair and Hough's Neck Playgrounds gave much needed improvements. Our new enclosed Adams Baseball Field in Merrymount Park was completed and suitably dedicated during 1939 as one of our major projects. Many of our schoolhouses were painted both inside and out by W.P.A. labor and general improvements were made to school grounds, notably at the Cranch School.

We now have approximately 1770 men and women on government relief pay rolls in Quincy receiving about \$1,150,000 in wages from federal funds. The city's contribution for materials, etc., amounted to about \$170,000, which was approximately \$15,000 less than what was expended for the same purpose in the year 1938.

I shall forward a recommendation to the Council shortly asking for an allocation of this year's city contribution towards the support of W.P.A. for the completion of our Stadium Project providing concrete stands seating 4400 persons on the easterly side of the field and making the total seating capacity ten thousand.

May I publicly express my appreciation in behalf of our city to the state officials of the W.P.A. for the excellent cooperation Quincy has received during the past year. Especially do I refer to Colonel John J. McDonough and Mr. Denis W. Delaney.

PUBLIC WORKS

It is gratifying for me to note that even under the pressing demands for economy our Public Works Department is operating efficiently and well with approximately 60 less employees than in 1935 when I took office. The annual operating cost of this department has dropped substantially since that time. This reduction in personnel has been due principally to the fact that many vacancies have not been filled and that less temporary men for summer street work have been taken on. It cost the city \$90,000 less in 1939 to operate the Highway Division than it did in 1935 when I became

Mayor. Sidewalk construction from city funds (revenue and non-revenue) totaling \$133,500 in 1935 has been entirely eliminated and since the budget of 1936 no revenue has been spent either through appropriations or loans for this purpose, with the exception of W.P.A. projects.

Any recommendations in the Public Works Department I will forward to you at a later date. However, I feel very certain that during the present year a reduction in water rates can be effected. I have given a great deal of thought and study to the financial operations of the Water Division as a result of which there is no question in my mind that under the new program planned our water users will benefit through the medium of a lower rate.

GENERAL

Due to the fact that time is limited and my message has already taken longer than I anticipated, it will be necessary that I forego a general review of the many other city departments. However, there are some major accomplishments during the past year worthy of special note. Particularly do I refer to the purchase of the Municipal Parking Area and the completing of the following new buildings: Public Library Addition, West Quincy Fire Station, and the 75-room addition to the City Hospital Nurses' Home. Other improvements will be covered in detail by the various departments in the bound copies of the annual city report to be printed later.

While we look to the future with optimism due to the general improvement in private employment and with almost eight thousand men now working at the Fore River Ship Yard, let us be mindful of the fact that to maintain our present comparatively low tax rate we must carefully weigh every appropriation coming before us. There is no question in my mind but what we operated our city government during 1939 at about as low a cost as it was possible and still maintained the normal and expected municipal services. The tax rate for 1940 cannot be prophesied or even estimated at this time, as many factors of determination will not be known for several months.

The City of Quincy now stands in third position among the thirty-nine cities of the Commonwealth of Massachusetts in its tax rate, with only Gardner and Newton having lower rates than ours. We all should be gratified to have seen our city work up into this enviable position in a four-year period. Let us, therefore, continue our work with seriousness and determination to give the citizens of Quincy honest and efficient municipal government.

In conclusion, may I pause to express my sincere appreciation to our many department heads, city officials, and all other city employees for the cooperation and help I have received from them in "carrying on" during the past year. Success is only attainable through loyalty to one's work and his employer. As public servants, all of us hold public office, and as I have said before "To hold public office is to hold public trust."

My closing thought is to express personal best wishes for a Very Happy New Year to you and your fellow citizens and to offer my prayer for the speedy recovery of our faithful City Messenger, Harry W. Tirrell, who, being confined to the City Hospital by illness, has missed his first Inauguration since Quincy started its city government on the first Monday of January in the year 1889.

CITY GOVERNMENT—1940

MAYOR, HON. THOMAS S. BURGIN

DEPARTMENT OFFICIALS

COMMISSIONER OF PUBLIC WORKS, EZEKIEL C. SARGENT.
 CITY TREASURER, HAROLD P. NEWELL.
 CITY CLERK, EMERY L. CRANE.
 ASSISTANT CITY CLERK, HATTIEMAY THOMAS.
 COLLECTOR OF TAXES, RALPH G. MESSENGER.

Secretary of Board and Superintendent of Schools

JAMES N. MUIR

The regular meetings of the School Committee are held at 7:30 P. M. on the last Tuesday of each month except July.

REPORT OF THE AUDITOR

May 1, 1940

*To His Honor The Mayor
and The Honorable City Council:*

I submit herewith the financial report of the City of Quincy for the year ending December 31, 1939.

In compliance with Section 50, Chapter 41 of the General Laws, there is appended a certificate under oath with reference to the verification of cash balance in the hands of the City Treasurer and various trustees having custody of funds.

Respectfully submitted,

LEO D. MULLIN,
Auditor of Accounts.

I hereby certify that I have verified, by actual count of the cash and verification of the bank balances, the cash of the City Treasurer, the Board of Managers of the Adams Temple and School Fund, and Board of Managers of the Woodward Fund and Property, and the Trustees of the Thomas Crane Public Library.

LEO D. MULLIN,
Auditor of Accounts.

Sworn to before me this 1st day of May, 1939.

EMERY L. CRANE,
Notary Public.

IN COUNCIL

Order No. 79

February 27, 1939

ORDERED:—

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1939 and ending December 31, 1939, to be expended by and under the direction of the several officers or boards as herein designated.

January 30, 1940

HON. THOMAS S. BURGIN, *Mayor*
Quincy, Massachusetts

DEAR SIR:

I submit herewith my report as Property Manager for the period January 1, 1939-December 31, 1939:

Report

Number of parcels listed as of January 1st, 1939.....	1009
Titles by foreclosure in Land Court 1939.....	65
Total	1074
Assessed value 1009 parcels January 1, 1939.....	\$377,535 00
Assessed value 65 parcels 1939	65,700 00
Total	\$443,235 00
Taxes due on 1009 parcels January 1, 1939.....	\$105,665 20
Taxes due on 65 parcels 1939	16,711 41
Total	\$122,376 61

Sales January 1st, 1939 to December 31, 1939

Number of parcels sold	31
Assessed value	\$55,950 00
Taxes due	16,729 07
Sales price	23,536 80
Profit	6,837 73

<i>Gross Receipts</i>		<i>Net Receipts</i>	
Sale 31 parcels.....	\$23,536 80	Profit on sales	\$6,837 73
Rents	1,699 90	Rents	1,699 90
Sale of stone & junk	90 00	Sale stone, etc.	90 00
	\$25,326 70		\$8,627 63
Expenses: Salary \$1820 00	Expense \$1448 99	Total	\$3,268 99

Note that receipts from rentals again show an increase over the previous year. This has been possible through making repairs to buildings thus creating rentable property. Two purposes are served by so doing namely, produce income in lieu of taxes and protect the property from vandalism until sold. It seems hardly necessary to mention that unoccupied buildings soon fall prey to vandals.

Unless something unlooked for develops expense of repairs in 1940 should be substantially less than during 1939.

We continue to cooperate with the Building Inspector and the Fire Department and have demolished several buildings unfit for occupancy and beyond repair.

At present there are listed 1043 parcels of property taken by the City for non-payment of taxes.

Assessed value	\$387,285 00
Taxes due when taken	105,647 54

Respectfully,

GEORGE E. MOREY,
Property Manager.

REPORT OF THE TREASURER OF THE WOODWARD FUND AND PROPERTY

REPORT OF THE QUINCY RETIREMENT BOARD

January 31, 1940

*To the HONORABLE THOMAS S. BURGIN, Mayor:
Quincy City Hall, Quincy, Massachusetts.*

The Quincy Retirement Board submits its fifth annual report, being for the year ended December 31, 1939, with appended tables setting forth the financial and statistical results.

There are now 379 active members, an increase of 142, or practically 60%, since the date of our first report at the close of 1935. During the five years of operation, a total of 13 members have been retired, there have been 4 deaths among retired members and 8 deaths among the active membership. There has been paid out the sum of \$14,303.75 in retirement allowances to members and \$1,291.44 in returns of accumulated contributions made by members who have died in service. To date no elections have been made providing for the continuation of retirement allowances beyond the life of a retired member, nor have there been any benefits payable because of loss of life in line of duty.

During the past year the Board has adhered to the policy of confining its investments to maturities of not over five years wherein it could obtain a net return of better than 2% and in such longer term bonds as were restricted in price because of the existence of call features. Where purchases of the latter category have been made, it has of course, been necessary to write off the full amount of any premium above the call price within the first year, but the income in subsequent periods will be commensurately higher.

In pursuing this policy, the Board has been governed by the following considerations. In investing a fund of this character, fluctuations of interest rates may be generally neglected as the constant flow of new funds will permit purchases at all levels and the attainment of an average rate of return. Nevertheless, when the best opinion is that something of a peak in prices has been reached, it becomes the duty of the Board to determine to what extent it should accept the smaller return available in short maturities so that it may have additional funds available for investment at times when a more generous return may be possible.

The act creating the Retirement System contemplated a return of 4% and that rate is the basis of the actuarial computations upon which ultimate retirement allowances are based. The right is reserved to the Board to reduce this rate to not less than 3%, but the Board has been averse to adopting such a course, with the drastic curtailment in retirement allowances that would be involved, as it is not convinced that an average of 4% is permanently unobtainable. The amount which the City is currently called upon to provide to maintain this rate is a matter of only a few hundred dollars, which is negligible compared to the effect on retirement allowances if the rate were reduced, and in our opinion should be more than offset by the return to the City of earnings in excess of the stipulated rate in future years.

The comment of the actuary retained by the City Council at the time the creation of the Retirement System was contemplated and who has since been retained by the Board is worth noting. In his annual report to us, he states, "The results of the present valuation are very satisfactory. They indicate that the experience of both active and retired members has been favorable during the past year and that as a result the accrued liability has decreased and the surplus in the Annuity Reserve Fund has increased. The yield on investments was only slightly under 4%, which is a better showing than many of the retirement systems can point to at the present time."

The Board would stress the obligation that exists to bring the rights available under the retirement system to the attention of every new employee of the City promptly upon his employment. The Board, through its Secretary, cooperates in this matter, but without the creation of a central personnel office, this must primarily devolve upon each official who has the power of appointment.

Respectfully submitted,

GEORGE H. BONSTALL,
LEO E. MULLIN,
JOHN J. KEEFE,

Quincy Retirement Board.

TABLE XI

Valuation Balance Sheet Showing the Assets and Liabilities
of the Funds of the Quincy Retirement System as
of June 30, 1939

ASSETS

Annuity Savings Fund	\$ 71,456
Annuity Reserve Fund	1,813
Pension Reserve Fund
Pension Accumulation Fund	78,325
Total Present Assets	<u>\$151,594</u>
Present value of the prospective contributions payable by the City into the Pension Accumulation Fund	250,345
Total Assets	<u><u>\$401,939</u></u>

LIABILITIES

Present value of benefits on account of which contributions have been paid by members into the Annuity Savings Fund	\$ 71,456
Present value of benefits payable on account of bene- ficiaries or their dependents now drawing annuities from the Annuity Reserve Fund	1,472
Present value of benefits payable on account of bene- ficiaries or their dependents now drawing pensions from the Pension Reserve Fund
Present value of benefits payable on account of beneficiaries or their dependents now drawing pensions from the Pension Accumulation Fund	36,406
Present value of benefits to members with prior service credit to be paid by contributions of the City into the Pension Accumulation Fund	217,153
Present value of benefits to new entrants to be paid by contributions of the City into the Pension Accumulation Fund	75,452
Total Liabilities	<u><u>\$401,939</u></u>

No account is taken of the future contributions of members into the Annuity Savings Fund because the benefits provided by these contributions are exactly equal to the accumulated amount of the contributions and therefore they do not affect the balance in the fund.

REPORT OF THE BOARD OF ASSESSORS

January 1, 1940

HON. THOMAS S. BURGIN, *Mayor*
Quincy, Massachusetts

RALPH G. MESSENGER,
Collector of Taxes.

REPORT OF DEPARTMENT OF PURCHASE AND SUPPLY

*To the Honorable THOMAS S. BURGIN, Mayor
City of Quincy, Massachusetts*

Dear Sir:

The annual report of the Department of Division of Purchase and Supply for the year ending December 31, 1939, is herewith respectfully submitted.

The Department of Purchase and Supply ended its second year as an important part of the well developed system under which the City of Quincy is managed. The year 1939 saw a department, established in 1938, which under honest and efficient management will prove its worth to the taxpayers of the City under any form of government. In addition to the Purchasing Agent the department employed three clerks (female) and received assistance in filing from one clerk furnished by the National Youth Administration.

All purchases for every department in the City were directly under the control of the Purchasing Agent. However, he deemed it advisable to allow the Dietician of the Quincy City Hospital to purchase foods and the Apothecary in the same institution purchase the drugs. The distribution of coal and oil orders for the Welfare Department were made directly from that office after the Purchasing Agent had advertised for bids and awarded the contracts in each case. The Board of Trustees of the Thomas Crane Public Library as well as the Superintendent of Schools had authorization to purchase books. In each of these cases duplicate slips were filed with the Purchasing Department and prices were checked.

There has been no change in the purchasing system throughout the year. The emergency order which was so prevalent in 1938 was entirely eliminated as of January 1, 1939.

Each requisition which was received from the thirty City Departments crossed the desk of the Purchasing Agent. Here the material was priced, the quality and delivery considered and then placed with the lowest bidder. The purchase order was then written by the Order Clerk who in turn sent the order to the City Auditor. There the amount was immediately earmarked in the particular account, charged and written in the Auditor's book, signed by the Auditor and returned to the Purchasing Department. Here it was inspected by the Purchasing Agent, signed, and mailed to the vendor.

Purchase orders are written in quadruplicate forms—two copies are mailed to the vendor of which he signs one, returns it to the Purchasing Department acknowledging receipt and acceptance of the order; one is sent to the requisitioning department and one retained by the Purchasing Department. On receipt of merchandise the requisitioning department signs and returns its copy of the order. The Purchasing Department then approves the vendor's invoice and returns same to the requisitioning department for payment.

Early in 1939 it was deemed advisable to incorporate advertising of bids insofar as possible in order to bring about a savings on this particular item. This was accomplished with the result of a 67% savings. In 1938 the department advertised for 36 bids at a total cost of \$232.34 as against 1939 figures of 54 bids at a total cost of \$207.51.

During the year, 9338 requisitions were received from the various departments and these were divided as follows:

Assessors	55
Auditing	40
Building	33
Cemetery	114
City Clerk	151
Civil Service	1
Engineering	124
Executive	43
Fire	482
Fire and Police Signal.....	189
Gypsy Moth	123
Health	230
Highway	2361
Hospital	415
Law	9
Library	140
Park	311

Sanitary	218
School	676
Sealer of Weights	27
Sewer	275
Tax	77
Treasurer	55
Water	635
Welfare	205
Wire	40
W. P. A.	1494

During the year 12,186 purchase orders were written. The Division of these orders may be compared in the table accompanying this report. This table shows that 63½% of the orders were placed with Quincy Merchants or residents; approximately 33¾% were placed in the Boston area where many firms employ Quincy residents; and the balance of less than 3% was placed outside of the Boston area. (Chart A-1.)

Items where the estimated cost exceeded \$500.00 were advertised for public bidding by this department. In some cases where the cost did not exceed the above mentioned figure but where the Purchasing Agent deemed it advisable to ask for invitation bids, specifications were drawn and in each case after bids were opened the contracts were awarded in the best interests of the City of Quincy.

Eighty-one contracts were written during 1939 as follows:
(Charts A-2-3-4.)

Notable among the purchases by contracts during 1939 was the fleet of 7 Dodge chassis equipped with four Elgin (one already City property) and 3 Collecto Automatic Bodies. The automotive

equipment of the Sanitary Department long neglected by various administrations is now equipped with modern trucks which both aid in cleanliness and efficiency.

The past year saw our hospital heating plant converted from coal to oil. With considerable competition for the contract a Quincy bidder was awarded this \$8,000.00 job. The contract completed late in 1939 and equipped with all the latest recording devices should show a savings to that department over the old system.

An innovation in the motor Police Patrol of the City was introduced in 1939 when a fleet of Ford cars painted white were purchased. Recommended by the National Safety Council and desired by Chief Avery of the Quincy Police Department the cars were put into service in June, 1939. Their advantages and success may be found in the report of the Police Department.

The City of Quincy used approximately 189,000 gallons of gasoline during the year 1939. Bids opened in February 1939 were awarded to Quincy Oil Company and Socony-Vacuum Oil Company at .065 per gallon plus State Tax for the regular gasoline. Motor oils were bought at an average of .28c per gallon on invitation bids.

Coal and fuel oil bids were opened in the spring and awarded at slightly lower prices than in 1938. However, due to irregularities found during the fall on the part of the contractor it was necessary for the Purchasing Agent in order to protect the City to cancel coal contracts of the School and Police Departments as well as fuel oil contracts of the Library and Fire Department. These cancelled contracts were made in June, therefore, with conditions unfavorable in the fuel market in October it was necessary to award new contracts (after advertising) at .007 per gallon advance in fuel oil and \$1.16 per ton advance in run-of-mine coal. I feel that the City of Quincy will suffer no loss as this matter has been referred to the Law Department for settlement.

The City report for 1938 was awarded to the Hampshire Press who did a commendable job at a cost of \$1600.56 against a price of \$1768.00 the previous year or a savings of \$167.44.

The Health Department moved to larger quarters and the offices were equipped throughout with new steel furniture and record files. This contract was awarded to Wauters and Schindler, Inc., a Quincy concern.

The granite edgestone contract for 1939 was awarded at a new low of .88c a foot, the 1938 price being .93c to .95c per foot. Approximately 6000 feet were purchased at this price during 1939.

Welfare Department coal and range oil bids were opened in October of 1939 and the coal bid awarded to the low bidder. In the case of range oil the various Quincy dealers agreed to sell to the City during the 1939-40 season at .07c per gallon, the low bid submitted.

After agitation for several years for the purchase of an aerial ladder truck for our Fire Department, the Purchasing Agent purchased late in 1939 a 100-foot Seagrave Aerial Ladder and Truck to be delivered early in January of 1940. Quincy now possesses the most modern aerial ladder in New England and this will prove the most valuable equipment addition to our already fine Fire Department.

The Supply Department which opened in July of 1938 has been enlarged insofar as funds were available in 1939. In his 1939 budget the Purchasing Agent asked for a slight increase in the appropriation for this account in order that he might increase the number of items carried. With the increase denied it was necessary to limit purchases however, during the year. Seven hundred sixty-five (765) orders were filled out of this account. Inventory on December 30, 1939, showed over a hundred different items in stock. Bulk buying is illustrated in this account where supplies (mostly stationery) are sold to departments at savings of from 20% to 50% over other years, previous to the establishment of this department and should help prove the wisdom of the recommendation of the Purchasing Agent made in the closing paragraph of this report.

Real savings were shown the City in the first year (1938) of the Department of Purchase and Supply. The 1939 problem which we feel we met was to maintain this previous level and strive further to reduce costs by supplying departments with materials where savings might be effected by quality. Contract prices in many cases were lower in 1939 than in 1938.

Due to economic conditions here and abroad the inevitable increase came during September and October. However, the Purchasing Agent after a study of the situation advised all department heads by letter in September of probable advances in price and requested purchases for the balance of 1939 to be made immediately. In cases where this warning was heeded substantial savings were made. Numerous items including textiles, tires, rope, hardware, paints, brushes, paper, etc., were purchased at savings of from 5 to 15%. Unfortunately, due to our yearly budget system we were unable to make commitments beyond December 31, 1939.

With world conditions in their present state and even economists failing to predict or agree on the possibility of an early settlement we may expect price increases in many items purchased by the City in 1940.

The Purchasing Agent recommends that serious consideration be given by the Mayor and City Council to the advisability of establishing a warehouse for the department of Purchase and Supply. If available, a small section of the Municipal Garage might be used for this purpose. The Purchasing Department has complete records in its books of items purchased by the entire City and hundreds of items common to all departments could be stocked and distributed on requisitions without the necessity of a purchase order.

With the increase of the \$1000 supply account to \$10,000 (this is a revolving account showing always cash on hand or stock) the savings would be two fold. The Purchasing Agent could buy in bulk, items that department heads fail to anticipate and which they buy many times over during the year but due to the present system lack of controlled storage space and capital the Purchasing Agent must wait for a department requisition to purchase these supplies. This would reduce the number of purchase orders written and show a savings of time in both the Purchasing Department and Auditor's office as well as improve efficiency throughout all departments as delivery delay would be eliminated. Further savings to the City of Quincy through bulk buying by the Purchasing Agent can be assured.

Continued cooperation shown by the various departments as well as by the hundreds of vendors in the second year of the centralized

purchasing system is appreciated by the Purchasing Agent. Recognition editorially by metropolitan newspapers and both orally and editorially by the Massachusetts Taxpayers' Association of the benefits of centralized purchasing to the Quincy Taxpayers inspires this department to continue its honest endeavor to perfect a system for the best interests of the citizens of Quincy.

Respectfully submitted,

JOHN T. LANE,
Purchasing Agent

REPORT OF DEPARTMENT OF HEALTH

January 1, 1940.

HON. THOMAS S. BURGIN
Mayor of the City of Quincy

Dear Sir:—

Since during the year, there has been appointed to this department a qualified statistician, I am able to give to you in my annual report a score of the Health Department activities based on the Health Appraisal Form.

Our total weighted score for 1939 was 773.2. A perfect score would be 1000. While our previous high score was in 1936, the requirements since then are much more severe and our activities based on the same scoring method used in 1936 would net us a score of well over 800.

Following are the annual scores from 1926 to date:

Year	Total Score
1926.....	771
1927.....	797
1928.....	712
1929.....	746
1930.....	No scoring done
1931.....	No scoring done
1932.....	612.40
1933.....	714.20
1934.....	778
1935.....	783.80
1936.....	798.5
1937.....	No scoring done
1938.....	No scoring done
1939.....	773.2

APPRAISAL 1939

	Possible Weighted Score	Weighted Score Obtained
A. Vital Statistics	40.	40.
B. Communicable Disease	160.	141.3
C. Syphilis and Gonorrhea	90.	36.8
D. Tuberculosis	90.	80.
E. Maternity Hygiene	90.	66.7
F. Infant and Pre-School Hygiene.....	170.	129.2
G. School Hygiene	140.	105.
H. General Sanitation	90.	83.3
I. Food and Milk Control	80.	60.9
Bonus for balanced program.....	50.	30.
Total Weighted Score	1000.	773.2

It will be noted that all items, with the exception of Gonorrhea and Syphilis, have attained a high percentage of the possible score. The low score in this particular item is due to poor reporting of such cases by local physicians.

I sincerely urge that in the future all physicians report all cases of Venereal diseases to the Massachusetts Department of Public Health as required by law.

The year 1939 has been remarkably free from reportable diseases with the exception of Lobar Pneumonia and Pulmonary Tuberculosis. Lobar Pneumonia had an incidence of 115 cases as compared with 82 cases in 1938, but only 14 deaths as compared with 23 deaths in 1938.

Tuberculosis, all forms, had about normal incidence in morbidity and mortality, but an exceptionally large number of cases, new and old, required hospitalization. While in 1938 we paid for 22,239 hospital days, in 1939 we paid for 24,316 hospital days in the same hospital, an increase of 2077 days.

We continued our publicity on diphtheria immunization and held clinics during May and June for preventative treatment. Between private physicians and these clinics we have records of 2221 completing the treatment which brings us well within the safety requirements recommended by the Massachusetts Department of Public Health. Quincy has had a splendid record on diphtheria for several years, and only because of immunization through cooperation of the local physicians, and parents with the Health Department.

The citizens of Quincy owe a real debt of gratitude to ex-Mayor William Bradford and the committee composed of so many individuals and organizations that have fought so long to eliminate the pollution of our beaches. They have earned a signal victory in the recent legislature in having the North and South Metropolitan sewer systems corrected so as to purify the sewage before it is discharged. I earnestly hope that they will continue their efforts until the Moon Island outlet is also corrected.

In July we moved into our new quarters, at no increase in rent, and our new equipment including proper filing facilities was installed. We are very thankful for these new facilities, as we will be able to take proper care of our records, something we were not able to do in the past.

For a number of years we have had a nurse who divided her time between the parochial schools and tuberculosis work. Upon her leaving the department this past summer, Miss Russell assumed the entire load of tuberculosis cases and the other three nurses each took a parochial school in addition to their regular work, thus eliminating the need for such a nurse on our pay roll. While the idea is experimental, I am of the opinion that it will work out satisfactorily.

Early in the year Mr. James O'Dowd who had been with the department for 22 years was voluntarily retired. A temporary appointment to his position was given to John J. Curtin and later in the year was made a permanent appointment.

In May, Ivan H. Poole was appointed statistician following a civil service examination.

On May 29, 1939, one of our long time employees, Howard Rogers, died in the Quincy Hospital after an extended illness. He had been a faithful employee of the city in the capacity of meat and food inspector for many years, serving as a part time inspector for some years and recently as a full time employee. Frederick Carey

served the balance of the year in his place, on a provisional appointment. Following the establishment of a civil service list, Clarence Edwards was appointed in his place to become effective January 1, 1940.

In conclusion I wish to thank all departments for their splendid cooperation with us and particularly the School Department.

Much of our success this past year in our varied programs can be attributed to the excellent publicity given them by the Quincy Patriot Ledger.

RECOMMENDATIONS

I. For the fourth successive year, I again urge the installation of an incinerator to burn the refuse collected in the city. Each year the public dumps are becoming more obnoxious to people living in the vicinity as well as to people passing by. Rats and other pests infests these places and spread to properties, sometimes to a considerable distance and are a frequent cause of complaints to this office, as well as a nuisance and menace to the people living nearby. In my opinion we should avail ourselves of any Federal funds that may be available, while the opportunity exists, for the erection of such a plant.

II. That the city provide regular and capable supervision at all public dumps, and, that dumping be allowed only during certain hours when it is under supervision. At the present time much organic substance that attracts rats and vermin is being dumped, particularly by stores and individuals picking up rubbish from stores. Proper supervision so as not to permit this sort of material being dumped would be worthwhile.

III. That the Health Department have the opportunity to approve equipment and facilities of all establishments serving alcoholic beverages, prior to the granting of a license. At the present time we are not aware of new places starting; and, usually there is a lack of proper facilities when the place is eventually discovered. It is much easier to get proper installations before the licenses are issued; and, in every case the establishment would be properly equipped before doing business.

IV. To continue the efforts to eliminate pollution of our bathing beaches. Much was accomplished by the final passage of the State Legislature of a bill to purify sewage before it is dumped in the harbor from the North and South Metropolitan outlets; but the worst condition; that of the Moon Island outlet for the City of Boston is still unsettled.

V. I also urge the voluntary inoculation of all dogs against rabies. During 1939 rabies in animals has been on the increase, particularly in the other end of this county, as well as Worcester County. Personally, I feel this expense should be borne by the dog owners, rather than saddling the expense on every tax-payer, many of whom own no dogs. If rabies continues to spread, it may be necessary to restrain all dogs not properly inoculated each year.

VI. The further instruction and education of parents at all times and places possible, in regards to prenatal care as well as infant and pre-school hygiene and welfare.

Respectfully submitted,

RICHARD M. ASH, M.D.,
Health Commissioner.

January 1, 1940.

DR. RICHARD M. ASH,
Health Commissioner.

Dear Doctor:—

I herewith respectfully submit my report for the year 1939. Following is the personnel of the department on the regular pay roll as well as those working part-time.

Commissioner	Richard M. Ash, M.D.
Agent	Howard E. Porter
Statistician	Ivan H. Poole
Clerk	Verna K. Almon
Dispensary Physician	Cornelius J. Lynch, M.D.
Child Welfare Physician.....	Edmund B. FitzGerald, M.D.
Venereologist	Edwin E. Smith, M.D.
Bacteriologist	Edwin E. Smith, M.D.
Animal Inspector	E. A. deVarennnes, D.V.M.
Slaughtering Inspector	E. A. deVarennnes, D.V.M.
Plumbing Inspector	Jere J. Curtis
Milk Inspector	John J. Curtin
Meat and Restaurant Inspector.....	Clarence L. Edwards
Nurse—Contagious Diseases.....	Catherine F. Coleman, R.N.
Nurse—Tuberculosis	Gertrude T. Russell, R.N.
Nurse—Child Welfare.....	Mary M. McLennan, R.N.
Nurse—Child Welfare	Hazel R. Kerr, R.N.
Dental Hygienist	Dorothy A. Della Lucca
Custodian Dispensary	Thomas A. Eames

PART-TIME

Asst. Child Welfare Physician.....	Frederick Costanza, M.D.
Orthopedic Physician	John Doherty, M.D.
Dentist—School Clinic	Dr. Louis E. Sullivan, D.M.D.
Dentist—Pre-school Clinic	Dr. Alfred E. O'Malley, D.M.D.
Dentist—Pre-school Clinic	Dr. Frederick S. Tobben, D.M.D.

In addition to my many regularly assigned duties in the office I have made the following number of inspections and various calls.

Complaints of sanitary conditions	967
Persons lapsing treatment for Venereal Diseases.....	28
Patients taken to or from various hospitals.....	34
Other calls at hospitals and laboratories.....	39

Also there were many calls pertaining to settlement histories of persons hospitalized and many other calls pertaining to the various other duties of my office.

I wish to thank each employee of the Health Department for their fine cooperation, not only in the line of regular duties but the extra assignments that have been made from time to time.

Respectfully submitted,

HOWARD E. PORTER,
Agent.

MORTALITY STATISTICS

Death and Death Rates. During the year 1939, there were 671 deaths that occurred in Quincy, 19 more than in 1938. Based on the estimated population of 81,553, the crude death rate was 8.2 per 1000 population, as compared with a crude death rate of 8.1 per 1000 population in 1938.

Of the 671 deaths in Quincy, 76 were non-residents. There were 154 Quincy residents who died outside of the city; so that the number of resident deaths for the year was 749 as compared with 750 for 1938. The corrected or resident death rate was 9.18 per 1000 population, a slight decrease over last year. The tables for 1939 are based on residential deaths; the non-resident deaths being excluded and resident deaths occurring outside of Quincy being included.

Sex. Of the 749 resident deaths for 1939, 397 or 53 per cent were males, and 352 or 47 per cent were females. The proportion of males in the living population shown by the United States Census of 1930 was 49.3. Based on this ratio the male resident death rate for Quincy in 1939 was 9.9 as against a rate of 8.5 for females.

Age. Of the 749 deaths in 1939, 34 or 4.5 per cent were of infants under one year of age. More detailed information of infant mortality is in a following paragraph and in Table 5. Other age distributions will be found in Table I.

Nativity. Sixty per cent of the decedents were of native birth and 40 per cent were foreign born.

Infant Mortality. The infant mortality rate for Quincy in 1939 was 30.44 against 37.3 per 1000 live births in 1938. The following figures show at what time of the first year of life these deaths occurred:

First day	14 deaths or 41.2%
Less than 1 week but more than one day.....	3 deaths or 8.8%
Less than 1 month but more than one week.....	7 deaths or 20.6%
Less than 6 months but more than one month..	7 deaths or 20.6%
Less than 1 year but more than 6 months.....	3 deaths or 8.8%
	<hr/> 34 deaths or 100.0%

Of these 34 infant deaths, 16 were caused by premature birth, injury at birth, and other diseases peculiar to early infancy. There were 5 deaths from congenital malformations. Table II will show under what division these and the balance of 13 deaths were classified.

Births. There were 1117 residential births during 1939. Resident births in Quincy 806, resident births outside of Quincy 311, and 153 non-resident births in the city.

Heart Disease, as usual, was the leading cause of death, with 247 or 33 per cent of the total, and a rate of 302.9 per 100,000 population. In 1938 the rate was 293. per 100,000 population.

Bright's Disease and Nephritis caused 44 deaths for a rate of 54 per 100,000 population. The rate for 1938 was 60.9 per 100,000 population.

Cerebral Hemorrhage, Embolism and Thrombosis were the cause of 87 deaths, with a rate of 106.7 per 100,000 population as against a rate of 94.3 in 1938.

Cancer and Other Malignant Tumors caused 120, or 16 per cent of the total. The 1939 rate was 147.4 as compared with a rate of 136.4 per 100,000 population for 1938.

Pneumonia (All Forms) accounted for 48 deaths, for a rate of 58.9 as compared with a rate of 68.5 for 1938 and 73.4 for 1937.

Tuberculosis (All Forms) was the cause of 35 deaths for a rate of 42.9 per 100,000 population. Table IV shows vividly the declining death rate for this disease.

Maternal Mortality. Deaths classified as maternal took only one life this year; indicating a rate of 8.8 per 10,000 total births. This is a remarkably low rate.

Reportable Diseases. The number of deaths and death rates from contagious and infectious diseases for 1939 are shown in Table III. The death rates for certain of these diseases since 1878 are shown in Table IV.

Automobile Accidents and Injuries caused 7 residential deaths for a rate of 8.6 per 100,000 population as against 9 residential deaths for this cause in 1938. Also there were 2 deaths of non-residents from accidents occurring in Quincy.

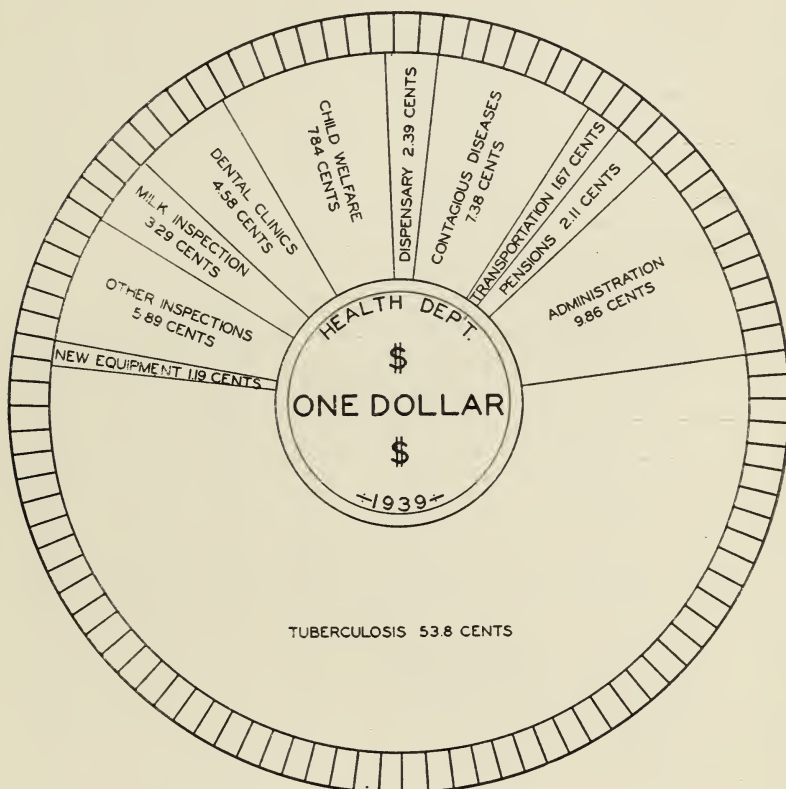

BIRTH STATISTICS

There were 1117 residential births during 1939. Resident births in Quincy were 806, and resident births outside of Quincy were 311. This gives Quincy a birth rate of 13.7 per 1000 population. In addition there were 153 non-resident births in Quincy.

The history of the facilities used by expectant mothers in the cases of child-birth have more than reversed themselves in the last 20 years. In 1919, 942 or 75 per cent of the births of Quincy residents were in the homes and 316 or 25 per cent occurred in hospitals; while in 1939, 46 or only 4 per cent of the Quincy births occurred at home and the balance of 1071 births or 96 per cent occurred in hospitals. This 1939 record is remarkable, in that the rate for births in hospitals throughout Massachusetts in 1939 was 78 per cent and births in homes 22 per cent. In addition there were 11 non-resident births in Quincy in 1919: six of them being born in the Quincy Hospital; while in 1939 there were 153 non-resident births in Quincy; 143 of which were in the Quincy Hospital.

In Table 9 are figures showing the continuous growth of hospitalized obstetric cases for the past ten years as well as the increase in such cases in the Quincy Hospital.

Health Department finances for 1939 analyzed to show the number of cents expended for various items per dollar of total expenditures.

Milk Inspection includes expenses for the inspector and laboratory analysis. Other Inspections include expenses for the following inspectors: Plumbing, Sanitary, Animal and Slaughtering, and Meats and Provisions. Contagious Diseases include hospitalization and other expenses for all diseases except tuberculosis.

TABLE 1.
Resident deaths (exclusive of stillbirths) from each cause, according to the Detailed Information List by age and sex, 1939

January 1, 1940.

DR. RICHARD M. ASH,
Health Commissioner.

Dear Doctor:—

For the second successive year the records show a decrease in the new cases of Pulmonary Tuberculosis. There were 81 in 1938 and 64 in 1939. Naturally, this is good news and may really mean that we are reaching our peak in Quincy. Furthermore, Quincy should—under the law of averages—by now be reaping her reward for the considerable amount of money expended in her intensive fight against Tuberculosis during the last twenty-five years.

Another phase of the Tuberculosis statistics report that is pleasing and important, is the high per cent of cases hospitalized when discovered. This reflects much credit for the Tuberculosis Nurse's field work of rounding up active cases and having their contacts examined at the clinic. In this work the physicians have been very cooperative in sending their indigent cases to the Tuberculosis Dispensary. The more time and expense devoted to field work and contact finding, will always decrease the Tuberculosis rate in the city, and in the long run save the money of the taxpayers. The best slogan for Tuberculosis control, is still early diagnosis and immediate hospitalization of active cases.

"Children's Clinic"

This clinic is still our most efficient link in Tuberculosis control. Here most of our educational work is done and preventive Tuberculosis knowledge spread into the homes. Many parents come with the children to the clinic who would not otherwise appear. Naturally, when present we can easily persuade them to be examined and X-rayed. Thus the clinic does double duty. It prevents the primary case in the child from becoming active Pulmonary Tuberculosis and often discovers the active Pulmonary case in the parents.

Another fortunate phase is the wish on the children's part to be chosen for the eight weeks vacation at Camp Norfolk. It keeps up their by-weekly attendance at the clinic. Whereas, we at the clinic can be better informed on the health conditions in the home. Thus one can readily see the system of Tuberculosis control in Quincy is efficient and progressive and probably explains the decreasing rate of new cases found in the past two years. Let us continue on this road of progress.

"Camp Norfolk"

From an educational standpoint Camp Norfolk goes hand in hand with the Dispensary Clinic. The children look upon the Camp as a recreation centre, whereas, we figure it as a health centre. What they look upon as fun, we call health education, and judging from their appearance at the final round-up at a picnic yearly given them at Duxbury Beach, we are both right. They stand out as happy sun tanned specimens of health, ten to twenty pounds heavier, bright eyed and full of vitality. Naturally, we are proud to look upon these children as splendid examples of health crusaders coming back to their homes and their schools. They are living proofs of what sunshine and rest and medical supervision can do in Tuberculosis control. If there are any "doubting Thomases" in this matter let them visit this camp and they will once and for all be convinced.

For the purpose of increasing Tuberculosis education in the schools and among the public at large, I am happy to report that the Quincy branch of the Norfolk County Health Association has made an intensive drive with increased personnel for the sale of Christmas Seals in Quincy. Preliminary reports indicate splendid success and these additional funds will greatly help in our fight for Tuberculosis control.

I hope to see the day when the National Tuberculosis Association can enter all public schools with a program of their own, administered by their own personnel, in the educational program of the Tuberculosis control. Then we would see real progress.

In closing I wish to express my sincere thanks for your splendid cooperation, also to Miss Russell the Tuberculosis Nurse, and all other nurses who so kindly helped at the clinic during the past year.

Sincerely yours,

CORNELIUS J. LYNCH, M.D.,
Dispensary Physician.

REPORT OF THE TUBERCULOSIS DISPENSARY NURSE

January 1, 1940.

RICHARD M. ASH, M.D.,
Health Commissioner.

Dear Dr. Ash:—

I herewith submit to you my annual report for the year ending December 31, 1939.

Total number of all kinds of tuberculosis on record in the city	603
Pulmonary Tuberculosis	342
Childhood Type	228
Other Forms	33

New cases of tuberculosis reported during the year.....	64
Pulmonary Tuberculosis	56
Childhood Type	2
Other Forms	4
Cases moved in from other cities diagnosed Pulmonary	2

Disposition of New Pulmonary Tuberculosis Cases:	
Admitted to sanatoria	45
Reported by death certificate	2
Refused sanatorium care: at home under own physician	2
Working—reported as an "Arrested Pulmonary Case"	1
Waiting admission to Norfolk County Hospital.....	2
Died at Quincy City Hospital	2
Died at Pondville Hospital	1
Diagnosis revoked at Quincy City Hospital.....	2
Diagnosis revoked at Norfolk County Hospital.....	2
Moved to Medford	1
Moved to Charlestown and hospitalized from there.....	1
New Pulmonary Cases that died during the year.....	6
Cases admitted to Norfolk County Hospital for obser-	
vation for 60-day period	4
Discharged "Non-Tubercular"	3

Disposition of New Childhood Type Cases:	
Admitted to North Reading State Sanatorium.....	1
At home under supervision and attending school.....	1

Disposition of New T. B. Other Cases:	
Admitted to Lakeville State Sanatorium.....	4

"Norfolk County Hospital"

Registration of patients at the end of the year.....	71
Cases admitted during the year	64
Cases discharged during the year	54
Arrested Pulmonary T. B.	18
Indefinite leave of absence to return to the hospital	
weekly for refills—or pneumo-thorax treatments.....	10
Observation cases—discharged Non T. B.	3
Dead	15
Pulmonary T. B. "Quiescent"	2
Pleurisy with Effusion—"Improved"	2
Pulmonary T. B.—"Improved"	1
Bronchiectasis Bilateral—Non T. B.	1
Pul. T. B.—Left against advice to die at home.....	1
Rheumatic Heart Disease—Non T. B.	1

"North Reading State Sanatorium"

Registration of patients at end of the year.....	4
Cases admitted during the year	1
Cases discharged during the year	9
Arrested Childhood Type Cases	8
Transferred to Lakeville State Sanatorium.....	1

"Lakeville State Sanatorium"

Registration of patients at end of the year.....	4
Cases admitted during the year	7
Cases discharged during the year	10
Condition on discharge:	

T. B. Spine—Condition "Arrested"	1
T. B. Spine: T. B. right ankle—Pulmonary Infection "Arrested"	1
T. B. Mesenteric Glands	1
T. B. Kidney—"Left Nephrectomy" Arrested.....	1
T. B. sacro-iliac—"Arrested"	1
T. B. Axillary glands (left) "Arrested"	1
T. B. Kidney readmitted and discharged in one month: "Bladder Irritability"	1
T. B. Kidney—diagnosis changed to "T. B. adenitis- mesenteric"	2
T. B. Cervical adenitis—"Arrested"	1

All ex-sanatorium cases are followed by the dispensary nurse and are transported or referred to the sanatorium out-patient through the dispensary for re-examination and X-ray as indicated on discharge-time ranging from one month to one year.

"Deaths"

Total number of deaths reported during the year.....	34
Died at home	10
Died at Quincy City Hospital	3
Died at Long Island Hospital	1
Died at Norfolk County Hospital	18
Died at Pondville Hospital	1
Died at Wellington Home	1

"Adult Clinic"

Attendance	292
New cases added to clinic register	118
Number of contact examinations made.....	130
Number of sputum examinations made.....	328
Patients X-rayed at Norfolk County Hospital.....	186
Number of Mantoux Tests done	108
Adult clinic registration	95

"Undernourished and Contact Children's Clinic"

Attendance	1159
New cases added to clinic register.....	304
Number of contacts examinations made.....	127
Mantoux Tests done	191
Positive Tests	40
Negative Tests	131

Number of children admitted to Norfolk County Preventorium for eight weeks during the summer	49
Number of children admitted to Prendergast Camp for two weeks period, not eligible for Camp Norfolk.....	3
Vaccinations done	17
Cases referred for dentistry	10
Cases referred to the Quincy City Hospital for T & A.....	29
Cases examined before admitting to Farrington Memorial, Lexington (for Family Welfare)	12
Number of X-rays taken	157
Referred to Mass. General Hospital—Allergy Clinic.....	1
Referred to Eye & Ear Infirmary for glasses	1
Total number of visits made to and in behalf of Tuberculosis patients	2040
Number of cases moved away and new addresses forwarded to the State	20
Cases have been referred to the clinics by other patients, Family Welfare Society, Quincy City Hospital Social Service, School Nurses, and private physicians.	

The other nurses in the Health Department gave their assistance at the dispensary when needed.

Respectfully submitted,

GERTRUDE T. RUSSELL, R.N.,
Dispensary Nurse.

REPORT OF THE CHILD WELFARE CLINIC

January 1, 1940.

DR. RICHARD M. ASH,
Commissioner of Health.

Dear Dr. Ash:—

Despite the fact that the birth rate of Quincy (13.7) for the year 1939 was the lowest in the history of the city, the attendance and registration at the Child Welfare Clinics during 1939 was about the same as it was in 1938.

The infant mortality (30.4) was the lowest ever recorded here. In the previous year (1938) the infant mortality was 37.3. This is due to many factors but the fact that such a high proportion of Quincy babies attend the Child Welfare Conferences, may, to a certain extent, be partially responsible for this low figure.

There were 3 deaths among the registered babies due to the following causes:

Bronchopneumonia
Suffocation
Drowning

It will be seen that none of these deaths are due to nutritional disturbances—which are commonly considered as preventable. Among non-clinic babies there were 3 such deaths. Among the older children there were no deaths from diphtheria, infantile paralysis or scarlet fever. A marked reduction in the number of deaths from pneumonia is undoubtedly due to advances in treatment—particularly the used sulfapyridine.

As time goes on there will probably be a drop in the registration of clinic babies. This will be due to diminishing birth rate and also to increasing interest on the part of the private practitioner in the supervision of their younger patients.

I am sorry to say that the purpose of the pre-school clinic is still considerably misunderstood by the public. There is a strong tendency to use this clinic as a diagnostic and curative clinic instead of a clinic for routine health examinations. Close co-operation on the part of the "Habit Clinic" of the State Department of Mental Hygiene has been particularly helpful to this pre-school age group.

Very truly yours,

EDMUND B. FITZGERALD, M.D.,
Child Welfare Physician.

REPORT OF CHILD WELFARE NURSES

January 1, 1940.

DR. RICHARD M. ASH,
Health Commissioner.

Dear Sir:—

Report of the Child Welfare Nurses for the year ending December 31, 1939.

Total clinic registration during year	1643
Total clinic registration active December 31st.....	1268
Total new registration during year	771
Total clinic attendance	5883

Removed from files for reasons given below:

Deaths	3
Bronchopneumonia	1
Suffocation	1
Drowning	1

Inactive 12 months and over

Entered school

Moved from city

Starting September 1939, each Monday and Wednesday morning was spent in St. Mary's and St. Joseph's Parochial Schools.

Each Saturday morning Mrs. Kerr assisted at the Undernourished Children's Clinic.

Respectfully submitted,

MARY M. McLENNAN, R.N.,
HAZEL R. KERR, R.N.,
Child Welfare Nurses.

REPORT OF ORTHOPEDIC CLINIC

January 24, 1940

DOCTOR RICHARD ASH, *Health Commissioner*
Quincy Health Department
Quincy, Massachusetts

Dear Doctor Ash:

Enclosed is a report of eleven Orthopedic Clinics attended by me during the year 1939.

With kindest regards, I am

Sincerely yours,

JOHN L. DOHERTY.

JLD:MY

Report of Orthopedic Clinic

The following is a report of eleven clinics attended by Dr. John L. Doherty from January 1939 to December 1939 inclusive.

187 children were examined—72 were new admissions and 115 were follow up examinations.

Classification of Conditions Found in New Patients

Pronated feet	26
Knock knees	15
Bow legs	6
Flat feet	19
Poor posture	2
Congenital hip	1
Congenital deformity of toe	2
Tendo achilles bursitis	1
	<hr/> 72

One hundred fifteen children reported for follow up examination.

REPORT OF THE HABIT CLINIC

February 1, 1940

RICHARD M. ASH, M.D.,
Commissioner of Health,
City Hall,
Quincy, Massachusetts.

My dear Doctor Ash:

You will please find enclosed the annual report of the Quincy Child Guidance Clinic for the year 1939. I trust that this will give you the information you desire.

I would appreciate receiving a copy of the report of the Health Department, in which our Child Guidance Clinic report is included.

Sincerely yours,

EDGAR C. YERBURY, M.D.,
Director.

Annual Report of the Quincy Habit Clinic

January 29, 1940.

To the Health Commissioner, City of Quincy:

It gives me pleasure to present the thirteenth annual report of the Quincy Child Guidance Clinic for the fiscal year ending November 30, 1939.

This clinic was organized in 1926 under the auspices of the Massachusetts Division of Mental Hygiene, and has been functioning continually and efficiently since that time, stressing the quality rather than quantity of work. A review of the activities for the past year indicates that this clinic has steadily and actively grown, so that now a maximum case load is being treated by the clinic personnel.

In January, 1939, a change in the policy of all mental hygiene clinics, under the Department of Mental Health, made it possible to include the admission of children up to fourteen years of age. This policy no longer makes it necessary to confine our study to preschool and younger children, as was done under the Habit Clinics, but makes it possible to give intensive study and treatment to all children presenting personality, behavior and scholastic problems referred to the clinic.

There have been some changes in the personnel of the clinic staff during the year. On September 1, 1939, Doctor Charles Brenner was appointed to succeed Doctor Hans B. Molholm as senior psychiatrist. On September 25, 1939, Miss Eleanor Culbert succeeded Miss Sybil Stone as clinical psychologist for the balance of the year. Mrs. Nancy Newell has been the psychiatric social worker at the clinic throughout the year.

The procedure at the clinic does not differ from that which was described in a previous annual report. The clinic staff, consisting of a psychiatrist, psychologist, and psychiatric social worker, co-operates in an intensive study of the individual child, as to his emotional, social, mental and physical health. A program of therapy,

directed toward the improvement of the child's general behavior and his successful adjustment, is outlined to persons interested in the child; including parents, teachers, principals, probation officers and others.

In addition to the clinic personnel already mentioned, a speech therapist and occupational therapist have served at the clinic, and have assisted the psychiatrist in carrying out with children specific therapeutic services in the specialized fields in which they have been trained. While in previous years, students of the Boston School of Occupational Therapy had conducted classes for all the children attending the clinic sessions, during the past year the occupational therapist has devoted her entire time to the cases referred by the psychiatrist for particular reasons; such as, to develop self assurance, self expression, social response, and to improve the mental resources of children, all of which help to facilitate a more satisfactory adjustment to life. The important program of speech therapy has been adequately conducted by a senior speech student from Emerson College, under the supervision of Mr. Samuel D. Robbins, supervisor of speech in the Division of Mental Hygiene. For children, presenting speech problems, which may or may not be complicated by emotional problems or difficulties in adjustment, an intensive program of speech training has been carried on at the clinic.

For the past several years, much attention has been given to the presence of reading disabilities which seriously handicap a child's scholastic progress. Up until the present year, remedial tutoring service had been available through the cooperation of the Boston University School of Education. I regret to say, because of the great demand for this service by many agencies and because the number of teachers enrolled at Boston University for this special course does not meet the demand, it has not been possible to continue the service on a student basis at the clinic during the year. It is hoped that this valuable service might be made available to the clinic in the future through the School Department. This service is one which could be justified on a full-time basis, part of which could be devoted to the School Department and part to the clinic. Considering the fact that so many children are referred for scholastic problems, it would seem logical for the School Department to tie up such service with its educational program.

In most of the cases referred to the clinic, treatment must be carried on through the parents. It is a well-recognized fact that many of the problems of childhood can be attributed to the parents. During the child's formative period of life, we find him reacting to many environmental factors, and it is during these early years that imitation plays an important part in the development of personality. Realizing that the child learns by imitation, it is most important for parents to realize that the child looks up to them as examples. If the child is to acquire good habits, good qualities must exist in the parents. All normal children take in suggestion from the environment from hundreds of sources, and much of suggestion becomes a part of their personalities. Because of this very important relationship existing between the child and his parents, it is essential for the clinic to have the whole hearted cooperation of the parents in carrying out the treatment program.

The clinic appreciates the fact that it is not only necessary to educate parents in mental hygiene matters, but it is equally important to include in this educational program all persons having

contact with the child. For this reason, the clinic held regular bi-monthly conferences, to which physicians, visiting nurses, clergymen, representatives from the School Guidance Department, and social workers from interested agencies had been invited to participate in discussion of individual cases and follow-up treatment.

It has been definitely established that the early treatment of the problems of childhood will result in the prevention of delinquency, dependency and mental disorders in later life. If further progress is to be made in alleviating the problems of childhood, additional clinic service must be anticipated. It is hoped that the community will be sufficiently interested in developing this program of prevention by enabling the Division of Mental Hygiene to augment its clinical facilities by subsidizing at least another much needed weekly session of the Quincy Child Guidance Clinic.

An analysis of the statistical report of the clinic for the year 1939 would indicate that the number of new cases admitted to the clinic has dropped off slightly. This can be attributed to the fact that since the beginning of the year the services of only one psychiatrist has been available in place of two, which had been included in the personnel for previous years.

I would hereby recommend that careful thought be given by the leaders in the community to the necessity of providing additional sessions of the Quincy Child Guidance Clinic, in order to make the service available to more children than is possible at the present time. This service could be made available through subvention by the interested persons in the community.

In conclusion, I wish to express my sincere appreciation to the personnel of the Quincy Child Guidance Clinic who have faithfully served throughout the year and who have helped in making the clinic a success. I am grateful for the cooperation and assistance extended me by the Commissioner of Health, the Superintendent of Schools, the School Guidance Department, and the various health and social agencies, all of whom are actively interested in the health and happiness of our children.

Sincerely yours,

EDGAR C. YERBURY, M.D., *Director,*
Massachusetts State Division of Mental Hygiene.

ECY:MF

REPORT OF NURSE WORK IN PAROCHIAL SCHOOLS

January 1, 1940.

DR. RICHARD M. ASH, M.D.,
Health Commissioner

Dear Sir:

We hereby jointly submit a report of our combined activities in the Parochial Schools of Quincy for that portion of the school year starting in September 1939 to December 1939 inclusive:

Number of visits to schools	63
Number of children given vision test	1154
Number of children examined by nurses.....	130
Number of dental appointments made	120
Number of children referred to private physicians.....	14
Number of children given health inspection	1191
Number of home visits made	10

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.,
 MARY M. McLENNAN, R.N.,
 HAZEL R. KERR, R.N.

REPORT OF INFANTILE PARALYSIS
 COMMISSION

300 Longwood Avenue,
 Boston, Massachusetts.
 January 10, 1940.

DR. RICHARD M. ASH,
Health Commissioner,
 CITY HALL,
 QUINCY, MASSACHUSETTS.

My dear Dr. Ash:

The following is a report of the activities of the Quincy Treatment Clinic for Infantile Paralysis patients for 1939.

There were fifty-three active cases in the district. Of these thirty-five attended the local Clinic which is held each Monday at the Quincy Dispensary on High School Avenue.

During the year, forty-six Clinics were held and six hundred and seventeen treatments given. One case was discharged, one transferred to the Massachusetts General Hospital and one to the State Sanatorium in Middleboro. Three new cases were admitted to the Clinic. Two cases were operated upon; one at the Children's Hospital in Boston and the other at Lakeville.

May I take this opportunity to express the Commission's appreciation of the splendid cooperation extended to its workers at the Quincy Clinic.

Sincerely,

(MRS.) ELSIE M. JEFFREY.

REPORT OF COMMUNICABLE DISEASE NURSE

RICHARD M. ASH, M.D.
Health Commissioner

January 1, 1940.

Dear Doctor:—

I herewith submit my annual report as Communicable Disease Nurse for the year ending December, 1939.

Two thousand, four hundred and eight cases of notifiable diseases were reported as follows:

Anterior Poliomyelitis	2
Chickenpox	227
Animal Bites	159
Diphtheria	1
German Measles	18
Lobar Pneumonia	115
Measles	1280
Mumps	290
Scarlet Fever	151
Septic Sore Throat	2
Suppurative Conjunctivitis	1
Tetanus	1
Typhoid Fever	5
Whooping Cough	156
Total number of visits	3786
By other nurses—1423	

Measles	2298
Scarlet Fever	505
Typhoid Fever	237
(Widals—115 Specimens—76)	
Whooping Cough	125
Diphtheria (cultures 8)	8
V. Diseases	9
Anterior Poliomyelitis	7
Diphtheria Immunization	597

Anterior Poliomyelitis

Two cases reported. Both cases were hospitalized at John Haynes Memorial Hospital.

Diphtheria

One case reported and hospitalized. This was the first case since 1936.

In cooperation with the School Department and the State Department of Health, clinics for immunization were held in all the elementary grade schools and parochial schools. A total of 70 clinics were held. During the year a total of 2221 children were immunized. This number includes children that had been reported as having been immunized by their family physician. The various age groups are as follows:

Under 1 year	1
1 year	458
2 years	311
3 years	177

4 years	171
5 years	195
6 years	451
7 years	342
8 years	47
9 years	17
10-14 years	46
15-19 years	1
Not stated (hospitals)	4

Five hundred and ninety-seven home visits were made in checking immunization records.

Measles

Twelve hundred and eighty cases were reported from the various wards of the city. Ward 1 had the highest number of cases, Ward 4 the lowest number. There was a decided increase over the 205 cases reported in 1938. Six cases were hospitalized.

Scarlet Fever

One hundred and fifty-one cases reported as against 824 cases reported in the previous year. Twenty-two cases were hospitalized.

Typhoid Fever

Five cases were reported and cared for at the Quincy City Hospital. This number was the same as reported in 1938. Three of the patients lived in Ward 3, one in Ward 4, and one in Ward 6.

As in the previous year, home visits were made to patients having had the disease. These visits were made once a month, specimens obtained and sent to the State Laboratory.

At the Health Department office, seven patients were given Typhoid Fever inoculation by the Commissioner, Dr. Richard M. Ash. All had been contacts.

Whooping Cough

One hundred and fifty-six cases were reported as against 52 cases reported in 1938. Five cases were hospitalized.

Office hours were held daily

Children seen in office	690
By other nurses	110

Certificates were given children to return to school as follows:

Mumps	193
Chickenpox	180
Measles	216
Whooping Cough	67
German Measles	3
Scarlet Fever contacts	4
Patients given Typhoid inoculations.....	27

In the follow-up work 3,786 visits were made including placarding, settlement histories, re-visits, school visits, investigation of complaints and examination of contacts for release from quarantine.

For the past four months, Monday and Wednesday mornings from 9:45 to 11:30 A.M. were spent at St. John's School as school nurse.

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.,
Contagious Disease Nurse.

DENTAL CLINIC REPORT

January 1, 1940.

RICHARD M. ASH, M.D.
Health Commissioner

Dear Dr. Ash:—

As in former years the School Dental Clinic is held at the Coddington School five mornings a week for the children of the first three elementary grades. Appointments are made by the school nurses at fifteen minute intervals, from 9:00 o'clock to 12:00 noon and from 1:00 to 2:00 P.M.

During the past year Miss Dorothy DellaLucca, a Dental Hygienist, was appointed to assist me, and on Monday, Wednesday, Friday afternoons and on Saturday mornings, she has been doing prophylaxis for the children of the fifth and sixth grades.

A detailed report of services rendered will be found under Miss DellaLucca's report. It is interesting to note the number of permanent teeth filled. With very few exceptions, this item refers to the first permanent molars. Special attention has been paid to these teeth, as they are in this writer's opinion, the most important teeth in the child's mouth during this age. All deep grooves or fissures are prepared and filled, therefore, removing such areas of susceptibility to decay. This is true preventive dentistry from the mechanical point of view.

The children are instructed on the proper use of the tooth-brush and are urged to brush their teeth regularly. As one writer has said, "The children of today are the adults of tomorrow, and an appreciable percentage of the nation's progress depends upon good dental health."

I want to express my appreciation to Miss Dorothy DellaLucca for her able and efficient assistance. I would be lacking indeed if I did not mention the School Nurses for their fine spirit of co-operation.

Respectfully submitted,

LOUIS E. SULLIVAN, D.M.D.,
School Dental Clinician.

REPORT OF SCHOOL DENTAL CLINIC

January 1, 1940.

DR. RICHARD M. ASH, M.D.
Health Commissioner.

Dear Dr. Ash:—

I herewith submit to you the annual report of the School Dental Clinic for the year ending December 31, 1939.

Number of first, second and third grade children examined..	3,370
Number of dental clinics	208
Number total attendance at clinics	2,690
Number different children treated	723
Number dental appointments	2,837
Number dental appointments not kept	469
Number of extractions	1,102
Number of temporary teeth extracted	1,032
Number of permanent teeth extracted	70
Number of fillings	1,772
Number of temporary teeth filled	749
Number of permanent teeth filled	1,023
Number of prophylactic treatments	884
Number of children refusing treatment	53
Number of emergency cases	112
Number of completed cases	436

Respectfully submitted,

DOROTHY A. DELLA LUCCA,
Dental Assistant.

REPORT OF PRESCHOOL DENTAL CLINIC

January 1, 1940.

DR. RICHARD M. ASH, M.D.
Health Commissioner.

Dear Dr. Ash:—

I herewith submit to you the report of the Preschool Dental Clinic for the year ending December 31, 1939.

Number of clinics	95
Number total attendance at clinics	842
Number of different children treated	141
Number extractions	44
Number fillings	568
Number prophylactic treatments	72
Number treatments	161
Number examinations	20
Number refusing treatment	29
Number appointments not kept	180
Number referred for gas anesthesia	8

Respectfully submitted,

DOROTHY A. DELLA LUCCA,
Dental Assistant.

REPORT OF MILK INSPECTOR

January 1, 1940.

DR. RICHARD M. ASH
Health Commissioner.

Dear Doctor:—

I herewith submit my report for the year ending December 31, 1939.

The following statistics refer to all milk, cream, ice cream, chocolate milk and oleomargarine, produced and distributed in the City of Quincy, Mass.

Dairies in the City of Quincy

- 1 dairy having 63 cows
- 1 dairy having 32 cows
- 2 dairies having 2 cows
- 3 dairies having 1 cow each

Total amount of milk produced daily by dairies in the City of Quincy	1,100
Total number of cows in nearby dairies producing milk for distribution and consumption in Quincy (approx.).....	1,200
Total quarts of milk produced in nearby dairies for sale in Quincy	15,000
Milk contractors' processing plants, storage and creameries, distributing milk, cream and ice cream in the City of Quincy	53
Teams and automobile trucks used for distribution of all milk, cream, ice cream and chocolate drinks in Quincy. All have been inspected and reinspected.....	225
Milk and ice cream processing plants in Quincy.....	17
Amount of milk pasteurized in Quincy.....	33,450
Milk consumed in Quincy daily. All pasteurized, except certified	30,000
Ice cream manufactured in Quincy daily.....	1,000
Ice cream sold and consumed in Quincy daily (gallons).....	2,000
(All ice cream is pasteurized)	
Certified milk sold in Quincy daily.....	150
Grade A milk sold in Quincy daily.....	1,800
Cream, all grades, sold in Quincy daily.....	1,351
Buttermilk sold in Quincy daily	400
Retail licenses issued for the sale of milk, cream, ice cream and oleomargarine in the City of Quincy.....	722
Milk samples collected for analysis.....	1,406
Milk samples collected from teams and trucks.....	908
Milk samples collected from stores and schools....	211
Milk samples collected from dairies	287
Milk samples collected before pasteurization	89
Milk samples below State Standard for fats and solids.....	4
Milk samples in excess of State and City Standard for bacteria	52
Milk samples collected for Phosphatase test.....	150
Ice cream samples collected for bacteria.....	32
Ice cream samples collected for fats and solids.....	32
Number of dairy inspections and reinspections.....	236

Number of processing plant inspections and reinspections, milk and ice cream	163
Store milk and ice cream cabinets inspected and reinspected	669

The use of the Phosphatase test for pasteurization has been a great factor in the correction of pasteurization. I feel with Phosphatase and Babcock, we now have a set-up for perfect control of milk in the City of Quincy.

I believe we should give the country receiving stations more attention, and would recommend at least two visits a year, one in the spring and one in the late summer. I feel that in this way we can keep a good fresh supply coming to Quincy at all times.

Respectfully submitted,

JOHN J. CURTIN,
Milk Inspector.

REPORT OF BACTERIOLOGIST

January 1, 1940.

Plate counts (milk)	640
Plate counts (ice cream)	32
Babcock tests (ice cream)	32
Smears for pus and streptococci (milk).....	640
Chemical examinations (milk)	720
Total examinations	2,064

EDWIN E. SMITH, M.D.

REPORT OF VENEREOLOGIST

January 1, 1940.

Female Clinic

Treated for gonorrhoea (patients)	3
Visits for gonorrhoea	4
Contacts examined	13
Treated for syphilis (patients)	22
Visits for syphilis	392
Discharged	2
Lapsed treatment	9
Remaining under treatment	14
Total visits by females	409

Male Clinic

Treated for gonorrhoea (patients)	6
Visits for gonorrhoea	34
Contacts examined	4
Treated for syphilis (patients)	21
Visits for syphilis	480
Lapsed treatment	8
Died	2
Discharged	7
Remaining under treatment	10
Total visits by males	518

EDWIN E. SMITH, M.D.

REPORT OF INSPECTOR OF ANIMALS AND
SLAUGHTERING

January 23, 1940.

RICHARD M. ASH, M.D.
Health Commissioner.
 QUINCY, MASSACHUSETTS

Dear Doctor:—

I herewith submit my report for the year ending December 31, 1939:

Number of cows inspected	91
Number of dogs quarantined on suspicion of rabies.....	176
Number of cats quarantined on suspicion of rabies.....	8
Number of calls made to quarantined animals.....	402

Very truly yours,

EDWARD A. deVARENNES, V.S.,
Inspector of Animals.

REPORT OF INSPECTOR OF PLUMBING

January 1, 1940.

DR. RICHARD M. ASH,
Health Commissioner.

Dear Sir:—

I hereby submit my annual report as Inspector of Plumbing for the year 1939.

Applications filed 1818
 Received for permits \$1,872.25

The following is a list of applications filed and the amount received by months:

	Applications	Received for Permits
January	112	\$114 50

ANNUAL REPORT OF THE QUINCY CITY HOSPITAL**For the Year Ending December 31, 1939**

To His Honor the Mayor, the President and Members of the City Council:

GENTLEMEN:

The Board of Managers of the Quincy City Hospital submits herewith its report of the Hospital activity for the year 1939. Included in this report are the detailed departmental reports made by the Superintendent and the several department heads of the Hospital.

Continued Progress

With the increased demand for hospital services, there were 367 more patients admitted in 1939 compared with 1938. There were 5,433 more patient days treatments rendered in 1939, as compared with 1938. The daily average census for 1939 was 13.8 higher than in 1938.

In spite of these increases, the Board of Managers is glad to report a reduction of \$9,000 in the deficit to the City of Quincy for the operation of the Hospital in 1939, as compared to 1938. All of this has been accomplished without reducing any of the Hospital's necessary services to the patients served throughout the year.

In 1939 there were 915 babies born at the Hospital, with no maternal deaths. We are exceedingly proud of this record, and of the members of our Medical and Surgical Staffs who produced these results.

During 1939, the admissions were 6,839; discharges 6,665; deaths 278.

Personnel

There were 270 employees on the Hospital payroll, as of December 31, 1939. This includes nurses, telephone operators, maids, orderlies, housemen, etc. The bed capacity of our Hospital is 250 beds, plus 50 bassinets. The average number of employees for management and care of patients in a general hospital, as recommended and approved by hospital and medical authorities, are 1.2 employee per bed. According to such a ratio, the number of employees should be 300, but through careful planning we have been able to hold down our number of employees to a figure much less than the average of other general hospitals, and still give excellent service to all patients. On the basis of the payroll for the year, our employees are paid an average yearly salary of less than \$1,000 per year per employee.

Buildings and Equipment

The Board has continued with its policy of maintaining the hospital buildings and equipment in good condition, in order to meet the demands of the Medical Staff, and of the patients under our care. This policy has resulted in discharging "satisfied patients", as well as contributing to the general health and welfare of our city.

Statistics prove that the mortality rate in Quincy was the lowest of any community of its size in the Commonwealth. The Hospital

has contributed its share along with the other health and social agencies in our city, and by careful supervision on the part of our Administrative Staff, these results have been obtained at a minimum cost to our citizens.

No person in need of hospital care, regardless of finances, is turned away from the Hospital, for lack of funds. Persons able to pay, however, are expected to meet their financial obligations for the services rendered them. Judging from the excellent results shown by the receipts from hospital bills, again our Administrative Staff is to be commended for their efforts.

Improvements

Several improvements were made in the Hospital during 1939. Upon the recommendation of the Staff, the sterilizing room was enlarged and new up-to-date sterilizing equipment was installed to replace already antiquated equipment.

New oil-burners were installed in December. This has made it possible to step up the efficiency of the original boilers, which were built some seventeen years ago to serve a 105-bed hospital. With two new buildings, the Administration Building and the addition to the Nurses' Home, new and larger boilers would have had to be installed if coal was to be continued as fuel. We are grateful to Mayor Burgin and the City Council of 1939, for having made these oil burners available through a special appropriation in November 1939.

The Gordon House

It was with a great deal of pleasure that the Board of Managers dedicated, on November 12th, 1939, the new addition to the Nurses' Home, "The Gordon House" in memory of Dr. John A. Gordon, co-founder of the Quincy City Hospital. The Gordon House is now able to comfortably house 150 nurses. On November 1st, allowance to nurses for living out ceased, thereby resulting in a net saving to the city of several thousand dollars yearly. Incidentally, authorities agree that when nurses live at the Hospital, nursing efficiency is at a higher level.

Future Improvements

The Board wishes to bring to the attention of the Mayor and the City Council that we are in need of an additional floor to the Service Building for a Nurses' Dining Room. The original dining room facilities for nurses and employees were for a 100-bed hospital. Since the Hospital has now grown three times this size, it can be easily realized that we now have a problem here owing to the lack of room. It is difficult to serve the 270 employees and 60 student nurses three times daily. All told, over 1,500 meals are served daily at the Hospital, and in the course of a year approximately 580,350 meals are furnished.

Another problem that confronts us is the need for a new surgical wing. The Staff has already brought this acute need to the attention of the Board of Managers. Preliminary plans are available both for the building and the necessary equipment.

Both of these improvements are important matters which should receive the attention of the Mayor and the City Council during 1940. It must be remembered that the Quincy City Hospital, on

account of its large percentage of private cases, might be termed a "Private Hospital", not run for profit by the City of Quincy. Regardless of one's financial status, every citizen in our city has available to him the services of a Class-A Hospital, well equipped, and adequately staffed. This is unlike most other municipal hospitals where only the indigent, or persons with communicable or mental disease are treated.

Activities and 1940 Budget

The activities of all our Hospital Departments are on the increase as the result of greater demands for more hospital services by a larger number of citizens. This will entail larger expenses and an increased budget for 1940 but which will be compensated by larger receipts.

Salary Survey Committee

It has been the policy of the present Board of Managers to pay a just wage to all employees at the Hospital. The Salary Survey Committee has approved whole-heartedly of this policy of the Board. Only insofar as the working conditions at the Hospital for our employees are good and just wages are paid, can we continue to render the quality of hospital service for which this Hospital is recognized not only in Quincy, but throughout New England.

Administration Staff

The Board of Managers wishes to take this opportunity to commend the excellent work of the Hospital Superintendent, Dr. Joseph P. Leone. The loyal and conscientious service of Dr. Leone and his capable assistants have materially helped to make the work of the Board of Managers pleasant and easier of accomplishment.

Appreciation

The Board of Managers wishes to express their appreciation to the various agencies who have cooperated so effectively with hospital aid. We also wish to express our appreciation to His Honor, the Mayor, all Members of the City Council, all other City Departments, for the splendid spirit of helpfulness and cooperation given to the Hospital throughout the year 1939.

The Board of Managers wishes to express their sincere thanks to the Quincy Patriot Ledger for their loyal cooperation in handling Hospital news.

REPORT OF THE SUPERINTENDENT

To the Board of Managers of the Quincy City Hospital:

MRS. LANE AND GENTLEMEN:

December 31, 1939 brings to a close another banner year of service rendered by the Quincy City Hospital to its constituents, citizens and taxpayers of Quincy. It is my privilege, as your superintendent, with the aid of my assistants to present herewith a summary of the various activities at the hospital for the year just ended.

More and more the members of the community in need of hospital care are availing themselves of the services rendered at our hospital. The number of visits to the various departments and the great increase in the number of examinations and tests performed prove this fact.

Highlights for 1939

We present a few of the highlights from the "Log" of 1939:

- | | |
|----------|---|
| January | Work started on the new addition to the nurses' home. |
| February | A water-cooled ultra violet lamp purchased for the Physiotherapy Department. |
| April | A third technician added to the X-ray Department.

It was recommended by the Staff that the new addition to the nurses' home be known as the "Gordon House" in memory of Dr. John A. Gordon, co-founder of the Quincy City Hospital. |
| May | Two ventilating air-way windows built in the basement of the Hunting Building for the linen and sorting room.

First series of Health Lectures successfully concluded at the hospital on May 10, 1939.
Enlargement of the parking area facilities in the rear of the Operating Room. |
| June | New sterilizing equipment recommended by the Staff to be purchased for the Sterilizing Room to replace the antiquated equipment.

Painting of the M&S-1 and M&S-2 wards.
New laboratory rates put into effect.
Fourteen student nurses graduated on June 14th. |
| July | An additional laboratory technician employed on the Laboratory staff.

An additional dry tumbler installed to facilitate movement of linen through the laundry.
A new Blodgett bake oven and a stainless steel vegetable sink installed in the kitchen.

Purchase and installation of a suction-therapy boot for the Physiotherapy Department. |

- August Purchase of new sterilizing equipment for the Operating Room.
- Addition to sterilizing room, off the Operating Room wing, completed.
- Installation of five-foot fence adjoining the nurses' home and the Service Building.
- September Resignation of Mrs. Ann Oatt, night supervisor for five years. Miss Ruth Horrigan, assistant for two years previous, was promoted to the position of night supervisor; Miss Constance Lundy, a Quincy City Hospital Alumna, was appointed assistant night supervisor.
- The wives of the Medical Staff of the hospital formed a new auxiliary, known as the Women's Auxiliary.
- Hospital superintendent attended the American Hospital Association meetings in Toronto.
- November Oil burners purchased through a special appropriation. New addition to the nurses' home opened. The nurses' home was dedicated as the "Gordon House" on November 16.
- Reports from the State House indicate that the premature births at our hospital had a low mortality rate of 16%, compared to 38% for the state.
- December The Sears Estate purchased by the Trustees of the City Hospital of Quincy and presented to the Board of Managers of the Quincy City Hospital.
- Deficit for running the hospital reduced during 1939 by \$9,000.

400 Bed Hospital Needed in Quincy

There is still much to be done if the hospital is to continue with the progress of the times and of our growing community. With a population of 80,000, a four-hundred bed hospital is necessary for our community. Fortunately for Quincy this size hospital has not been necessary since we are close to the Boston hospitals. Hospitals in Boston and in this locality are running practically to capacity.

Daily Census Higher

Until recently we have had a few available vacant beds on Rice-1. The census at the hospital during the month of December shows a tendency of rising and remaining more constantly over two-hundred patients.

Additional Private Rooms Needed

It is the recommendation of your superintendent that immediate plans be made to renovate Rice-2 for private room accommodations. There has been a greater demand for private rooms for some time now. Ten additional private rooms should relieve this problem some degree for a few years at least. The cost for alterations, painting and equipment will be approximately \$5,000. These rooms may be used for obstetrical and gynecological patients. For the

past several years, Rice-2 has been used to accommodate house officers, until they were moved into the Administration Building in April 1937. Since 1937 this floor has been used to house eleven staff duty nurses. On January 1, 1940, the nurses using these quarters were transferred to the Gordon House.

Hospital a Great Factor in Community Public Health

Accident cases treated at the hospital continued on the increase in 1939. The Hospital Department cooperated again with the School Department in rendering first aid and hospital care to many of our school children to the extent of \$1,182. The hospital also cooperated with the Park Department in the treatment of injuries resulting from games played at the Municipal Stadium. Not only were the injured treated, but the supplies for first aid treatments were also given to the doctor in charge at the football games. It is the policy of the Quincy City Hospital to cooperate with all health and social agencies in Quincy in the treatment of the sick and injured, and in the promotion of health education by means of health lectures at the hospital and by talks to various groups throughout the city by your superintendent and his assistants. Furthermore, our department is always ready to cooperate with department heads of other agencies in giving health talks and explaining the functions of our hospital.

Work Done for City Departments

The following statistics may be of interest to the citizens of Quincy, showing work done by the hospital for which it receives no remuneration, during the year 1939.

Welfare	370 cases	\$12,785.52
School Cases	134 cases	1,182.20
Internes and Nurses	206 cases	4,452.50
Employees	86 cases	1,228.55
Old Age Assistance	150 cases	8,329.75
Mothers' Aid	46 cases	1,064.70
Abatements, Free and Part-Free Accounts	781 cases	34,201.15
		<hr/> \$63,244.37

New Addition to Gordon House—Home for Nurses

Outstanding improvements in 1939 included the completion of the addition to the nurses' home to accommodate seventy-eight nurses. The building consists of four floors. The fourth floor is for the exclusive housing of night nurses, while the first, second and third floors are used for day nurses. On the ground floor are classrooms, dietetic laboratory, science laboratory, laundry, breakfast room and kitchenette. The study hall and library are on the further end of the first floor. Over the library on the second floor are two-room accommodations for the superintendent and assistant superintendent of nurses. Charge nurses, instructors and supervisors occupy double rooms, with a bath for each two individuals, and a living room for each four individuals. An infirmary, accommodating three patients, is also on the second floor. The building is simple in architecture and very convenient. Each room has running water, ample closet space, simple and useful maple furniture, consisting of a desk, chair, easy chair, bed, bureau and mirror, floor lamp, and rug.

Up-to-Date Equipment Installed in Sterilizing Room

Upon the recommendation of the Surgical Staff, the Board of Managers approved of the building of an addition to the overcrowded sterilizing room with its antiquated equipment. This unit was completed and new sterilizing equipment installed in November. This new equipment should take care of the sterilizing problem in the Operating Room for many years to come.

Nurses' Alumnae Shoppe

The Alumnae Shoppe has now been in operation for two years. During this time profits have accrued so that the first scholarship may be given to a graduating nurse in the class of June 1940. This scholarship of three hundred dollars is to be used for further post-graduate study in nursing.

Blue Cross Helps Many Patients to Meet Hospital Bills

There has been a considerable increase in the number of Blue Cross cases that have used the facilities of the hospital. During the year there was an average income of \$1,850.00 a month from this source. It is the hope of all hospital people that more citizens will avail themselves of this protection by subscribing to the Blue Cross through their place of employment.

Praise for Staff Cooperation

Your superintendent is indebted to the Staff, its president and officers, and members of the Executive Committee for their invaluable assistance and cooperation in all staff-administrative matters throughout the year. We hope for this continued cooperation.

Increase Continues in Social Service Department

The work in the Social Service Department, in common with all other departments, has been on the increase now for some time, and it has been necessary to add a full-time clerk to this department.

Additional Technicians

A technician, Mr. Elliot Vining, was added to the X-ray Department, and an additional technician, Miss Marjorie Davison, was necessary in the Laboratory.

Women's Auxiliary Formed

The wives of the Medical Staff of the hospital formed a women's auxiliary. The primary purpose for its formation was to acquaint the members with the objectives of the hospital. Under the able leadership of the president, Mrs. F. Ramon Burke, regular meetings have been held each month, and have been well attended. One of the highlights of their program was the Christmas party that they gave for the children in the hospital.

Social Service Committee Enlarges its Field of Service

The Social Service Committee has just completed its third year of valuable service to the hospital and to many worthy patients. Mrs. Malcolm Sargent is its capable chairman. During 1939, funds

received from this Committee were spent for blood transfusions, breast milk for premature infants, special nurses, medicines for expectant mothers attending Prenatal Clinic, splints and braces. This money was raised by the Committee by conducting the annual charity ball. A substantial sum was donated by the Italian Associates Club, with the aid of the Italian Dramatic Club, who made it possible for the Social Service Fund to reach and help many more worthy patients than it had in the past. The City of Quincy should encourage the Committee's good work by purchasing tickets to the annual ball which is usually held the second Friday after Easter. This year the Social Service Committee purchased two hospital beds and a wheel-chair, which may be loaned out to patients in their homes at a nominal cost.

Hospital Costs on the Increase

Your superintendent wishes to quote from "Hospitals" some of the reasons for increased hospital costs. These facts are the result of extensive and careful scientific research that has been carried out throughout the country.

Nursing Load Increases

"The Nursing load, that is the number of hours' service per patient per day, has been markedly increased, and while it has resulted in better service to the patient it has at the same time required a larger number of graduate and subsidiary workers. This decrease in student nurse service has been met by a very large increase in the number of general duty nurses employed.

Labor Costs

"Decrease in hours of labor for nonprofessional employees has resulted in an increase in the number of these employees. A recent check of a few typical large hospitals indicated an increase of approximately 10 per cent in the number of employees per patient in 1939 as compared to 1935.

Scientific Progress

"Lastly, the march of scientific medicine goes steadily onward and hospitals are increasingly prompt in applying these scientific advances to the care of their patients. Such comparatively recent improvements as fever therapy, oxygen therapy, and shock therapy are all distinct advances but all require close supervision and especially trained personnel for their proper administration.

Future Hospital Costs

"There is no reason to doubt that the future will bring even greater demands to the hospital. None of the conditions which account for the increases of the last ten years are static. All are dynamic.

"The nursing curriculum will steadily become more exacting, the trends in labor are all toward the shorter work week, and lastly, scientific medicine is still in its early adolescence."

Hospital Has Many Friends

Many generous friends continue to show their interest in the hospital activities by presenting books, magazines, flowers, toys, clothing and miscellaneous equipment for the patients at the hospital. An effort is made to send home a toy or book with every child discharged from the hospital. We can continue this only insofar as our friends continue to remember us.

Clergy Cooperative

To the clergy, and to the many civic and service organizations in the city, we owe a great deal of thanks for their cooperation and understanding of our difficult tasks in the ministering of the sick.

Employees Remembered

Our employees have been diligent workers, faithful and cooperative in rendering a high type of service to the patients who come under our care. It has been a pleasure to be associated with them in serving the sick.

To my faithful department heads and assistants, I am duly grateful for their assistance in the management of the affairs of the hospital.

Other City Departments Cooperate With Hospital

To all city departments and all department heads, including employees at City Hall, we say "thank you" for the splendid cooperation given us during the year.

It is with distinct pleasure that I extend my gratitude and appreciation to the Board of Managers, His Honor, Mayor Thomas S. Burgin, and the members of the City Council, for their splendid cooperation.

Quincy Patriot Ledger Friendly to Hospital

May I express my sincere thanks to Mr. John Herbert and his staff of the Quincy Patriot Ledger for the cooperation they have given us in getting across to the citizens of Quincy the work accomplished at the hospital.

Needs for the Hospital

1. Additional floor to the Service Building to be used for a nurses' dining room.
2. A new surgical wing—to include, on the first floor, an emergency and accident ward; on the second floor, to increase our nursery to eighty-five cribs; and to establish, on the third floor, accommodations for operating rooms.
3. Deep X-ray therapy machine.
4. Equipment for a convalescent home for women and children.
5. Radium fund to be established in Quincy.
6. To enclose the porches on the M&S and Hunting buildings in order that patients may use this room the year around.

Respectfully submitted,

JOSEPH P. LEONE, M.D.,
Superintendent.

REPORT OF THE SCHOOL OF NURSING AND THE HOSPITAL NURSING SERVICE

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

During the year, thirty-one students entered the school, ten in the February class, and twenty-one in September. Following the completion of the four-months' preliminary term in June, eight students were accepted, and on the last day of December there are eighteen preliminary students remaining from the group who entered in September. Three have withdrawn because of ill health or other reasons.

In spite of personal interviews with all applicants previous to admission, and with planned time for orientation to the work and to dormitory life, as well as careful consideration in the selection of those applicants who have demonstrated necessary aptitudes for nursing, we do experience a limited number of unanticipated losses from each preliminary class.

Local High Schools Co-operate with School of Nursing

The Principals of the local senior high schools are endeavoring to assist those students who have expressed an interest in nursing as a career, by inviting a nurse educator to meet groups of students at the high school to outline the requirements and opportunities in nursing. We have found it advantageous to supplement these formal talks with a planned tour of our hospital and to include demonstrations of nursing techniques which are given by our student nurses.

We believe the time given to this project is well spent if first-hand knowledge of the care of the sick will help to redirect those young women who have only a casual interest in nursing to some other line of endeavor.

Census December 31, 1939

The census of the school and the Nursing Department is as follows:

Supt. of Nurses and Principal of the School	1
Asst. Supt. of Nurses and Principal of the School.....	1
Ward Instructor and Day Supervisors	3
Anesthetist	1
Night Supervisor and Assistant	2
Head Nurses and Assistants (Day)	14
Head Nurses (Night)	1
Graduate Staff-Duty Nurses	77
Enrolled Student Nurses	43
Preliminary Students	18

In addition to the students away at affiliation, approximately seventeen, it should be borne in mind that special departments within the hospital absorb six or more students at all times, namely the Diet Kitchen, Operating Room, and Delivery Room in the Maternity Department. This group of students is, therefore, not assisting materially with bedside nursing.

As one reads figures, the number may appear relatively high, and so it seems well to point out that from this number we furnish twenty-four hour service, seven days a week to all departments

except the Diet Kitchen. There are three shifts in each twenty-four hours. All graduate staff-duty nurses and students have one day off in seven and our numbers must be adequate to cover for those off duty as well as other unforeseen exigencies. The task of providing adequate nursing service would indeed be simple, and much less expensive, if a hospital closed its doors and turned out the lights between 5:30 P.M. and 9 A.M.

However, measured in terms of service to the sick of this community who turn to their hospital for care, it seems to those of us who are blessed with good health well worth all effort and expense involved.

New Addition to the Residence

The much-longed for addition to the nurses' residence became a reality in November, and before December 1st all graduates who had been living outside the hospital for a period of years were assigned to rooms in the residence.

On November 16th, simple informal dedication exercises were held in the living room. A plaque on the first floor dedicates the building to the memory of Dr. John A. Gordon, a co-founder of the hospital and a member of the original medical staff.

We are already appreciating the conveniences and comforts provided in the new wing, as well as several improvements made in the original building.

Perhaps the two features which have brought the greatest benefits are the single rooms for night nurses on the fourth floor where they are away from the noise of the street and the confusion which comes from the daytime activities within the residence; also the fact that exposure incidental to travel during inclement weather has been obviated for many of the staff. We have already noticed a lower incidence of illness among the graduate nurses.

The well-lighted and ventilated science laboratory on the ground floor of the wing is proving a great convenience, since it reduces travel time between classes. For these and many other conveniences we are grateful that the plans for the new addition have come to pass.

Gift to the Residence

Increasing the size of the residence necessitated additional reception rooms for visitors on the first floor.

An alumna of the school, Mrs. John W. Burke, Jr., has been interested to provide furniture for the three new rooms and to replace the worn-out furniture in the one reception room. The gift is presented by the donor in the nature of a memorial to former interested friends of the hospital. When completed, we will have an adequate number of attractively furnished reception rooms for the one-hundred-and-fifty resident personnel.

We sincerely appreciate the time and painstaking care which Mrs. Burke has given in the selection of the furnishings.

Graduation

Graduation exercises were held on June 15, 1939. The Reverend Michael J. Ahern, S. J. of Weston College, was the speaker of the

afternoon. Diplomas and pins were awarded to fourteen young women. A much appreciated gift to the school, from the graduating class, was a brain model for teaching purposes and the first gift to be received for the new science laboratory.

Reference Library

The reference library in the residence has been catalogued by a trained librarian. This project was much needed in order to locate material readily. It is hoped that we may eventually be able to have the services of a librarian for at least a few hours each week so that new editions may be properly catalogued and cross filed, and also to assist in the collection and filing of pertinent scientific current literature and illustrative material.

Curriculum

Revisions have been made in a few courses so that the content of each will be in accord with present-day needs in nursing practice. A short course in Sociology has been added during the junior term from which the student should gain a more thoughtful appreciation of the various significant factors underlying problems of illness within the family and the community.

Faculty

A number of the graduate staff are continuing to carry part-time work in education at nearby colleges in preparation for their teaching duties in the wards. The assistant head nurse, MS-2, Miss Dorothy Smith, has been granted leave of absence for a year of study at Teachers' College, Columbia University.

Advisory Committee

The Advisory Committee to the School meets once each month from September through May to consider problems relative to the administration of the school. The majority of the members attend the meetings regularly. The advice and counsel from the group is most helpful to the Principal and conducive to the progress of the school.

Accreditation

Accreditation of Schools of Nursing is going forward in this country under the auspices of the National League of Nursing Education, the educational section of the American Nurses' Association. Two significant purposes of the nation-wide survey are, to assist the deans of colleges, principals of high schools, and prospective applicants in the selection of a school of nursing offering a sound educational program, and also to help those responsible to improve their school. A list of schools meeting optimum standards in nursing education will be published in 1941. It is hoped before another year that this school may be in a position to participate in the survey.

The plan for accreditation of nursing schools has been set up on a basis similar to other well-known accrediting associations for allied professional schools.

Increase in Nursing Service

The hospital has been called upon to supply nursing service to a greater number of patients than ever before. The nurses have endeavored to meet the many and growing demands in a creditable manner. If expressions of gratitude from many discriminating patients are an indication of good service we have at least in part succeeded in strengthening the confidence of the public in the hospital. A contented and happy personnel has much to do in maintaining a desirable esprit de corps, which is so essential for a high type of professional service.

We believe the year has been one of growth and progress, and as we look forward to the year ahead we trust that whatever problems may arise will challenge us to renewed effort and the best type of professional service.

Respectfully submitted,

HELEN O. POTTER, R.N.,

Superintendent of Nurses.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN :

Each year finds the Social Service Department increasing in scope and adding new functions, so that at the end of the seventh year, it has grown from a credit investigation department to an agency calculated to aid the patient, doctor, and hospital in solving the many social problems which may hinder efficient medical care.

We find that we have a definite service to offer each of the medical services. our functions including among others, arranging for convalescent care, purchasing surgical appliances, booking tonsillectomies, and admitting patients to the prenatal clinic.

Tumor Clinic

We are pleased to announce that on September 8, 1939, the Quincy Tumor Diagnostic Clinic first opened its doors. This clinic, subsidized by the State Department of Health, is open to all residents of the South Shore, with no restrictions as to ability to pay. Its function is to encourage the general public to seek early diagnosis for suspicious growths, so that if malignancy is present, it may be treated while it is in an early stage, and thus is more readily curable. While the clinic does not treat any cases, it is the duty of the social worker to see that those who require treatment receive it, either at this or another hospital, or at the office of their family physician.

The growth of this clinic has been slow, but steady, and we feel that it will not be long before it takes its place beside the prenatal clinic as the nucleus of an efficient and well-organized out-patient department.

Cases Studied

There were two thousand, one hundred seventy-eight service patients admitted to the hospital in 1939, each of whom was investigated from the standpoint of ability to pay for hospital care, and on each a legal settlement was determined by the department with the cooperation of the Settlement Division of the Department of Public Welfare.

In one hundred forty-four cases of emergency admission due to automobile or other accidents, we checked with the police and other records, and contacted insurance companies, as well as obtaining settlement and financial histories, so that we might protect the hospital bill in case there was no insurance coverage. The members of the staff, for the most part unaided by volunteer help, made one thousand, two hundred sixty-two home visits during the year, which included the transportation of four to eight patients to and from the hospital for physiotherapy, three times a week. Forty patients were referred to convalescent homes; thirty-one patients were transferred to other hospitals for special care, either as house patients or out-patients; four patients were transferred to the City Home; district nursing service was called in for twenty-four patients; surgical appliances were furnished 16 patients. There have been three hundred and eight outside settled cases referred to the Department of Public Welfare for reimbursement or protection, and four hundred and eighty welfare cases, including those receiving

Old Age Assistance and Aid to Dependent Children, were admitted to the hospital.

Prenatal Clinic

There were one hundred eighty-four new patients admitted by the Social Service Department to the Prenatal Clinic in 1939, and a total of seven hundred fifty-four visits were made at the clinic.

We are sincerely grateful to Mrs. Grace Lee and the members of the Quincy Visiting Nurse Association for their interest in and devotion to our prenatal clinic patients, as is evidenced by the frequency of their visits, and regularity of their reports.

Miss Helen Perry, nutrition consultant of the Junior Welfare League, was prevented by illness from carrying out her intended program of food education at the clinic, but we hope that the new consultant, Miss Marjory Foster, will carry on where Miss Perry left off.

Social Service Committee

The Social Service Committee for 1939 included Mrs. Malcolm Sargent, Chairman, Mrs. Earl Baker, Mrs. Fred Bergfors, Mrs. Alfred Brown, Mrs. F. Ramon Burke, Miss Gertrude Callahan, Mrs. T. Vincent Corsini, Mrs. Edward Dobbyn, Mrs. Harry E. Dupee, Jr., Miss Helen Gavin, Mr. Guy Hart, Mrs. Paul Karcher, Mrs. Harold Newell, Mrs. Everett Robbie, Miss Carlena Walker, Miss Marjorie Welch, Dr. Joseph P. Leone, and Miss Ruth Darr, Secretary.

Miss Gertrude Callan resigned in May, 1939 in order to fulfill other obligations. In the fall of 1939, the following new members were elected: Mrs. Robert Gilmore, Mrs. Edward M. Nathan, Miss Sadie Papile, Mrs. Merton F. Rix, and Mrs. Fred Tobben.

The third annual Charity Ball sponsored by the Committee took place at the Neighborhood Club on April 21, 1939 with Mr. T. Clinton Johnson as chairman. This was the most successful ball given, financially speaking, and as the sum earned was equalled by a donation from the Quincy Italian Dramatic Club, as a result of a play which they presented for the Committee, the Social Service Fund was able to extend its service beyond individual help to assisting the hospital in its education program by acting as co-sponsor for the Health Lectures given at the hospital in connection with National Hospital Day.

Another innovation was the bridge party which the Committee sponsored at the hospital on November 17. A profit of sixty-six dollars was realized, but it was felt that a far greater profit lay in the fact that it gave many women a chance to see the hospital, and become acquainted with its aims and purposes, without first having to be sick.

The success of this affair has convinced the Committee that it should be an annual occurrence, in the future.

The interest of these men and women in the hospital, and more particularly, the time and energy which they have spent in attending meetings, and arranging the ball and bridge party, is indeed gratifying, and I wish hereby to express publicly my sincere appreciation and gratitude.

Services Rendered By Other Agencies

It is only once a year that we are able to express publicly our appreciation for the many services rendered the department through the year, and we welcome the opportunity thus offered to thank the following who have given generously of time and money to our department.

1. Commissioner of Public Welfare, Anthony J. Venna, and his assistants in the Bureau of Old Age Assistance and Aid to Dependent Children, as well as in the Public Welfare Department.

2. The Family Welfare Society.

3. The Visiting Nurse Association.

4. The Kiwanis Club.

5. The organizations which donated and decorated Christmas trees to impart a more home-like atmosphere to our wards—The Squantum Junior Women's Club, the Quincy Junior Women's Club, the Germantown Garden Club, and the Stoney Brae Garden Club.

6. Those who volunteered in our office, notably Miss Bette Cutler, a student at Boston University, who helped with the clerical work for the summer months, and Mrs. Richmond Gordon, who transported patients for a short while at the beginning of the year. We are always grateful for the support of Mrs. Claire Nelson, of the Red Cross Motor Corps, who may always be called upon in an emergency.

7. No single agency or individual can prosper without some help from others, and especially in the complex organization of a municipal hospital it is necessary for complete cooperation among all departments—both within the hospital and in all the units of the City government. For this spirit of helpfulness, which we have found in the City and Hospital departments, and especially the Board of Managers, the Superintendent and the Medical and Surgical staffs, the gratitude of all the members of this department is expressed. Miss Muriel Brady, and Miss Betty McNicol, co-workers within the Social Service Department, who have worked tirelessly and cheerfully in many trying circumstances, to them, the director wishes publicly to announce her appreciation and thanks.

Respectfully submitted,

RUTH DARR, *Director,*
Department of Social Service.

REPORT OF X-RAY DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

I herewith submit a report of the work done in the X-ray Department during the year 1939.

Increase for Year Slightly Less Than 10%

The number of patients radiographed and treated was 4,895 as against 4,431 during the preceding year—a gain of slightly less than ten per cent.

New Technician

Elliot G. Vining, an experienced male technician, was added to the personnel of the department last February and his work has

been very satisfactory from the start. In company with the other technicians, Rebecca Philbrick and Constance Larkin, the routine of the laboratory has been thoroughly done.

Clerical Work

In February, Phyllis Acebo was promoted to another department in the hospital and her place was taken by Mildred Anderson. Although medical dictation is very difficult, Miss Anderson soon mastered it and the clerical end of the department has progressed smoothly.

New Equipment Recommended

I recommend the purchase of a high voltage X-ray therapy unit having the flexibility to enable us to approach a deep-seated tumor from any angle. The specifications for this unit are on file in the front office, and if purchased, will provide an up-to-date and much needed therapy outfit.

The following is a statistical report of the work done in the laboratory from January 1, 1939 to December 31, 1939:

Examinations

Gastro-intestinal tract	251
Barium enema	78
Gall bladder	143
Kidneys, ureters and bladder	250
Pyelogram	99
Chest	982
Spine	433

December	409

Total Examinations and Treatments..... 4,895

We wish to express to the Administration and the Staff, our appreciation for their continued cooperation.

Respectfully submitted,

CHARLES WHELAN, M.D.,

Radiologist.

REPORT OF LABORATORY DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The following is the report of the Clinical and Pathological Laboratory for the year 1939.

A total of 29,840 examinations of various types were performed during the year, an increase of almost 6,000 examinations over the previous year.

Many new tests have been added during the past year, including a presumptive serological test on donors for transfusion. The increased use of Sulfanilamide and Sulfapyradine in Streptococcic and Pneumococcic infections has necessitated the determination of the level of these drugs in the blood. Blood chemistry tests, including Cholesterol, Carbon Dioxide combining power, Creatinin and Sodium Chloride, are now performed in the Laboratory.

A total of 108 autopsies, 36.3% of the deaths, the largest number and percentage since the inception of the Laboratory, was performed during the year 1939. In 1930, the total number of autopsies was 23, with 10.7% of the deaths. The increase in the number of autopsies reflects the scientific interest of the Staff and the cooperation of the public in granting the permission to perform these examinations.

Pneumococcus typing has showed a further increase and the value of the test in applying the proper treatment is recognized by the profession and the public.

Basal metabolism rates and the electro-cardiograms now total 540 for the year, with an increase of 100 over the previous year.

The School of Nursing now has its teaching laboratory in the new wing of the Gordon House. The laboratory formerly used by them has been taken over by the Laboratory Department.

The increased work has necessitated the addition of another technician to the Laboratory Staff, Miss Marjorie M. Davison, of Wolaston.

Miss Frances K. Morris, Miss Elinor D. Rich, and Miss Ruth H. Kuhns, having passed the requirements based on training and experience, have become registered in the Registry for Medical Technologists of the American Society of Clinical Pathologists.

I wish to acknowledge the continued service rendered by the technical staff.

The following is a detailed report of the various tests performed by the Clinical and Pathological Laboratory for the year 1939:

Pathologist.

REPORT OF PHYSICAL THERAPY DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The following report of the activities of the Physical Therapy Department is respectfully submitted.

We were fortunate during the past year to add to our equipment a Suction Pressure Therapy apparatus for the treatment of peripheral vascular disease. This was delivered in the summer and since then we have given 119 treatments with it. The results have been very satisfactory and it will be a useful addition for next year's work because of the increasing number of patients admitted to hospitals now with problems of this type.

The increasing demand for short wave diathermy has placed a heavy load on our one machine, there having been given 1,176 treatments during the past year while 1,671 long wave diathermy treatments were given on the three machines we have for this type of work.

No changes in personnel were made during the past year, the technical work being done by Mr. Leland Stevens and Miss Elizabeth Gordon. The secretarial work of Miss Mary Popowitz has been of great help in keeping our records complete.

Examinations and Treatments in 1939

Examinations	56
Hot Packs	1

Respectfully submitted,

CLAUDE L. PAYZANT, M.D.,

Director, Physical Therapy Department.

REPORT OF THE DIETARY DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

During the year of 1939, approximately 134,820 persons were fed at the Quincy City Hospital. This number includes all patients, doctors, nurses, and employees. The approximate cost of uncooked food for the year was \$60,500.00, averaging about \$0.44 a day per person. This figure includes all diets to all patients including private patients as well as the entire personnel of the hospital.

Our food costs are broken into five large divisions, and the following is the approximate percentage spent for each division:

Meats, Fish, Poultry	28%
Milk, Cream, Ice Cream	24%
Butter and Eggs	10%
Fresh Fruits and Vegetables.....	12%
Groceries	27%
(included all other foods)	

There are five persons who do all the cooking and baking for the hospital. Added to these are four boys who clean in the kitchen, deliver food to the wards, and can help with the preparation of vegetables if necessary.

The dining room personnel consists of six waitresses and one dish washer. This year, new bakery ovens were installed in the kitchen which have greatly improved our bakery products as well as using less gas.

Respectfully submitted,

LAURA D. WENDT,
Dietitian.

REPORT OF THE HOUSEKEEPING DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

During the year 1939, a new tumbler for drying clothes was installed in the Laundry. The efficiency of this department has been increased by this machine which has also proved to be a time-saver.

Two new windows have been completed in the Linen Room, which have greatly facilitated the work done here.

The employees of the Housekeeping Department attended and greatly enjoyed the Christmas party for hospital employees.

Respectfully submitted,

CATHERINE LAUDER,
Housekeeper.

REPORT OF MAINTENANCE DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The following is an itemized report of major work done by the Maintenance Department during the year 1939 in addition to other maintenance work at the Hospital.

1. Rebuilt dishwashing machine to suit conditions in the diet kitchen of M&S-2, and installed new stainless steel sink and counter in this kitchen.
2. Installed additional stainless steel shelves in the Cafeteria.
3. Installed new gas bake-oven in Main Kitchen.
4. Installed new rotary drier in the Laundry.
5. Installed piping and electric work to equipment in the new sterilizing room.
6. Installed two full-size steel sash windows in the basement of the Hunting Building.
7. Extended suction to M&S-2 with provision to extend same to M&S-3.
8. Extended and fenced in the parking area.
9. Installed shelves, counters, piping, and made the necessary minor alterations in the Gordon House.

During the year we have added to our equipment one electric hammer and we have found this piece of equipment a great saver of time and hard labor.

The oil burners installed under our boilers together with the boiler meters, at the beginning of the heating season, are functioning very satisfactorily. Although records, to date, cover only a short period and are not complete enough to claim any great saving in fuel consumption, nevertheless a great saving has assuredly been accomplished insofar as an additional employee would have been necessary for the further burning of coal. The oil burners have also made it possible to carry our total steam load on two of our three boilers, thus leaving the third as a safety factor in an emergency, and they will also allow approximately a twenty-five per cent increase of steam generation in the future, with the same factor of safety and no extra labor costs. The frequent complaints of smoke have also been eliminated.

Respectfully submitted,

CARL ERIKSSON,
Chief Engineer.

REPORT OF THE PRESIDENT OF THE STAFF

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

For the last year the Staff has functioned with excellent efficiency and there is complete confidence that this standard will be improved as time goes on. There has been fine cooperation with the Board of Managers which has facilitated the smoothness with which the Staff has operated.

There have been some changes in the personnel of the Staff in 1939. New men have been added to the Courtesy Staff, and special privileges have been granted to four physicians who are Quincy-born men, not having been practicing the full two years. Dr. William A. McCausland, Dr. Walter L. McClintock, Dr. Leslie Van-Raalte, and Dr. Alfred V. Mahoney have been added to our Active Staff.

It is with pleasure that we announce an addition to our Consultant Staff as hematologist, Dr. William P. Murphy, of Boston. We are fortunate in having obtained the services of a man with the ability and reputation of Dr. Murphy.

The Staff meetings have had a better attendance than previously. These regular meetings are now held on the third Thursday of the month at eight-thirty o'clock in the evening. Interesting programs are presented, together with hospital subjects.

The Staff has enjoyed its association with the Hospital Superintendent, Dr. Joseph P. Leone. Our relations have been most congenial and this has immeasurably increased the efficiency of the Staff.

Respectfully submitted,

F. RAMON BURKE, M.D.,
Staff President.

REPORT OF THE INTERNES COMMITTEE

To the President of the Staff of the Quincy City Hospital:

DEAR SIR:

During the year 1939, the Internes Committee have met several times. Candidates for internship were recommended to the Board of Managers for appointment. Those appointed for service beginning January 1, 1939 were: Dr. Leo Milner, Dr. Lester I. Fox, and Dr. Robert J. Sherman. Those appointed for service beginning July 1, 1939 were: Dr. Antonio J. Giacomini, Dr. Edward F. Fitzgerald, and Dr. Frank J. Chiminello.

Dr. Vincent D'Elia was appointed Resident Physician from January 1939 to July 1939. Dr. Burton Elder was appointed Resident Physician, beginning July 1, 1939.

The service of the internes is for eighteen months and is rotating. This plan has worked out for the benefit of the hospital and is also of great advantage to the internes themselves.

The Internes Committee has endeavored to select internes from as many different Class-A Medical Schools as possible. This advantage to the hospital is apparent because the internes bring different ideas as a result of their instructions from varied medical schools. We have had a very good class of internes and feel that they have and will receive most valuable experience before going into the general practice of medicine. There have been conferences with the house officers, clinical instructions and lectures by the Staff with the aid of the Resident Physician. The house officers are expected to attend the clinical meetings of the Hospital Staff and also the lectures by visiting physicians.

On June 30, 1939, the following internes were graduated and received diplomas: Dr. Aaron Levin and Dr. Frank D. Elkavich, who completed eighteen months of rotating service, and Dr. Haig Bozgian, who completed twelve months of rotating service.

On December 31, 1939, the following internes were graduated and received diplomas, having completed eighteen months of rotating service: Dr. Jack Gurwitz, Dr. Francis X. Walsh, and Dr. Morris Taylor.

It has been the custom to collect two and one-half dollars from each member of the Active and Courtesy Staffs of the hospital, with which a substantial gift may be made to each graduating house officer in recognition of favors and service to visiting physicians in the hospital. These gifts were made in 1939.

The Internes Committee wishes to express thanks to the Superintendent of the Hospital, who acts as secretary for this Committee, for help in contacting the different medical schools and keeping files and records of prospective candidates.

Respectfully submitted,

CHARLES S. ADAMS, M.D., *Chairman*,
RICHARD M. ASH, M.D.,
ROBERT L. COOK, M.D.,
FRED P. COSTANZA, M.D.,
WILLIAM J. HARKINS, M.D.,
JOSEPH P. LEONE, M.D., *Secretary*.

REPORT OF THE STAFF PROGRAM COMMITTEE

To the President of the Staff of the Quincy City Hospital:

DEAR SIR:

1939 saw an improvement in the attendance of Staff meetings. There are still several Active and Courtesy Staff members who attend infrequently, if at all.

The meetings have been of considerable instructive interest, mainly addressed by prominent members of the profession out of Quincy.

The Clinical-Pathological meetings have been reorganized into instructive teaching of the internes by members of the Active Staff.

Respectfully submitted,

J. EDWARD KNOWLTON, M.D., *Chairman*,
ROBERT O. GILMORE, M.D.,
WILLIAM L. KRIEGER, M.D.,
FRANCIS G. KING, M.D.

REPORT OF THE AURAL SERVICE

To the President of the Staff of the Quincy City Hospital:

DEAR SIR:

During the year 1939 the Aural Service was very efficiently served by Dr. Robert O. Gilmore, Dr. James M. Ward, and Dr. Walter L. McClintock. Their cooperation and spirit is excellent and does much for the improvement of the service.

During 1939 there were 644 children, twelve years old and under, admitted for tonsil and adenoid operations. The Aural Service, excluding private patients, admitted 389 patients, 323 of which were tonsil cases.

The total number of Aural patients, private and service, that were discharged during this year was 1,181. Of this number, there were two deaths and one hundred cases that had consultations.

I would like to express my thanks and appreciation of the excellent cooperation from the Aural Service members and the Staff members, as well as the Nursing and Hospital Staffs.

Respectfully submitted,

WILLIAM J. HARKINS, M.D.,
Chief of Service.

REPORT OF THE OBSTETRIC SERVICE

To the President of the Staff of the Quincy City Hospital:

DEAR SIR:

The following is a report of the Obstetrical Service for the year 1939:

Number of Service Deliveries

Caesarian section	1
Internal podalic version	1
Mid forceps	3
High forceps	3
Breech extractions	10
Low forceps	17
Normal delivery	149
One set twins	2
Total number of babies born.....	186

Respectfully submitted,

RICHARD M. ASH, M.D.,
Chief of Service.

REPORT OF THE PEDIATRIC SERVICE

To the President of the Staff of the Quincy City Hospital:

DEAR SIR:

The statistics for pediatric admissions and discharges for 1939 are as follows:

Service Admissions	130
Discharges	218

Included in the figures for discharges were pediatric private cases and transfers from other services. Also, there were one-hundred and twenty consultations. There were twelve deaths of which seven went to autopsy.

During the year the Quincy City Council approved of the purchase of the Sears Estate, adjoining the hospital grounds. It is hoped that the building on this estate will be repaired and redesigned with a view to its ultimate use as a convalescent home for women and children. There are many service cases that are now kept in the wards for a considerable time that would probably recover more quickly in the atmosphere of a convalescent home. The cost per child in such a home would be much less than the same stay in a hospital ward. Occasional laboratory check-up could easily be made on children resident in such a home, and the Pediatric Service could make a weekly visit.

Respectfully submitted,

EDMUND B. FITZGERALD, M.D.,
Chief of Service.

REPORT OF THE HOSPITAL LIBRARY

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The Hospital Branch of the Thomas Crane Public Library has completed fourteen years' service to the patients and staff of the Quincy City Hospital.

In September of this year, Miss Gertrude Henrikson resumed her duties as Hospital Librarian, after completing her studies at the Carnegie Institute of Technology Library School where she had specialized in hospital and medical library work.

The book service to patients is still on the five-day week basis, with each patient having an opportunity to change his books three times a week. Many of the patients have been so delighted with this library on wheels that they have expressed the wish that a home service to convalescents could be inaugurated. The hospital librarian feels that such a follow-up plan would be well worth the extra time and expense involved, and she cherishes the hope that such an innovation might be established sometime in the near future.

The children are particularly responsive as is best illustrated by the avidity with which they pour over their books. Even the youngest ones clamor to be remembered, so picture books are in constant demand.

To be sick is disheartening enough, but to be in a hospital and to be partially or totally unfamiliar with the English language is even more bleak. The foreign books loaned to such patients range from the popular Finnish and Italian to the less called-for Syrian and Polish, and all have had their share towards shortening the long hours for this foreign-speaking group.

There are now more than 1,494 books and a number of magazines in the present library collection, nine periodicals being subscribed for annually and other used copies being donated by friends. The permanent collection is continually being supplemented with books from the main library.

The total circulation figures for the year 1939 show an increase of 1,017 over last year. The number of books and periodicals circulated during this same year is as follows:

Adult fiction	9,236
Adult non-fiction	4,494
Juvenile fiction	2,548
Juvenile non-fiction	464
Total.....	16,742

Respectfully submitted,

GERTRUDE HENRIKSON,

Hospital Librarian.

Thomas Crane Public Library

REPORT OF WOLLASTON HOSPITAL AID ASSOCIATION

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The Wollaston Hospital Aid will close the 1939-1940 season on Thursday, May 2, 1940.

Meetings have been held on the first Thursday of each month from 10 A.M. to 3:30 P.M. There is a short business meeting at 2 P.M. and the rest of the time is devoted to making the various articles for the hospital.

Transportation to and from the hospital is taken care of by one of the members.

A short report on the Wollaston Hospital Aid was given at the March meeting of the City Federation by the president, Mrs. R. E. Martel.

A donation was made to the Respirator Fund. Sunday afternoon lectures at the hospital were attended by several of our members.

We find the work very interesting and hope our efforts have benefited our hospital.

Respectfully submitted,

SELINA MARTEL,

President.

QUINCY CITY HOSPITAL GENERAL INFORMATION

The Quincy City Hospital is a city institution supported by the city of Quincy and the receipts from patients.

Private patients, as well as part-pay and free patients, are admitted to the hospital upon recommendation of any physician.

Only those unable to pay a doctor's fee will be admitted to the ward service.

Application for admission should be made at the Admitting Office on Whitwell Street between the hours of 9 A. M. and 4 P. M. Maternity cases are admitted at any time. Accident or emergency cases are received in the Accident Room at any time.

Patients suffering from mental or chronic diseases are not admitted to the hospital.

RATES

1. General

Service—\$3.00

Ward Private—\$3.50

Semi-private—\$4.00

Private rooms—\$5.00, \$6.00, \$7.00 a day.

2. Maternity

Service—\$24.50 per week.

Ward Private—\$4.00 a day.

Semi-private—\$5.00 a day.

Private rooms—\$6.00, \$7.00 a day.

These charges include board, general nursing care, and ordinary medicines. An operating room fee of \$5.00 for minors and \$10.00 for majors is made. A laboratory fee of \$5.00 is made on all specimens obtained from operations in the operating room. This examination is required by the American College of Surgeons. Extra charges will be made for X-ray examinations, special medicines, Physio-therapy treatments, special laboratory examinations, apparatus, board of special nurses, oxygen, professional blood donors, and ambulance service.

Private patients are required to pay one week's board and the operating room fee or delivery room fee on admission. Patients coming from outside of the city are expected to have a private physician, a member of the Quincy City Hospital Staff. Patients must arrange with their private physicians regarding their fees. The physicians on service receive no remuneration for their services to the ward patients.

The hospital reserves the right to move to the open ward a patient occupying a private or semi-private room who fails to pay his bill for hospital service within seventy-two hours of presentation.

VISITING HOURS

1. Adults

Service: 2-3 P.M., daily, 2 visitors only.

7-7:30 P.M., daily, 1 visitor.

Semi-private: 2-3:30 P.M., daily, 2 visitors.

7-8 P.M., daily, 2 visitors.

Private Rooms: 11 A.M.—8 P.M., daily, 2 visitors at a time.

2. Children

2-3 P.M., Wednesdays and Sundays, 2 visitors on each of these days.

Patients who are dangerously ill may have two visitors at any time. Children under 14 years should not be brought to visit patients.

Visitors may bring only fruit, flowers, and reading matter to adults. These gifts must be left at the Information Desk or with the nurse on the ward, and must not be given to the patients. Only toys may be brought to the children's ward, and must be given to the nurse in charge.

At 3 P.M., on inquiry at the Information Desk, the relatives of patients may talk with the physician in charge.

Patients may be visited by clergymen of their selection, and, so far as possible, the hospital will grant the performance of any desired religious rites.

PRIVATE NURSE

Arrangements for special nurses should be made through the Admitting Office upon consultation and advice of the attending physician. The salary of the special nurse is paid directly to her by the patient or relatives. The hospital makes a charge of \$.50 a day for her board. Quincy City Hospital graduates, when available, are given preference.

Miscellaneous Information

TELEPHONES

There are telephone connections in all private rooms. Instruments may be installed with the permission of the attending physician. There is an extra charge for this service.

RADIOS

In order to promote quietness for the patients in the hospital, only ear phones and magic ears are allowed for use in the hospital. These can be obtained at a nominal fee from the Admitting Office.

WHAT TO BRING

Private patients entering the hospital should bring with them nightgowns, bathrobe, slippers, comb, tooth brush, and tooth paste. Maternity patients are requested not to bring clothing for the baby to wear in the hospital.

VALUABLES

Money and other valuables must be deposited with the Admitting Office upon admission; otherwise no responsibility will be assumed by the hospital.

LIBRARY

The Thomas Crane Public Library maintains a branch at the Quincy City Hospital. Books are obtainable from the librarian, who visits each floor between 2:30 and 5 P. M. daily except Saturday.

SUGGESTIONS

It is requested that any suggestions for improvements of service be made at the Superintendent's Office before the patient leaves the hospital.

WITH SERVICE FOR ALL

The Quincy City Hospital is a health Institution; its duty is to care for the sick in our community, in order that they may live and enjoy their life, their work and their home.

Can anyone imagine our community without a hospital? We defy the mind to conceive such a nightmare.

We ask your support and in return we give you our solemn assurance that you may be confident that every dollar given us will be carefully expended in order that life and happiness may be prolonged.

REPORT OF THE PUBLIC WELFARE DEPARTMENT

HON. THOMAS S. BURGIN, *Mayor of the City of Quincy:*

The Department of Public Welfare respectfully submits the following report for the year ending December 31, 1939:

General Relief

During 1939 the many benefits under the Federal Social Security Act have resulted in a savings in the various categories of relief in this department. We have also found that the payments by the State on Unemployment Insurance have eliminated the need for aid to persons temporarily unemployed in a great many instances.

Industrial conditions have improved to a certain extent during the past year, and at the present time in Quincy, are better than during the past few years. The number of persons employed on the W. P. A. is approximately the same as last year, therefore this department felt no great change. However, we were very materially affected by the eighteen-months ruling which necessitated aid being granted to many persons laid off on the W. P. A. until their reinstatement at the termination of the thirty-day period. During the past year this department has continued to act as certifying agent for the W. P. A. and the C. C. C.

By having persons work for aid furnished to them and their families, this department has furnished the city with 70,378 work hours in the past year.

Because of better economic conditions and certain defined policies which we put into effect, the expenditures for 1939 were \$83,332.45 less than in 1938. I hope to continue these policies.

City Infirmary

In November, 1938 Mrs. Anna Vaughn who had been superintendent of the infirmary for a great many years, retired. In March, 1939, Mr. William Taylor was appointed and is now serving in the capacity of superintendent. We have continued to improve the infirmary which is now well equipped and in good repair. We have endeavored during the year to make the infirmary as comfortable as possible for the occupants.

Clinic and Dispensary

Quarters have been provided for both the clinic and dispensary in the Welfare Offices. The clinic is conducted by our city physicians three times weekly, and upon prescription medicines and medical supplies are furnished by our dispensary. We have found that this arrangement has resulted in a considerable reduction in the expense of maintaining this service.

Old Age Assistance

Since September, 1936 when the age of eligibility for Old Age Assistance was reduced from seventy to sixty-five years, the average increase in our case load has been about two hundred and fifty

cases per year. However, during 1939 the case load increased from 983 to 1027, an increase of only 45 cases. We expect that unless the age of eligibility is further reduced, the normal number of new applicants should not be greater than during 1939. The death toll has been great during the past year in our early Old Age cases, whose ages ranged from the late 70's to the early 80's, who had received this type of assistance from its inception in 1931.

On January 1, 1940 the Old Age Pensions and Survivors Insurance under the Social Security Act became effective. This act will ultimately tend to reduce the number on Old Age Assistance, but at the present time no change has been felt as eligibility for the benefits under this Act depends on contributions during 1937-38-39 while in covered employment. Apparently we have not many persons available for these benefits because we have not noticed any change in the number of persons now receiving Old Age Assistance or the number of new applicants. Under the Act, a person, upon reaching the age of sixty-five years, can continue working until he chooses to take the benefits of the pension under the new amendment.

During the past year the Old Age Assistance Board has had re-investigated and re-checked, practically every case and made adjustments, keeping in mind the comfort of the person being assisted. This has resulted in a substantial reduction of the amount being granted in many cases.

In order to provide quarters for the increased personnel in the Old Age Assistance Office, but more for the convenience of the persons receiving Old Age Assistance, the office was removed from Saville Row to 1372 Hancock Street, Quincy.

Aid to Dependent Children

Because of a change in the Social Security Act regarding Aid to Dependent Children the State law was amended on August 12, 1939, to include in this form of aid children between the ages of sixteen and eighteen who are regularly attending school. This amendment made it necessary to continue for an additional two years cases which ordinarily would have been closed when the youngest child became sixteen. It also increased the cost per case by the addition of this new age group to cases already receiving aid, and widened the scope of the Aid to Dependent Children law by the admission of new cases which formerly would not have been eligible. In 1939 there was an increase of twenty-three cases over the previous year due to the foregoing changes, and it is expected that there will be a further increase in the number of cases receiving this type of aid in 1940.

We again wish to express our appreciation of the continued co-operation manifested during the past year by the various departments and organizations throughout the community.

For the details of expenditures, reference is made to report of the Auditor of Accounts.

Respectfully submitted,

ANTHONY J. VENNA,
Commissioner of Public Welfare.

CONCLUSION

As the Inspector's branch of the Department now has a Captain in charge of all investigations received by me, I believe the best interests to bring about more efficiency in numerous cases involving statements taken from defendants, also witnesses in numerous important cases, require the services of a male stenographer, preferably a member of the Department.

To persons not familiar with Police Department duties, there is little chance for them to pass fair judgment as to the justification of our claim for additional officers. I can only urge the necessity of the men, believing that the last half detail should be of the same numerical strength as the first.

I believe that the life of any automobile in the Police Department, used continually as Radio cars is one year and recommend the replacement of all seven autos used in that line of work and the addition of a car for the Automobile Bureau.

In conclusion, I wish to thank Mayor Burgin, the City Council, the heads of the various City Departments for their assistance given me. I am also grateful to the District Attorney and the members of his staff, to the Justices of the Court, the Probation Officer and members of his staff, to the Clerk of the Court and his office staff for their consideration and advice.

To all members of the Department who have worked to reach and maintain a high standard of efficiency, I am sincerely thankful and to assure my appreciation that our best efforts to merit their confidence in the future will be given.

Respectfully submitted,

JOHN J. AVERY,
Chief of Police.

REPORT OF FIRE DEPARTMENT

February 10, 1940.

HON. THOMAS S. BURGIN, *Mayor*
City of Quincy, Quincy, Massachusetts

(This total includes 8 reported fires which were investigated by the department and are included in the annual fire loss.)

Cash received from sale of old tires, recharging extinguishers, fireworks permits, alcohol permits, and sale of old junk.....\$189 70
(Paid to City Treasurer)

The fire loss for the year showed an increase of less than \$1,000 over that of 1938, although the number of alarms increased 398 and the value of the property involved was more than \$300,000 higher than in 1938.

The number of alarms for the year showed an increase of 398 over 1938. This is the highest number of alarms the Quincy Fire Department has ever responded to; however the number of false alarms showed a decrease of 8 partially due to the excellent co-operation received from the Veterans' Organizations who voluntarily guarded boxes on Hallowe'en.

On February 15th before the Fire Chiefs' Club of Massachusetts the Fire Headquarters and Fire Alarm wing was formally dedicated.

On July 15th the new West Quincy Station was occupied and on November 14th was formally dedicated with a parade of civic organizations and an open house.

The City Council passed and the Mayor signed an order for \$20,000 to purchase an Aerial Ladder to replace Ladder 1. The contract was awarded to the Seagrave Corporation to deliver a 100 foot hydro aerial truck. This truck will replace Ladder 1 at Fire Headquarters and old ladder 1 will be placed in service as Ladder 3 to replace the old LaFrance ladder which had been placed out of service in March because of defective ladders.

The old LaFrance ladder 3 was converted to a hose wagon to be known as Hose 2. For less than \$1,000, the department has an excellent reserve truck which can be used in multiple alarms and to cover other engine companies under repairs.

Enough wheat lights were purchased to make it standard equipment for each member of the department on duty.

A new Buick Deputy Chief's car was purchased and placed in commission.

Lieutenant Leroy Nickerson was retired from the department on July 22nd on a pension for disability. Lieutenant Nickerson had an enviable record on the department both as an officer and a private for a period of fifteen years.

Private James J. Daly was promoted to Lieutenant to fill Lieutenant Nickerson's vacancy. Private Daly, although one of the younger members of the department, had an excellent record as a fireman.

Recommendations

I wish to make the following recommendations and strongly urge that they be adopted as soon as possible.

That a mechanic be appointed to maintain the apparatus in perfect condition. Under the present system a mechanic is called in when repairs are necessary; with a mechanic on hand at all times his duties would be to keep the apparatus in perfect running condition at all times.

That a building program be mapped out to replace the following stations: Quincy Point and Hough's Neck. They need not both be built this year but should be done within the next two years. Quincy Point Station is in poor condition and needs immediate attention.

That three firemen be appointed to replace the men assigned to fire alarm as operators.

That another Special Service Truck be purchased and placed in service at Atlantic Station to cover the north portion of the city. The number of alarms received yearly and the distance of response from Fire Headquarters warrant this second truck.

In conclusion I wish to express my sincere thanks to His Honor, the Mayor, the City Council, the various city departments, and to the officers and men of the fire department who, through their zealous and untiring work have earned my sincere gratitude.

Respectfully submitted,

WILLIAM J. SANDS,
Chief of Fire Department.

FIRE AND POLICE SIGNAL DEPARTMENT REPORT

January 1, 1940

HONORABLE THOMAS S. BURGIN
Quincy, Massachusetts

Dear Mayor:

I respectfully submit the annual report of the Fire and Police Signal Department for the year ending December 31, 1939.

Personnel of Department

Thomas J. Smith, *Superintendent*

Maintenance Men

George N. Leonard
Richard Williams

Patrick H. Reddington
George B. Howie

Fire Alarm

Twenty miles of construction was renewed in various parts of the city during the year plus a large amount of isolated construction changes to cooperate with other interests on poles and underground systems.

All parts of the system were carefully checked at frequent intervals to insure reception of alarms of fire under all conditions.

Police Signals

The signal system was maintained in first class shape throughout the year, numerous box locations were changed to permit rerouting of officers.

Traffic Signals

Traffic signals were checked carefully throughout the city during the past year and numerous changes were made to benefit both motorists and pedestrians, more changes should be made this coming year if the convenience and safety of the public warrants.

Very truly yours,

THOMAS J. SMITH,
Superintendent Fire and Police Signals.

REPORT OF INSPECTOR OF BUILDINGS

January 2, 1940.

HON. THOMAS S. BURGIN,
Mayor of the City of Quincy.

Dear Sir:

Statement

Cash received each month for permits issued from January 1, 1939 to December 31, 1939 and paid to the City Treasurer is as follows:

January	\$145 00
February	53 00
March	266 00
April	186 00
May	162 50
June	420 50
July	187 00
August	181 00
September	175 00
October	262 00
November	179 50
December	82 00

\$2,299 50

The year nineteen hundred and thirty-nine showed a decided increase in building construction in the city over the year nineteen hundred and thirty-eight.

It is interesting to note that the number of family units provided increased from 150 in nineteen hundred and thirty-eight to 231 in nineteen hundred and thirty-nine, caused mainly by the increase in four family houses.

The largest individual new projects were the Procter and Gamble Mfg. Co. plant, amounting to \$550,550.00, a store for the Faxon Trust \$50,000.00, the West Quincy Fire Station \$35,900.00 and a Bowling Alley at Wollaston \$18,000.00.

Other large projects under alterations were as follows:

Bethlehem Shipbuilding Corporation	
Office Building Addition	\$150,000 00
Mold Loft Addition	80,000 00
Joiner Shop Addition	20,000 00
Boiler Shop Addition	15,000 00
City of Quincy	
Nurses' Home Addition	127,500 00
Superior Realty Corporation	
Supreme Market Addition	20,000 00
Procter and Gamble Mfg. Co.	
Process Building Alterations	150,000 00

During the year all elevators were given a practical test as required under Chapter 143 of the General Laws.

All fire appliances were tested during the month of April as required under Chapter 143 of the General Laws.

Respectfully submitted,

ALRICK A. WEIDMAN,
Inspector of Buildings.

REPORT OF INSPECTOR OF WIRES

January 2, 1940.

HONORABLE THOMAS S. BURGIN
Mayor of Quincy, Quincy, Massachusetts

Dear Sir:

I respectfully submit my annual report as Inspector of Wires for the year ending December 31, 1939.

Inspection in Buildings

The following specified schedule of electrical inspections made of lights and other appliances installed.

Number of permits issued in 1939.....	1,869
Fees received for the above	\$1,752.15
Number of electricians doing work in 1939.....	980
Inspections made as per permits issued	2,970
Defects noted on installations	196
Number of unfinished installations	18
Number of old installations reinspected	171
Reinspections after fires	51
Total inspections made during the year.....	3,192
Total amount of permits issued to the Quincy Electric Light & Power Company to install service and elec- trical appliances	385
Refrigerators wired for, permanently	24
Electric ranges wired for	95
Number of lights wired for	7,407
Oil burners wired for	292
Signs wired for	201
Motors wired for	324
Total horse power of the above	1,023

Number of Old Buildings Wired

One family houses	8
Two family houses	7
Four family houses	3
Miscellaneous	2
	<hr/>
	20

New Buildings Wired

One family houses	129
Two family houses	2
Three family houses	3
Four family houses	19
Mercantile	12
Manufacturing	3
Garages	7
Miscellaneous	13
	<hr/>
Total	188

Additional Wiring in Old Buildings

One family houses	634	
Two family houses	42	
Three family houses	14	
Four family houses	16	
Mercantile	280	
Manufacturing	29	
Miscellaneous	646	
		1,661

This department had taken care of all electrical repairs and re-wiring in school buildings under the W.P.A.

I wish to thank you and also the Fire Department for your co-operation at all times with this department.

Very truly yours,

FRANK LINTS,
Inspector of Wires.

REPORT OF SEALER OF WEIGHTS AND MEASURES

HONORABLE THOMAS S. BURGIN,
Mayor of Quincy, Massachusetts

Dear Sir:

I submit herewith the annual report of the Department of Sealer of Weights and Measures for the year ending December 31, 1939.

Financial Statement

JAMES M. CANTFILL,
Sealer of Weights and Measures.

REPORT OF ENGINEERING DEPARTMENT

January 2, 1940.

HON. THOMAS S. BURGIN, *Mayor of the City of Quincy*

DEAR SIR:

I herewith respectfully submit the forty-first annual report of the Engineering Department for the year ending December 31, 1939.

During the forty years this department has been in existence, the population of Quincy has increased from about 24,000 to the present population of over 80,000. Naturally, the work in this department has increased in the same proportion. The ordinance covering this department requires that all matters pertaining to civil engineering created in any department of the City, come under the jurisdiction of the City Engineer. Therefore, as the requests are so numerous, I shall not endeavor to itemize them but will include a general description herein.

City Council

All meetings of the City Council and meetings of the Finance Committee were attended by the City Engineer, and he furnished when requested, information as to costs, and advice on projects submitted by them.

Plans for the acceptance of streets, land takings, sewers and drains, and plans for hearings of various kinds were prepared by this department.

City Clerk

All plans for acceptance of streets and land takings were prepared and furnished to the City Clerk who in turn placed them on record with the Council Order. Reports on accidents received from the City Clerk were immediately investigated by this department, and surveys made in preparation for any suit that might be brought against the City.

City Solicitor

The usual number of plans and surveys were made for land takings, sewer, and drain easements, and approved by the City Solicitor.

During the year the City Engineer was called upon to make plans and to testify in his capacity for the City Solicitor in legal actions against the City.

Plans for releases with description of taking for land, sewer or drain easements were prepared in this office. The City Engineer also interviewed individuals whose property was affected and prepared all information required by the City Solicitor.

Tax Collector

Requests received by the Tax Collector from attorneys and individuals asking for information regarding betterments and liens numbered 756. These were referred to and filled by this department.

Descriptions of 5,947 parcels of land to be sold for unpaid taxes were furnished the Tax Collector.

Assessors

Due to the enormous increase of transfers of ownership, and work involved in making the necessary changes on Assessors tracings, it now requires two assistants to give most of their time to this work.

During 1939 there were 2,120 transfers of properties as against 1,963 for 1938.

There are about 702 Assessors plans on file and each year about 100 must be redrawn because of excessive wear due to handling and erasures caused by changes in ownership.

When requested, surveys and plans were made for Tax Appeal Cases. Several such surveys were made during the year.

Building Department

There were 253 applicants for permits to build or move buildings referred to this department. The City Engineer personally visited each site and established the grade .

When called upon by the Building Inspector, the Engineer inspected such buildings and structures that were to be condemned and made his report thereon.

Cemetery

The usual work was carried on in connection with staking of lots and extension of drains and water pipes within Mt. Wollaston Cemetery. The granite wall enclosing the cemetery was completed during the year. The work was done by the W. P. A. and has improved the beauty of the surrounding area.

Park Department

The Park Commissioners called upon this department to lay out baseball and football playing fields on each of their playgrounds during the respective seasons. Much work was done on various playgrounds by the W. P. A. For further details see the W. P. A. report.

Sewers

During the year 3.04 miles of sewers were constructed. The sewers were planned and laid out by this department, and lines and grades, together with progress estimates, were given during construction.

For itemized list of sewers constructed during the year, see attached schedule.

Surface Drains

During the year 1.46 miles of surface drains were constructed together with 65 catch basins and 26 manholes.

The cleaning,, straightening and widening of Furnace Brook and Town Brook was continued under a W. P. A. project. That portion of Town Brook from the railroad track, through private property and the City Parking Area was inclosed with a concrete box culvert. The lower end of Town Brook from Hancock Street to Washington Street is still in the process of construction and will be completed early in 1940.

For schedule of locations with lengths and sizes of drains built, see attached list.

Accepted Streets

The City Council accepted a number of streets during the year. Many of the streets that were accepted in 1939 were built, and a number accepted too late for construction were held over until 1940.

See schedule for streets accepted and accepted streets constructed.

Street Rebuilding

The amount available for Rebuilt Streets was \$289,754.21, which was divided as follows: Street Loans, \$235,000.00; Budget, \$33,100.00; Chapter 90, \$21,643.93; Balance, 1938, \$10.28. Of this amount \$282,934.70 was expended. A program was laid out at the beginning of the year and was carried out with very few changes.

Construction of a portion of Centre Street from the Braintree Line, northerly toward Copeland Street, for which the City received Chapter 90 funds in 1938, was completed and has added materially to the betterment of traffic conditions in that part of the City. The City was unable to receive Chapter 90 money this year to continue the reconstruction of Centre Street, but it is hoped that we will receive assistance in 1940.

Many streets throughout the City were graded and given a treatment of tar and pea stone under a W. P. A. project.

See attached list for locations.

Curbing

Considerable work was done under W. P. A. projects and in connection with the street rebuilding program. The granite curbing used on W. P. A. was quarried and cut at the Hitchcock Quarry under another W. P. A. project. Many feet of concrete curbing was constructed.

For locations of concrete and granite curbing see attached schedule.

Granolithic Sidewalks

Again there was no appropriation made by the City Council for this type of work. There were, however, considerable grano-

lithic sidewalks placed under the W. P. A. sidewalk project.
For locations see attached schedule.

Amiesite Sidewalks

Many feet of amiesite sidewalks were constructed with the assistance of the W. P. A. From the City's W. P. A. appropriation, \$42,455.87 was spent.

Without question, if it were not for the Federal Funds it would be almost impossible to estimate the amount needed for the City to carry on this type of work.

Conclusion

May I take this opportunity to express my appreciation for the co-operation I have received from His Honor the Mayor, members of the City Council, Department Heads and W. P. A. Officials, also for the loyalty shown, and the co-operation extended to me by the personnel of this Department.

Respectfully submitted,

GERHARD F. SCHAFER,
City Engineer.

REPORT OF WORK PROJECTS ADMINISTRATION

January 2, 1940.

MR. GERHARD F. SHAFER
Sponsor's Agent
Work Projects Administration
Quincy, Massachusetts

Dear Mr. Schafer:

I am submitting this report of the W.P.A. activities and accomplishments over the entire year of 1939.

Your official duties as Sponsor's Agent of W.P.A. started on February 1, 1939. We wish to express appreciation for the co-operation shown by all the various departments of the city government in carrying out the aims and objectives of the projects sponsored by the city with W.P.A. assistance.

This assistance amounting to approximately \$800,000 from the Federal Government is based strictly on Quincy sponsored projects involving an average personnel of 1,038 people for the year 1939.

Many valuable physical benefits have been returned to Quincy through this expenditure which could never have been carried on by the normal functions of the local government. The development of Montclair Playground comprising of the relocated baseball field, bleachers, backstop, skating rink, tennis courts, and wire fence enclosure is probably the best complete playground development in Massachusetts of this particular nature. The development of the Houghs Neck Playground, relocating the baseball field, fill and grading right field, backstop and bleachers, is another notable addition to our Parks and Playground system.

Adams Field at Merrymount Park was dedicated by the Hon. Charles Francis Adams and Hon. Mayor Thomas S. Burgin for the 1939 baseball season. This project was a much needed addition to the Park Department development and is considered one of the best baseball fields in Massachusetts. The diamond, two bleachers and backstop were relocated, the field enclosed by a 7' chain link fence, and landscaped.

The Kincaide Park project now in process of construction will be comparable to Montclair and LaBrecque Playgrounds when finished but superior to either on enclosure as this project will have a seam-face wall and capstone of Quincy granite.

The Ward 4 Field House, dedicated in 1939, is one of the projects referred to by the State W.P.A. officials as perfect of its type. The building has 1,104 square feet of floor area, contains showers, toilets, and fireplace, and has been landscaped.

Many W.P.A. accomplishments are not visible to the public when completed. The confining of the waters of Town Brook from Railroad Culvert through the Parking Area was one of our best projects for physical values to the city. The construction which consisted of a concrete box culvert 10 ft. wide, 5 ft. 6 inches high and 1260 ft. long, and the laying of 1311 ft. of 10 inch drain pipe and 12 manholes are part of this asset to the city not visible now to the general public.

The Federal W.P.A. Congressional Act of 1939 makes it mandatory for all local sponsors to contribute twenty-five cents for every seventy-five cents the Federal Government allots to the community; therefore it is quite evident we should continue the same type of worthwhile physical value Federal Projects as in the past.

The Hitchcock Quarry Project has been revised by the Federal Government as to operating costs since May, 1939. We charge all granite produced at site to the consuming project on location.

Summary of W.P.A. Project Activities in Quincy for 1939

Month	Payroll	Personnel	
	Amount	Men	Women
January	\$79,784.14	1066	146

Manual Projects

1939 W.P.A. Accomplishments

Schools:

Adams School Grounds—Enlarge play yard, build walls, steps, and general grading.

Atherton Hough—Renovated, new ceilings and waterproofing.

Cranch School—Renovated, new maple floors.

Cranch School Yard—Walks and yard hard-surfaced, drainage, curbing, walls and landscaping.

Quincy School—Electrical repairs.

Squantum School—Renovated (new plaster and insulation).

Washington School—Electrical repairs.

Woodward School—Painted exterior and alterations to gymnasium.

Playgrounds:

Adams Field—Relocation of diamond, four bleachers, backstop, landscaping and complete enclosure by 7 ft. chain link fence.

Field House—Ward 4—1104 square feet floor area, showers, dressing-room, toilets, fireplace, and beautification of grounds.

Furnace Brook Skating Area—Hockey rink, skating rink, two concrete sluice ways, two bridges, clearing, grading.

Hancock School Playground—Grading, curbing, amiesite yard, loaming, etc.

Kincaide Playground—Boundary walls, drainage, bleacher, backstop, loaming and grading.

LaBrecque Playground—Grading, relocating baseball field, two bleachers, backstop.

Montclair Playground—Baseball diamond, bleachers, backstop, skating rink, drainage, and chain link fence enclosure.

O'Neil Playground—Two tennis courts, masonry retaining wall, chain link fence, regrading baseball field, relocating children's play equipment.

Hitchcock Quarry:

Supplying granite for consuming projects.

Street and Sidewalk Project:

Streets 9,111 L. F.

Granolithic Sidewalks 9,159 L. F.

Amiesite Sidewalks 33,126 L. F.

Granite Curbing 22,406 L. F., 501 block corners

Concrete curbing 24,373 L. F., 707 block corners

Furnace Brook Improvements—Adams Street to Furnace Brook Parkway at railroad bridge—retaining walls and culverts.

Mt. Wollaston Cemetery—900 L. F. surface drains, 5200 L. F. water mains and laterals, underground electrical conduit to administration buildings.

Mt. Wollaston Cemetery Wall—Granite wall along Sea Street—1350 L. F.

Town Brook Improvement—School Street to Canal Street—retaining walls, concrete culverts.

Street Tree Rehabilitation—Restoring arboreal beauty, 4300 trees repaired with bracing and surgery work, 412 removed, and 2300 new trees planted throughout the city.

Manet Lake Skating Rink—Excavating, grading, brush cleared from pond.

W.P.A. White Collar Projects

Average Weekly Personnel—290

Bookmending—Project operated at Thomas Crane Public Library with women cleaning, mending, rebinding, and recasing books of value that might have been discarded if W.P.A. had not provided assistance.

Building Department Records Plan Project—This project was installed for the purpose of providing the city with plans of city-owned buildings for which there were no records available. It has provided work for architects, draftsmen and estimators.

District Court Records—A card system has been established to make old civil cases dating from 1872 to 1906, and criminal cases from 1906 to 1924, into a uniform card record to conform with the present system.

Engineering Control Survey—An engineering survey to establish local Geodetic control in Quincy for geometrical figure requirements. This work consists of establishing triangulation stations and running traverse lines and levels.

Police Criminal Records—This project has been installed to advance the efficiency of the Police Department with the installation of a card system of officers' reports, case histories, criminal records and photographic files.

Sewing—A large number of garments such as men's shirts, men's pants, women's dresses, children's suits and other household articles of great value have been produced on this project. When these articles are completed they are distributed among the needy families recommended by welfare and social agencies throughout the city.

Toy and Furniture Repair Project—Discarded furniture and toys have been donated to this project and have been completely reconditioned and distributed to needy families. Many needy homes are now being benefited by furniture renovated on this project.

Shade Tree Census—A complete survey as to location, size, specie, and condition of all shade trees along the highways of the city. The purpose of this project is to provide information to the Forestry Department as to where new trees may be planted and also which trees need treatment.

Library Card File—A new card catalogue of all non-fiction and reference books is being prepared.

Library Picture Collection—Selected educational pictures are being mounted and will be of great value for circulation and reference purposes.

Cleaning Public Buildings—A large number of our public schools and other buildings have been thoroughly cleaned. This work consists of washing all walls, floors, windows, and furniture and has proved to be extremely beneficial from a health angle.

Household Aid Project—This project has been of great value to needy families throughout the city. Its purpose is to provide household assistance to families where sickness and other physical handicaps prevail.

Recreation Project—This activity has been operated by a personnel of 35 and conducted in 26 locations in all sections of the city. Instruction is given in baseball, basketball, soft ball, boxing, gym classes, boys' clubs, play periods, ball room dancing, tap dancing, drama, pottery, knitting, dressmaking, woodworking, navigation, hobby clubs and bridge. Total participants in all activities for the year 1939 were 121,298.

The operation of a majority of the above projects will be continued in 1940.

Federal Surplus Commodities for 1939 in Quincy

The Federal Surplus Division has allotted to Quincy for local consumption:

Federal Food	\$149,553.79
Clothing	40,234.80
Wages to WPA Personnel	24,759.40
Total.....	<u>\$214,547.99</u>

National Youth Administration

Quincy participated in this program of assistance to Quincy youths between 18-25 years of age. The average number employed for the year 1939 was 121 girls and 110 boys. The girls are in the municipal offices, in the hospital service and on sewing projects. The boys are at the City garage performing mechanical services and on outside park beautification projects. Total amount of money spent by the Federal Government for 1939 was \$57,057.

General Summary 1939 Federal Expenditures

Work Projects Administration allotment	\$791,805.07
Federal Surplus Commodities (clothing)	40,234.80
Federal Surplus Commodities (food)	149,553.79
(Wages are included in WPA payroll)	
National Youth Administration	<u>57,057.00</u>
	<u>\$1,038,650.66</u>

Respectfully submitted,

PATRICK J. DUGGAN,
Quincy W.P.A. Co-ordinator.

Work Projects Administrative Personnel

Patrick J. Duggan	Co-ordinator
Rudolph A. Lofgren	General Project Estimator
Oscar Hallquist	Superintendent of Buildings
Fred MacDonald	Superintendent of Parks and Playgrounds
Knute Lundquist	Superintendent General
Everett W. Foster	Project Accountant
Edna L. Anderson	Executive Secretary
Josephine Angelo	Clerk

REPORT OF THE CITY PLANNING BOARD

January 3, 1940

HONORABLE THOMAS S. BURGIN
Mayor of the City of Quincy

Dear Sir:

We herewith submit the twenty-fifth annual report of the City Planning Board.

In the past year the W. P. A. continued to make studies and plans of needed improvements in the City. A continued study was made of the parallel route to Hancock Street, the proposed Foster Street and Cottage Street widening, and of the parking conditions in the Edwards Meadows, now the Municipal Parking Area. These plans are now on file in the City Engineer's office.

The Board wishes to call your attention again to the vital necessity of a new cemetery location, and that something be done about this matter this year.

The Planning Board wishes to thank the W.P.A. officials for the co-operation and interest they have shown in assisting the Board.

Respectfully submitted,

WALTER W. HOLLAND
ROBERT A. ZOTTOLI
JOHN A. SANDISON
GUSTAF E. WESTHRIN

GERHARD F. SHAFER, *Clerk*

REPORT OF THE BOARD OF SURVEY

January 3, 1940

HONORABLE THOMAS S. BURGIN
Mayor of the City of Quincy

Dear Sir:

We herewith submit the twenty-fourth annual report of the Board of Survey.

During the year, hearings were held on several petitions.

A public hearing was held on the petition to change the name of Pasonagesset Knoll to Shore Avenue. After hearing various persons speak in favor of the change, the Board voted to change the name Pasonagesset Knoll to Shore Avenue.

Final approval was voted on the layout of Ellis Street and Wallace Road in Ward Four.

A number of other meetings were held to discuss ways and means to encourage the development of the remaining undeveloped property in the City, as we feel the time is not far away when the City of Quincy will have another building boom.

Respectfully submitted,

LOUIS F. R. LANGELIER,
Chairman
JOHN J. MANNING,
SAM WOOD.

GERHARD F. SHAFER, *Clerk*

REPORT OF THE HIGHWAY DIVISION

May 20, 1940

HONORABLE THOMAS S. BURGIN
Mayor of Quincy
Quincy, Massachusetts

Dear Sir:

I respectfully submit the report of the Department of Public Works for the year 1939.

Respectfully submitted,

EZEKIEL C. SARGENT,
Commissioner of Public Works.

ECS/FD

ANNUAL REPORT OF THE DEPARTMENT OF PUBLIC WORKS

The appropriations for Highway Maintenance have been as follows:

	Appropriated	Expended	Balance
General Maintenance	\$220,750.00	\$218,892.64	\$ 1,857.36
Pensions	10,296.20	10,296.20
Garage and Stables	7,000.00	6,766.46	233.54
Street Lighting	112,000.00	111,140.67	859.33
Miscellaneous Activities	24,412.00	24,408.54	3.46

The General Maintenance appropriations has been expended as follows:

Street Cleaning	\$57,894.94
Snow Removal	64,041.98
Surface Treatment of Streets.....	755.14
Sidewalks	2,740.31
Street Patching	24,896.47
Street Repairs	2,876.14
Drains	15,020.29
Maintenance of Equipment.....	14,474.54
Vacations	15,546.23
Tools	36,295.58
Miscellaneous	20,017.02

The cleaning of streets is done by crews in each ward of the city. One Elgin sweeper is used during the night time on our main streets. Another sweeper is very badly needed, as Edgestones have been laid on many of our streets and much hand labor could be eliminated by its use.

Snow removal has not been very difficult this year but much sanding has been required to keep the highways and sidewalks safe for travel.

Surface treatment of streets has not been extensive and I greatly regret that the appropriations would not allow additional expenditures on this work as I believe surface treatment would prolong the life of many streets.

The sidewalk repairs have been undertaken where necessity required, but no new sidewalks have been built during the year, except those constructed by the W.P.A.

The expenditure for maintenance of equipment was large as no new equipment has been purchased and present equipment must be kept in as good repair as possible.

STREET LIGHTING

During the latter part of the year a reduction was made in lighting rates by the Quincy Electric Light and Power Company, to the city.

The following street lights are in use December 31, 1939:

Overhead	Underground
5—1000 C.P.	100—1000 C.P.
293— 600 C.P.	95— 600 C.P.
145— 400 C.P.	15— 400 C.P.
650— 250 C.P.	22— 250 C.P.
2— 100 C.P.	
2308— 60 C.P.	

FORESTRY AND GYPSY MOTH

	Appropriated	Expended	Balance
Salaries and Wages	\$15,340.00	\$15,023.22	\$316.78
Supplies and Expense	1,900.00	1,869.35	30.65
Equipment Maintenance	1,200.00	1,199.25	.75
Pensions	165.00	165.00

The regular work of the department is continually increasing.

This department has entire charge of the street flower beds in this city, including the traffic circle at Fore River Bridge and this year there has been added the care of Kendall Park. All plants are raised at the city greenhouse. A new greenhouse is greatly needed.

The trees purchased by the city this year have been planted in conjunction with the W.P.A. About two thousand trees have been planted.

Much tree trimming has been necessary this year as the result of the hurricane of last year.

Spraying for Gypsy and Brown Tail moths has been carried on as usual.

Much credit should be given to Superintendent Andrew Stewart for the very fine work of this department.

SANITARY DIVISION

	Appropriated	Expended	Balance
Salaries and Wages	\$113,700.00	\$113,700.00
Pensions	5,382.00	5,382.00
Equipment Rental	3,500.00	3,494.16	\$5.84
Equipment Maintenance	8,000.00	7,882.28	117.72
Care of Dumps	6,500.00	6,490.82	9.18
New Equipment	15,000.00	15,000.00

This year there has been added to the equipment for garbage collection six new Dodge trucks equipped with sanitary bodies. The results have been very satisfactory. Four additional units should be purchased to complete the fleet.

The price of garbage to farmers has been reduced to \$.50 per cubic yard. Therefore the receipts for the sale of garbage has been but \$8,668.75, a reduction of \$4,286.25 over the receipts of last year.

GARAGE AND STABLE

All city owned equipment (with the exception of the Fire Department) has been serviced and repaired at the garage and charges made to the respective departments.

The City Stable is closed during the Summer and is used in the Winter months to care for the horses loaned to the city for use on sidewalk plows.

MISCELLANEOUS ACTIVITIES

The number of street parks and flower beds have been increased during the year to the number of seventy-eight. Including the traffic circle at the Fore River Bridge there has been expended the sum of \$6,278.34 for this work which I believe, is a great benefit to the city.

All traffic signs and directional lines have been painted and maintained at a cost of \$8,146.24.

This year the department furnished and erected about 130 Christmas tree stands. The Chamber of Commerce furnished the trees and paid for trimming and lighting. The results were very satisfactory and this will probably be repeated and extended next Christmas.

The cost of the collection of rubbish is increasing due to the difficulty of obtaining suitable dumps and the long haul to the present dumps.

It is my opinion that an incinerator is greatly needed.

The receipts for cleaning cesspools this year was \$1,117.00, while there was expended for this work \$1,565.57.

MUNICIPAL BUILDINGS

	Appropriated	Expended	Balance
Maintenance	\$20,750.00	\$20,698.93	\$51.07
Salaries and Wages	7,290.00	7,258.00	32.00

The appropriation has been expended as follows:

City Hall and Annex	\$17,013.90
Fire Station	1,653.46
Police Station	600.18
Community Building—Ward 6	273.73
Commissary and Welfare	704.81
City Home	237.75
Dispensary	215.10

WEST QUINCY FIRE STATION

The new West Quincy Fire Station was completed this year at a cost of approximately \$51,000.00.

Mr. George E. Robinson was the architect and John Hamre and Sons were the contractors.

The building was constructed with the help of a 45% grant by the Federal Government under P.W.A.

The building is well placed, at the junction of Copeland and Miller Streets.

The design is pleasing, and the construction very substantial. It is a valuable addition to our list of public buildings.

NURSES' HOME

An addition to the Nurses' Home on Whitwell Street has been completed. The building is four stories in height, first class construction, with eighty bedrooms and necessary laboratories and reading rooms.

It was designed by Hutchins and French, Architects, and M. S. Kelliher Co., Contractors. A P.W.A. grant of 45% of the cost was made by the Federal Government.

The addition, with furnishings, cost approximately \$151,000.00.

ANNUAL REPORT OF THE SEWER DIVISION OF THE PUBLIC WORKS DEPARTMENT

January 2, 1940.

MR. EZEKIEL C. SARGENT
*Commissioner of Public Works,
Quincy, Massachusetts.*

Dear Sir:

I respectfully submit the report of the Public Works Department, Sewer Division, for the year ending December 31, 1939.

For financial statement see Auditor's Report.

Construction

Three and four one-hundredths miles of common sewers were laid this year, the location of which and other particulars are shown on a table accompanying this report. The work was confined mainly to the Germantown and Squantum sections of the city.

A special line of 10-inch cast iron pipe with patented Victualic pipe couplings was laid from Ayalon Park through the Standard Oil Co. property to the new Procter and Gamble plant at Wharf Street, Quincy Point.

This department also constructed all new storm water and surface drains, a tabulation of which will be found in the City Engineer's report for this year.

Numerous petitions for the installation of sanitary sewers and drainage work are on file and will be taken care of in 1940.

Maintenance

We have at present one hundred sixty miles of sewers, several miles of which have been in operation from thirty-five to forty years. The main sewer lines were estimated to reach their capacity at the expiration of this period, and at certain times now, they are taxed to their limit. It is necessary to keep these pipe lines clean both from a sanitary standpoint and also to obtain the benefit of the full capacity of the pipe.

In order to properly maintain the sewerage system, it is quite necessary to keep a crew of men making repairs and cleaning pipe lines at least ten months in the year. This will require a substantial increase in the appropriation for this work.

Particular Sewers

Two hundred seventy-six connections were made to the sewer to take care of two hundred eighty-one buildings located by wards as follows:

Ward 1	80	Ward 4	42
Ward 2	14	Ward 5	49
Ward 3	7	Ward 6	84

Total number of feet laid	13,061.20
Total cost	\$15,500.44
Average cost per connection	\$55.16
Average cost per foot	\$1.187
Average length per connection	46.48 ft.

Classification:

Single Houses	230	Nurses' Home	1
Two-family Houses	10	Hospital Service Bldg.	1
Three-family Houses	2	Recreation	2
Four-family Houses	19	Bakeries	3
Library	1	Garages & Filling Stations...	4
Schools	2	Office Bldgs. and Stores.....	5
Fire Station	1		

Respectfully submitted,

WALTER S. McKENZIE,
General Foreman, Sewer Division.

REPORT OF CEMETERY DIVISION

January 2, 1940

HONORABLE THOMAS S. BURGIN
Mayor of Quincy
Quincy, Massachusetts

Dear Sir:

The Commissioner of Public Works respectfully submits the following financial report of the Cemetery Department for the year ending December 31, 1939.

Receipts

Care of lots	\$1,818 00
Sale of lots	6,215.00
Interments	9,015 00
Foundations and Grading	2,839 71
Perpetual Care	10,945 00
Perpetual Care — Income	8,871 93
Other Trust Funds — Income	79 23
	<hr/>
	\$39,283 87

Expenditures

Clerk — Salary	700 00
Supplies and Expense	2,420 93
Equipment — Maintenance and Operation	880 62
Labor — Including Foreman	39,574 44
	<hr/>
	\$43,575 99

In 1939 there were four hundred ninety-two (492) burials and ten (10) removals.

A statement of the Perpetual Care Fund investment will be found in the City Treasurer's report.

Very truly yours,

EZEKIEL C. SARGENT,
Commissioner of Public Works.

HARBOR MASTER'S REPORT

January 9, 1940.

HON. THOMAS S. BURGIN, *City Hall, Quincy, Mass.*

Dear Sir:

The report of the Harbor Master of the City of Quincy for the year ending December 31, 1939, is herewith submitted.

Receipts by water for the year were as follows:

City Fuel Company.....	12 Barges, 10098 tons coal
Standard Oil Co.....	55 Steamers and Barges
Quincy Lumber Co.	3 Schooners, 1,171,700 ft. lumber

The waters off the Fore River Plant were patrolled during the following launchings at the request of the company officials:

March 4.....	S. S. Cristobal
April 4.....	Aircraft Carrier Wasp
July 18	S. S. Exporter
September 16.....	S. S. Explorer
November 15.....	U. S. S. Benson
December 28.....	S. S. Exchange

The Quincy Dry Dock & Yacht Corporation had 290 Steamers, Barges, Fishermen, and Yachts in for overhauling and repairs.

There were 255 Yachts stored in the boat yards on the Town River besides many others on Neponset River and elsewhere in the city.

The Fore River Bridge had 299 openings.

Made 15 trips with the power boat going to the aid of yachts in distress, aground and capsized; and one on fire, where picked up a man who had jumped overboard, put out fire and towed boat in to Quincy Yacht Club.

Picked up 4 row boats; all claimed.

Reported various beacons extinguished and buoys out of position.

January 15. Trimount Dredging Company started dredging Town River to 24 feet.

Respectfully submitted,

JAMES A. M. NASH,
Harbor Master.

REPORT OF CITY SOLICITOR

December 31, 1939.

HONORABLE THOMAS S. BURGIN,
Mayor of Quincy
Quincy, Massachusetts

Dear Sir:

During the past year the City Solicitor has carried on the work of the Law Department of the city in accordance with the requirements of the statutes in relation thereto.

Respectfully submitted,

JOHN D. SMITH,
City Solicitor.

REPORT OF CITY CLERK

To HIS HONOR, *the Mayor of the City of Quincy:*

I have the honor to submit the fifty-first annual report of the department, being for the year ending December 31, 1939.

Receipts

Licenses:

Pool and billiards	\$605.00
Victuallers	755.00

REPORT OF THE PARK DEPARTMENT

Quincy, Massachusetts

March 1, 1940.

To the Honorable Mayor, THOMAS S. BURGIN

Dear Sir:

We have the honor of submitting to you the fifty-first annual report of the Park Department, which is accompanied by our recommendations for further development and activities.

The growth of the Department during the past year, has been of the mushroom variety; so many added facilities have been officially turned over to us that we have spent considerable time pondering how to get every district organized so that the citizens will get the most out of what we have to offer. Tennis courts, ball fields, skating ponds, hockey rinks, picnic grounds, an estate, and the revival of Pine Island, all have their place in this year's development.

As we review the past year, let us state that it has been a pleasure to work with you, Mr. Mayor. Your understanding of the recreation possibilities has been most encouraging and gives us the urge to continue to serve and keep pace with your foresight.

This Board is unanimous in its opinion that the Park Department is now one of the major parts of the City set-up. Its budget is on the increase and will continue to grow if all the added facilities are to be maintained. We need men to do this work; no jobs should be abolished or consolidated. The Superintendent of Parks is a position approved by your administration, one that is necessary through the development of our Department. This can be verified by the records of other cities. It is ridiculous to think of retarding a Department in the midst of its growth by any such recommendation as that made by a committee in its recent study of Municipal affairs.

We have arranged the report of the various recreation centers by the wards in which they are located, with the work accomplished in each and our recommendations to assist each councillor to better familiarize himself with their needs.

In closing, the Board is ever mindful of Your Honor's splendid cooperation. Your faith in us will react in accomplishments that will in no small measure be a credit to your administration.

WILLIAM M. TRUSSELLE,
Chairman.

WARD 1

Alfred N. LaBrecque Park

The only activities carried on during the past year were the regular summer playground program. The field during the year was under a W.P.A. Park Project. The infield was regraded, bleachers and backstop erected, and double tennis court laid out. All these facilities will be available this year, giving this district an ideal recreation center. Two instructors are provided during the playground season, which is well attended.

Manet Lake

The grass and rubbish have been cleaned out here and the area flooded for skating. A hockey rink was erected and lighted for night skating and hockey. Forty skating days were recorded.

William Cushing Baker Park

This Park was graded and seeded down. It contains a popular bathing beach and has one instructor during the playground season.

Sea Street Skating Pond

This area was flooded for skating and was well attended by the small children of the district.

Perkins Playground

A hockey rink equipped with nets was provided during the winter season and was well used and appreciated by the youth of this section. A W.P.A. Park Project will take over this field in the spring. A softball diamond will be laid out, bleachers erected and two tennis courts are in the plans. A rearrangement of playground apparatus will be made before the season opens. Two instructors are provided during the playground season, which is well attended.

Adams Shore Playground

This is a popular play area, fully equipped. Two instructors are in attendance during the season.

Faxon Field

This field is in constant use for football, soccer, softball, High School football practice, and outdoor gym activities for the High School. We recommend that a skating rink be provided on the Coddington Street side next winter.

Faxon Tennis Courts

These tennis courts are in use during the season and are very popular among the better tennis players. The City Tennis Tournament was conducted here for cups offered by Mr. Henry M. Faxon. William Bowyer was supervisor.

Cranch School

A well equipped playground is provided here, with a full program during the season under the supervision of two instructors. It is a safe and popular place for small children to play.

WARD 2

Fore River Club House

This club house is one of the community buildings of the city and is under the supervision of the Park Board. It was used a great deal during the past year for a W.P.A. Center and local activities, as well as for dances, whist parties, banquets, weddings, and socials.

Dressing Rooms are provided for baseball and soccer players who use Fore River Field. A full time janitor is in charge. The interior has been painted, the floors refinished and the plumbing and heating system overhauled. The building serves also as a comfort station during field activities.

Fore River Field

This field was one of the most used in the city, by baseball teams in the Park, South Shore, and Industrial Leagues, plus many independent teams. The field has reached the stage where grading is necessary. It is planned to resod the infield and grade the outfield. New first base bleachers were built this year and the grandstand repaired. Skating was provided by flooding the tennis courts.

Avalon Beach

At this location is the only city supervised beach. Two rafts are furnished, the seats and shelter are kept in repair, and the beach is cleaned daily during the season; a fully equipped playground is provided with two instructors. We recommend that a life guard be furnished during the bathing season as a safety measure.

Munroe Playground

This area is under construction, but is used for softball, football, and as a practice field for Junior High School football. A W.P.A. Project is now filling in the low land that will offer wonderful possibilities in the future for a full size baseball field, football gridiron, running track and softball diamond, serving a district that is in real need of these facilities.

Faxon Park

This beautiful area covering 54 acres, was officially accepted by the Park Board. It will add much to the Park System for a place for large groups to enjoy picnics and outings. It is planned to put a custodian in charge during the summer months. The softball field will receive necessary attention. Park benches will be placed in convenient spots, a full set of playground apparatus has been set up which will add to the pleasure of the children. Several tables will be placed in convenient places around the fireplace, this has been used for weinie roasts and clam bakes. Firewood is furnished by the Park Department. Permits for outings are issued at the Board Office.

Daniel Webster School Playground

The playground is well equipped and ideal for small children; two instructors are provided during the season.

Whiton Park

This is a popular breathing spot for the people of this section. The shrubs and grass plot are cared for by Park workers.

Pollard School Playground

It is a naturally shaded spot ideal for small children, and has two instructors during the playground season.

Elm Street Playground

This is one of the most popular playgrounds in the City, with three instructors in charge. It is well shaded, fully equipped, and well attended. A comfort station is needed.

Faxon Meadow

The Park Department was indeed fortunate to have this area for skating. By damming the brook, a natural pond was made, with the ideal skating weather, this winter, thousands enjoyed this popular winter sport. A hockey rink was erected at one end and was used by hockey enthusiasts. Forty skating days were recorded.

WARD 3

Bradford Street Playground

A fine program is carried out, with three instructors in charge of the large number in attendance. Tennis courts are a great asset to the field. A comfort station is also needed here. Tennis courts are flooded for skating.

Henry L. Kincaide Park

The largest attendance in the city is at this playground, which is well equipped to serve the children of this section and carries out a complete program. Two tennis courts are in use at all times. The baseball field is used by teams in the Park, South Shore and Industrial Leagues, as well as by local teams. It is also used as a football practice field by the Junior High School and for their outdoor program. A W.P.A. Park Project will close the facilities for the most part of this year. It includes a stone wall enclosing the entire field, regrading the ball field, and building new bleachers and backstop. Baseball games scheduled, will be transferred to Joseph O'Rourke Field. When completed, this park will take its place with the finest in the City.

WARD 4

William T. Shea Park

This beautiful spot received the regular care of Park workers. A popular breathing spot on hot evenings for the people of this district.

Joseph O'Rourke Playground

At this location are a well equipped playground, with two instructors in charge during the season, and a field used for baseball by the Park, South Shore, and Industrial Leagues and independent teams. Double tennis courts available this year for the first time, proved very popular. The Field House was dedicated with fitting ceremonies. A custodian is in charge during the summer months, filling a long felt want at this Park. Aside from the regular spring work of conditioning, this field will be ready to take the double use occasioned by the closing of Kincaide Park.

WARD 5

Merrymount Park

This is the recreation center of the City, where during the past year, considerable work has been done.

Stadium. This fine project was completed, with a seating capacity of 5500, and used for many purposes during the past year, including a Memorial Service by the Quincy Veterans Council. A sun rise service on Easter Sunday, Junior Drum Corps Competition, Playground round up, home schedule of both North and Quincy High Schools, City Football League, Manet Professional Football Team, three night games, with four night games under City League auspices. The season ended with a playoff with the champions of the Boston Park League meeting the City League, with victory coming to Quincy. Fore River apprentices also played their home games here. There is need of a permanent custodian and shower room for game officials. A W.P.A. Project is pending for completion of stands on the opposite side of the field which will increase the seating capacity so necessary in school games. The Board intends to install a loud speaker, a necessity in an area of this size.

Charles Francis Adams Baseball Park. This baseball field was constructed under a W.P.A. Project and dedicated with appropriate ceremonies with Charles Francis Adams as the guest speaker. The first baseball game was played on the same day, between Quincy and North High Schools. During the year the field was used by the Park League, South Shore League, Wollaston Post 295, American Legion Junior Baseball Team. On July 6, the South Shore All Stars played the Boston Bees. A drinking fountain was dedicated to Fred Doe, father of Sunday baseball in Massachusetts. The National League players had the highest praise for the fine facilities afforded at the field. Bob Quinn, President of the Boston team, presented the Department with ten bags of special clay for the pitching box. As this is the only enclosed baseball field, the Board insists that a police officer be present at each game. Several changes are planned this year which will add to the facilities. These include a batting cage, score board and comfort station. Signs denoting the distance to the fence were also posted. In the fall the field was seeded and fertilized. The second year turf should be an improvement over last year.

Pageant Field. This large area is used for picnics, band concerts, Fourth of July celebrations, and a playground. It is connected to Wollaston by a 750-foot bridge with entrance on Florence Street.

Pine Island. This part of the Merrymount Park System has been connected by a 70 foot span bridge. During the summer, this island was a popular gathering place for the Camp Fire Girls, Boy Scout Troops, Girl Scouts, picnics and family gatherings. A shelter was built by Park workers. This year, fireplaces will be built by the N. Y. A. under Park supervision.

Bowling Green. This is located on the Pageant Field and is used by the older men of the city for the game known as "Bowling on the Green." It is used daily and lighted for use at night. One Greenskeeper is in charge.

Playground. One instructor is in charge of this playground, conducting a regular program. The apparatus is left up over weekends for the use of people who bring children on picnics.

Safford Park

This park has received regular maintenance during the season.

Wollaston School

A fully equipped playground is maintained here, which is well attended and has two instructors who provide a fine program.

Massachusetts Field Playground

This is a regularly equipped playground which conducts a fine program under the supervision of two instructors, and has additional facilities for softball playing. A Pet Stock Show is one of the features here each year.

Stoney Brae

The excellent possibilities of this area were realized this year. A dam was built diverting the brook water to two skating rinks, one for skating and one for hockey. A W.P.A. Project was secured to develop the hockey rink. Thousands enjoyed good skating for forty days during the winter. This is an ideal setting for a City Ice Carnival under the right winter conditions, should the opportunity present itself next winter.

Sailor's Home Pond

At this pond a hockey rink was erected, flood lights furnished, and a skating area maintained, giving forty skating days during the past winter. A first aid ladder and life preserver were placed near the pond. Police protection provided on Sundays.

Fenno Street Tennis Courts

During the past year, the fence was rebuilt and minor repairs made to the surface of the tennis courts at this location. It is a popular place for Wollaston tennis enthusiasts. Four more courts are needed.

WARD 6

John Wendall Moses Playground

This section of the city is showing a rapid growth, while the facilities at the present are adequate, work will have to be done in the future. A field house is badly needed, the necessary land for its erection has been acquired. The field should be graded to bring the outfield up to the same level of the infield, in order to make it a first class ball field. The skating rink has proved to be a valuable addition. It was used in the summer as a roller skating rink. It was also used for dancing under the floodlights. We recommend that the clay courts be changed to amesite as it is more practical for public use. Two instructors are in charge during the playground season.

Welcome G. Young Playground

A fully equipped play area is provided for this thickly populated section, with two instructors in charge. It also contains two tennis courts, and a softball field. A set of bleachers were erected to seat 500 people, this was a popular asset to the field as many softball games were played here during the summer. We recommend that playground apparatus be moved to the area enclosed by the stone wall. This field was chosen as the site for the amateur Softball

Association Playoffs, and North Quincy Associates were returned champions for Norfolk and Plymouth County and later competed at Norton Field, Worcester, in the State finals.

Dennis O'Neil Playground

The results on this field have not been satisfactory. A skinned diamond has proved to be an expensive proposition. The field should be closed one year and the grass given a chance to grow. A skating rink is a real want here and will be given consideration. A chain link fence will be erected this year near the playground. Two tennis courts were opened this year. Flooding for skating did not prove successful. The baseball field was in constant use by the Park League, South Shore League and North High School baseball teams. Two instructors are in charge during playground season which is well attended.

Montclair Field

During the fall months, this field was completed as a W.P.A. Park Project. It will be accepted and dedicated May 30, 1940 at which time the field will receive its official name, adding to the Park system a field enclosed with chain link fence, tennis courts, skating rink, a fine ball field with bleachers providing a seating capacity for two thousand people and full playground equipment. Two playground instructors are provided during the playground season which is well attended.

Kendall Park

During the past year, Dr. Walter G. Kendall, Quincy's grand old Sportsman, deeded his estate on Atlantic Street, North Quincy, to the City of Quincy. Mayor Thomas S. Burgin accepted for the City and formally turned it over to the Park Department. The estate has been named Kendall Park in honor of the donor.

The Park contains 45,000 feet of land with a 150 foot front extending back 300 feet. The rear half is what is called a "Kettle-hole" and has been declared by geologists as a most perfect specimen, measuring 150 feet across each way. Its origin is dated back many thousand years to the glacial period. This Kettle-hole has been terraced and made into a vineyard, some two hundred grape vines grow here and have taken the majority of prizes offered each year at the annual Massachusetts Horticultural Show for nearly half a century. It is the only place in this section of the country that is growing every variety of fruit that will succeed in this climate. There are about twenty varieties, from strawberries to apples and peas.

On the estate are two of the most beautiful elm trees in Quincy, one is of the vase form variety and the other the drooping type, in the latter has been built an observation platform forty feet in the air connected by a flight of steps with a seating capacity for twenty people. A table placed in the center makes it an attractive place for families to enjoy supper on hot evenings during the summer months. Under the tree is a six-hole putting golf course on which the youth of the district get instruction in the rudiments of golf from Dr. Kendall. The house is of Colonial construction and is over a century old. Within its walls are priceless antiques, trophies, oil paintings, ribbons and cups, all of which typify the active life of

Quincy's sportsman. Also on display are a group of bicycles dating back to 1870 showing the different types down through the years. At one side of the house stands one of the entrances to the old Boston City Hall which was brought here by a former owner. This houses the display of bicycles.

During the past year, a rustic fence has been constructed across the front and a chain-link fence on the sides and back. The barn has been demolished, giving more space to grow things in this horticultural paradise. This spring, the Park Department will make repairs on the house and give it a coat of paint to further enhance the beauty of the spot which the Board feels will be a most welcome addition to the growing Park system.

SPORTS

Baseball

No city in the Commonwealth of Massachusetts, outside of the City of Boston, has better facilities for playing baseball than the City of Quincy, with eight first-class regulation baseball fields, plus a new enclosed field which has been added for the coming season. All are under the constant care of Department workers, lined off before games, and furnished with bases and pitcher's rubbers. Every ward in the City has its own field and representative teams.

The Park Board cooperated in organizing the Park League. During the season, the competition was keen and a fine set of play-off games for the championship were played. The Granite City Ice Team, winning over the Sagamore Plebes. The League was guided to a successful season by Hobart Robinson, who served as President. A banquet to the winners was attended by the Board.

Baseball Leagues using the fields were, the Industrial, Church, South Shore and Shore B League, Wollaston Post 295 American Legion Baseball Team, North and Quincy High Schools, Junior High Schools and many independent teams. Another excellent field at Montclair will be added this year. The field at Kincaide Park will not be available owing to construction work. Games usually played there will be played at O'Rourke Park in West Quincy.

Softball

Three senior leagues were conducted by the Park Department in cooperation with the Recreation Project. Teams for the most part were made up of men of all walks of life and included Doctors, Lawyers, Dentists, Clerks, etc. The Park League was comprised of ten teams, while the City and Social divisions were made up of eight clubs each. Games were played on the following city operated playgrounds: Welcome Young, O'Rourke, Kincaide, Pageant, Merrymount, Faxon Field, Faxon Park and Munroe Field. The Social and City League clubs each played a fifty-six game schedule and total participants over the regular season were 2688 and spectators number 10,532. Four clubs took part in the playoff series (top two teams in each league). Playoff total participants were 220 and the games were witnessed by over 1200. Whiteway Laundry of Atlantic won in the playoff.

Ten teams comprise the Park League and ninety games were played. Every section of the city was represented by at least one team. Twenty-one hundred sixty players took part over the regular

season and over 12,000 enthusiastic fans witnessed the games. Play-offs were conducted at the termination of the regular season with North Quincy Associates, Brooksidess, West Quincy Bocce, and Wollaston Recreation vieing for honors. Two hundred and sixteen players saw action in the playoffs and 1,800 spectators were on hand to watch the fine play. North Quincy Associates were finalists and were awarded the Park Department trophy. There are three Leagues, 26 Teams, 5,274 Total Participants, 14,532 Total Attendance.

Football

This great American game for rugged youth was encouraged in every way possible by the Board. Floodlights for night practice were erected on several playing fields and goal posts furnished. The Quincy Manets this year played three outstanding games under floodlights. The games were well played. Three of the outstanding professional teams in New England were the attractions with a large attendance at each game.

Both High School teams played their home games at the Municipal Stadium, with the intercity game on Thanksgiving Day, drawing 15,000 fans. They played a total of ten games for the season, at the Municipal Stadium, with an attendance of 53,000. The Junior High School had their three playoff games at the Municipal Stadium, attended by 3,200, with South Junior High winning the playoff.

The Quincy City Football League was composed of the following teams: North Quincy Alumni, Crescents, Quincy Alumni, Fratus Motors, President City and Quincy Warriors, with Frank G. Pray as President and approved by the Board of Park Commissioners. They played a twenty-game series with a total attendance of 98,000. The Quincy Warriors won the Championship. At the end of the season, a dance was held at the Quincy Armory, sponsored by all the clubs. This affair was attended by the Mayor and many prominent citizens interested in athletics. The Mayor donated and presented individual football charms to the members of the First and Second Teams, Coaches, Managers and to Bill Walsh, who did the broadcasting at City League games. A total of 34 charms.

The Quincy Manets were the only Pro Team in Quincy. They played three very successful night games and had a total attendance of 10,500.

Fore River Apprentices, was made up of a group of young men attending the Apprenticeship School at the Fore River Ship Building Corporation and coached by Mr. Anthony Colucci. This team played five games at the Stadium with an attendance of 15,000.

The grand total of attendance at the Municipal Stadium for the football season was 179,700 fans.

Tennis

19,574 tennis enthusiasts, 14,000 of whom were over 16 years of age, utilized nineteen tennis courts operated daily until dark with a Tennis Supervisor in charge. Boys, girls, men and women's tournaments were conducted and City Championship trophies were awarded at the Stadium with over five thousand spectators applauding the victors. This was the first year City Tennis Championship tournaments were conducted. Interest was so keen that this

will be an annual affair. Tennis courts are located in West Quincy, Hough's Neck, Atlantic, and Montclair, in addition to those now at Merrymount Park, Bradford Street, Squantum, Faxon Field, Fore River, and Welcome Young Playground, giving every ward in the city a double court.

Horse Shoe Pitching

Interest in this popular barnyard sport was keen this year—so much so, that the Board encouraged it as one of the regular playground features. Competition was conducted on an inter-playground scale, with finals played at the end of the season. Clay courts will be built on several playgrounds this year.

Bowling on the Green

The Bowling Green has proved to be a popular city investment. It gives the men of mature age a chance to exercise in keeping with their age. The green was in use during pleasant weather and also during the evenings under floodlights.

Basketball

Six leagues were conducted in cooperation with the Recreation Project in the following gymnasiums at North Quincy High, Ather-ton Hough and South Junior and Central Junior High Schools. There are three senior leagues made up of boys of out of school ages, known as the City Park and District Division in these circuits. These include eight teams each, while ten teams comprise the City Circuit. There are two Junior Leagues, one for boys 14 to 16 years of age, and one made up of boys 12 to 14 years of age. There is one girls' league with six clubs enrolled.

Liveableness An Asset

The absence of parks and playgrounds is a blow to the financial future of any city. Our Chamber of Commerce in its efforts to secure more industries for Quincy, could find no more persuasive argument than the progress we have made in this direction. It might well be said by industries that "We find it was the liveableness of your city that decided the issue; nowhere did we find the qualities of good living as highly developed as they were in Quincy." Keep Quincy a good place in which to live and our future is assured.

Recommendations

Completion of the Stadium by the erection of a stand on the opposite side of the Field. Close O'Neil Field for grading and growing grass. Construct a skating rink as a W.P.A. Project. Montclair Field be named in memory of the last G. A. R. Veteran member of Paul Revere Post, FREDERICK H. BISHOP, the dedication to take place on Memorial Day, May 30, 1940. A study be made of the development of Merrymount Park according to the Keelaway Plan for a W.P.A. Project. Faxon Park and its facilities be made known to the citizens of Quincy and accommodations provided to properly care for those who come there for a day's outing. A survey be made of the body of water known as "Sandbergs Bath Tub" with the idea in mind to develop it as a place to bathe, by cleaning out the present mud conditions by suction and the construction of a dam that

will let out all the water on night tides cleansing the whole basin thereby eliminating chances of stagnation. This would make an excellent W.P.A. Project.

The Park Board herewith includes the Quincy W.P.A. Recreation Project report recognizing the valuable aid that this worthwhile activity has been to the Department during the past year.

Quincy W.P.A. Recreation Project

One hundred forty-seven thousand, four hundred twenty-four persons availed themselves of the facilities of the City's twenty-three playgrounds to participate in the program conducted by the Quincy Park Department—W.P.A. Recreation Project Program. Twenty-six thousand, seven hundred and eighty-eight spectators witnessed the various special events. One hundred and sixteen thousand, six hundred twenty-seven participants were under sixteen years of age while thirty thousand, seven hundred ninety-seven were over sixteen years of age. General playground activities drew the largest attendance when more than one hundred nine thousand, eighty-three youngsters under sixteen took part in the regular supervised play program. Nineteen thousand five hundred seventy-four Tennis enthusiasts, fourteen thousand of whom were over sixteen years of age, utilized the nineteen fine courts.

Three Soft Ball Leagues, made up of men adults, played a two-hundred game schedule with four thousand, eight hundred sixty participants. These leagues were conducted during June, July, August, and September. Ten thousand, four hundred six spectators witnessed these games. Basketball with four thousand six hundred twenty-four participants provided fine competitive interest and seven leagues drew an attendance of twelve thousand, eight hundred. Gym classes provided conditioning exercises for two thousand seventy-six persons and were conducted two nights each week. A baseball school for all the boys in elementary grades had a fine attendance of two thousand four hundred seventy-nine. These classes were held in eleven school buildings.

Special events showed a total of four thousand, five hundred six participants with the highlight being the annual Field Day and Pageant which was conducted at the Municipal Stadium. Final sporting events along with fine Folk Dancing featured this affair. Seven hundred, sixty-two young folks engaged in the various activities.

Total	6,253	543,111

Expenditures

The expenditures of this Department may be found in the Auditor's Report.

Vandalism

Each year finds the Park Department facilities growing, giving more opportunities to the youth of the city to destroy that which was created for them to enjoy. In our humble way, could we only make them realize how fortunate they are to be living in a country where baseball, football, tennis, skating and other sports are provided with the proper places to take part in them, we would feel we had accomplished much. Damage running into hundreds of dollars of the taxpayers' money has been done the past year. The Park Board will pay a reward of \$25.00 to any citizen who will give information about any vandal who is seen deliberately committing these acts.

Conclusion

We acknowledge the magnificent spirit of cooperation evidenced by His Honor, the Mayor, the City Council, the Quincy Patriot Ledger, the Police and Fire Departments, the City Engineer's Department, Public Works Department, Manager of Parks and Playgrounds, Foreman of Parks, Park workers, Supervisor of Playgrounds, W.P.A. Recreation Project, Playground Instructors, members of all leagues sponsored by the Board, referees and umpires of all leagues, and any one who by act or deed has made the work of 1939 a pleasure. It is fitting that we should here record our appreciation and gratitude.

We are proud of our city, our citizenry, and our parks, and earnestly hope that this, the 51st Annual Report, will mark another milestone in the upward path.

Respectfully submitted,

WILLIAM M. TRUSSELLE, *Chairman*,
FRANK G. PRAY, *Secretary*,
EDMUND J. SAUNDERS,
WILLIAM J. SPARGO,
Manager and Director.

REPORT OF THE TRUSTEES

To His Honor, the Mayor of the City of Quincy:

The sixty-ninth annual report of the Trustees of the Thomas Crane Public Library is submitted herewith.

The trustees take pleasure in reporting that the new addition to the main library building has been completed and is now being occupied and used. The corner stone was laid with appropriate exercises on April 12, 1939. The contracts for the building and for the furnishings and equipment were formally accepted on December 18, 1939. This new addition, which was constructed at a cost of \$200,000, is technically known as the Adults' Reference and Children's Library. It was made possible by funds from two sources; 55% of the cost being paid from Crane family funds and 45% by grant of the Federal Government. It is planned to dedicate the new building in January, 1940.

The trustees and patrons of the library and our citizens generally will always feel a deep sense of gratitude both to the Crane family and the Federal Government. The trustees especially desire to express their appreciation to the numerous federal officials in connection with this project for their valuable administrative and engineering advice and assistance. The trustees also take this opportunity to add their commendation to the many words of praise which have been given to Messrs. Paul A. and Carroll Coletti, the architects, and to Tornabene Brothers, the general contractors, for their eminent skill and ability in designing and constructing the new building. The furniture and equipment installed by Remington Rand, Inc., embodies the most up-to-date features for carrying on library work.

As has been pointed out by Mr. Hill, the librarian, the new building has been needed for at least fifteen years. It also provides room for future growth and expansion of such special departments as reference work and the development of art, music, business, technical and historical subjects, all of which have continued to grow very fast in recent years. As a matter of interest, the circulation of the Children's Department showed a decided increase at once upon the opening of the new building.

During the year, the Mayor and City Council provided funds in the sum of \$10,000 for new walks and extensive grading of the library grounds. A portion of this expense was necessary because of the new building, but the need of the major part of this work had existed for some time.

The trustees acknowledge with thanks the legacy received by the library from the Estate of Katharine A. Raycroft in the sum of \$1,350.00.

Those using our library facilities appreciate the increase granted by the Mayor and City Council in the book appropriation from \$13,000 to \$15,000. This increase has been reflected in a gain in circulation and is a step forward. There is no lack of interest in books and reading material, but when borrowers find that public libraries are unable to supply their needs, they are apt to become discouraged with such libraries. At the present time, indications point to an increase in the circulation of this library for 1940.

The members of the board take this opportunity again to attest the loyal and efficient service of the librarian and staff and again to thank the Mayor and City Council for their cooperation in the work of this department.

Respectfully submitted,

GEORGE E. ADAMS, *Chairman,*
GEORGIANA CUSHING LANE,
Secretary.

REPORT OF THE LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

In looking back upon the work of the library during the past year it seems as if the greater part of the time, energy and thought of the librarian was given to the new addition, the Adults' Reference and Children's Library, completed in December. However, the routine of the library has gone on without interruption and it has been a busy year in all departments.

The increase of \$2,000 in the city's appropriation for books was gratefully received and has been helpful in making a start in building up our much depleted stock of books. It did not, naturally, affect the circulation of books during 1939 and the figures for loans show a drop from 701,167 in 1938 to 698,456 in 1939. A study of the circulation records reveals that this loss was entirely in fiction, both non-fiction and children's books showing gains. Moreover, the falling off was almost completely confined to the last four months of the year and was fairly proportional among the branches. There were some striking exceptions, however, — the Hospital Library Service recording an increase of over 1,000 books, and the Squantum, Merrymount and Temple branches slight gains. The real phenomenon is the Manet Branch which last year showed a gain of over ten per cent and in three years has moved in point of circulation from sixth to practically a tie for second place among the branches. There was a slight loss of 190 in number of registered borrowers but the figure 24,064 is well over thirty per cent of the population of Quincy.

The Reference Department of the main library has had a busy year. For the first time a record was kept during 1939 of the number of requests for information which required some search on the part of the reference assistants. This record shows a total of 8,266 such questions asked and answered, the inquirers being divided as follows: 3,649 were high school students, 539 college students, and 4,078 adults obviously over college age. A record was kept of unusual questions and a space on the daily chart was provided to show subjects on which the library had insufficient, obsolete, or no material at all. The above figures do not include reference work done in the Children's Room or branches. So few libraries publish such a record of their reference inquiries that we do not find bases for comparison, but the 8,266 seems a respectable figure for our library. The readers' advisory service was kept up except during the summer months and such reports as are available indicate that it has been worthwhile. Last winter the Quincy Y. M. C. A. asked our cooperation in arranging for a book discussion group to be held under their auspices. As a result, such a group was formed with Miss Callahan as leader. Her course was well planned, the books discussed were timely, and the response in interest and enthusiasm was very gratifying. She has been asked to plan for another such group this winter.

Mention was made in last year's report that Miss Newton and Miss DiBona had begun the making of a duplicate catalog of non-fiction for use in the new building, together with a much needed authority list. The latter was completed in the spring but the work on the catalog progressed rather slowly until September when we were able to secure a W. P. A. project for this work. With a supervisor and four assistants working directly under Miss Newton

and Miss DiBona rapid strides have been made and several classes completed, but there is at least a year's work ahead before the project will be finished. Another W. P. A. project begun in the fall has been the selection and mounting of pictures for reference use and home circulation. The cataloging of the picture collection begun by Miss Hebert some years ago is also part of this project which is under Miss Hebert's direction. And the W. P. A. mending project, now in its fifth year, continues its good work and has preserved the life of many books and saved the library much money.

There were no changes in the location of branches during 1939 but in December an improvement was effected at the Temple Branch through the rental of the adjoining store and cutting through the partition, thus doubling the reading room and shelf capacity. Increased space has been badly needed at Temple for some time. As a result of the hurricane in 1938, it was found necessary to replace the entire roof of the Wollaston Branch.

No resignations by members of the staff were received during the year. In July, Miss Henrikson returned from her year as a student at the Carnegie Institute School of Library Science where she made a fine record, and has resumed her position as librarian of our Hospital Service. Miss Ruth MacDougal, who had been her substitute for a year, left at the end of the summer to enter college. Preparations for occupying the new building necessitated the employment of more part-time help in the Fall.

While the dedication of the new Adults' Reference and Children's Library did not take place until January of the present year, the building was actually opened for the use of the public, with all departments in operation, on December 18, 1939, so its completion may be recorded in this annual report. As my report for last year included a description of what the new building was to be and how we expected it would improve our service, it seems only necessary now to say that completed, it meets all our hopes and comes up to our expectations. As an architectural achievement in harmonious design and beauty of exterior and interior, it will stand for years as a lasting tribute to our architects, Paul A. and Carroll Coletti. From the point of view of library service it is already proving its practicability. For the first time, at least since I became your librarian, we have room to spread out, to specialize and to grow.

A few words, however, about one feature of the new building which has aroused much interest and occasioned many favorable comments,—the music room and especially the phonograph department with its two recording instruments in sound-proof booths. Lack of funds precluded the purchase of more than a comparatively few but well selected records before the new building was opened. These make only the germ of a collection, the possibilities of which may be illustrated by a reference to the annual report for 1939 of Mr. Hiller C. Wellman, librarian of the City Library Association of Springfield, Mass. In that library the collection of phonograph records was begun in 1923. They now have about 2,600 records and the circulation of these last year amounted to 21,656, an average for each record of over eight times a year, and as they are doubtless played several times when borrowed, the actual use may be as high as eighty times a year. To quote Mr. Wellman: "The records are used by ministers, by broadcasters, by

theatrical groups; they are used with children by teachers, and of course by the general public, but they are used extensively also by professional musicians." I take space to include this testimony on the value of a phonograph record collection and the pleasure it affords because our own library has at present all too limited funds for the purchase of such records and if our stock is to grow rapidly, it will need the help of interested persons either by gifts of records or funds for their purchase. All such gifts will be most gratefully received and will be acknowledged, and the donors will have the satisfaction of contributing to the enjoyment of many people.

Just to say that we moved into the new building on December 18th does not indicate the amount of work involved in planning for the move and in the actual shifting of the books, the latter being done over one week-end. In addition, the move was followed by an entire shifting of all the books on the first floor and stacks of the main library to give a more systematic and better arrangement of the various classes. To those members of the staff who directly assisted in these changes and to all the others who have carried on so well during an unusual year in the history of the library, I record my grateful appreciation of their loyal service.

For the last fifteen months it has been my privilege to be in close contact with those who have been concerned in the erection of the new addition. With all,—the architects, the contractors, the superintendent, the P. W. A. resident engineers, the clerk of the works, and with many of the workmen,—I have enjoyed the most pleasant association and have formed some real friendships, and all have contributed to the education of a librarian.

Lastly, I want to repeat that no one is in a better position than I to testify to the burden which your chairman, Colonel Adams, has carried during the whole period from the beginning to the completion of the building. I have intimate knowledge of the vast amount of time and the careful thought he has given to the project. Credit for its successful completion is largely due to his foresight, tact and good judgment. And to all your board who have so wholeheartedly worked for the best interest of the library, I express my grateful appreciation.

Respectfully submitted,

GALEN W. HILL,
Librarian.

February 5, 1940.

Statistical Summary

Population served, 71,956 (1930 census).	
Free for lending and reference.

Saturday, 8 A.M. to 12 M.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Quincy:

The 1939 School Committee organized January 2, 1939 as follows:

Chairman (ex-officio), Honorable Thomas S. Burgin, Mayor
Vice-Chairman, Heslip E. Sutherland
Secretary, James N. Muir
Clerk, J. L. Marion Nilsen

Standing Committees:

Maintenance: Mr. Taylor, Mrs. Nichols, Mr. Marini
Athletics: Mr. Marini, Mr. Flavin

During the year the Committee held twelve regular meetings and twelve special meetings. All of the regular, and most of the special, meetings were open to the public.

Immediately after organization the Committee made a personal inspection of all school buildings and from the first-hand knowledge thus obtained established a comprehensive plan for repairs and improvements. For the most part such repairs and improvements were of a routine nature made necessary by the usual wear and tear on the school property. In making a number of major improvements, such as the landscaping at the Cranch and Adams Schools, the regrading of the yard at the John Hancock School, the insulating and remodeling at the Squantum School, as well as a number of smaller projects, the Committee received generous support from the Works Progress Administration and the cordial cooperation of the local administrator.

Particular mention should be made of the renovating of the cooking rooms in the Home Economics Department at the Quincy High School. Here the most modern appliances were installed and the rooms themselves completely reorganized.

One of the problems which occupied a large measure of the Committee's attention during the year was the increasing demand for free use of school halls by private organizations for civic and charitable purposes. Recognizing the value to the community of all such programs but realizing the considerable financial burden of making school halls available without charge for such purposes, the Committee adopted a new schedule of rental fees for the various auditoriums based practically upon the actual costs involved. This policy has met with general approval and has tended to eliminate requests for the use of these accommodations without charge.

Being faced with a sharply increasing demand for the use of school gymnasiums and athletic equipment by private groups the Committee undertook a study to determine to what extent and upon what conditions these facilities should be made available for community purposes. This investigation is still in progress.

The Committee is glad to report that the use of the portable wooden structure at the Coddington School has been discontinued, and it is hoped that the coming year will see the only remaining portable structure used for classroom purposes, that at the Central Junior High School, likewise abandoned and removed from the premises.

The needed enlargement of the Trade School curriculum and the necessary expansion of the Trade School building was further studied by the Committee throughout the year. Through the good offices of Honorable William A. Bradford, Chairman of the Advisory Committee on Industrial Education, a joint committee of the City Council, the Advisory Committee, and the School Committee was appointed. After a series of meetings at which all phases of the problem were studied, this Committee adopted specific recommendations which would provide the necessary accommodations in a new wing to be erected on the Huntly Road side of the Trade School building. These recommendations were endorsed by the School Committee and forwarded to the Mayor and City Council with a request for the necessary appropriation.

Believing that the maintenance of a school plant, the providing of text books and supplies, the employment of teachers and custodians, and, in fact, all of the activity carried on within the School Department, is but incidental to the main purpose of providing instruction for children of school age, the Committee undertook a survey of some of the special functions being carried on within the Department. It is hoped that through a succession of special meetings, each devoted exclusively to some different phase of school work, this and future committees, as well as the citizens at large, may gain a greater appreciation of some of the important work being done in the schools.

The amount spent by the Committee during the year 1939 for school purposes was \$1,253,925.29 of which \$1,086,720.70 was for salaries.

The Committee is glad to record its gratitude to all the members of the school staff whose loyal cooperation made possible another successful year in the functioning of the Quincy Public Schools.

As a matter of general information, there are appended hereto the Superintendent's report to the School Committee, the report of the Assistant Superintendent, and statistical data pertaining to the schools.

The foregoing report was prepared by a special committee consisting of Mrs. Beatrice W. Nichols and Mr. Heslip E. Sutherland and was adopted as the report of the School Committee for the year 1939.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Quincy:

For several years in my annual report I have given what we considered the outstanding accomplishments of the previous year. Susan Coolidge says, "All the past things are past and over; the tasks are done and the tears are shed." Longfellow says, "Act, act in the living present." In this report I am attempting to bring to your attention those items which seem to me of paramount importance to the school system at the present time.

For sometime I have asked the School Committee to permit me to put out an annual report depicting school life, this report to be entirely separate from the traditional and statistical. It would have suitable illustrations for popular consumption and would give the citizenry a view of the schools as they are.

A recommendation in my last annual report relative to the shop work for boys in the Quincy High School was as follows:

"The shop work for boys at the Quincy High School is outmoded. Both the equipment and program need our immediate attention. The junior schools which feed into Quincy High School have modern shops and splendid equipment. The elements of several trades are taught in the junior schools which give the boys an opportunity to explore their talents. When these same boys come to the Quincy High School and select the Civic curriculum their shop work is confined largely to woodwork. This is dull and uninteresting unless they have a liking for woodwork. Many of the boys at the Quincy High School would take greater interest in shop work, in fact they are eager to get it, but before they do we must modernize the shop facilities."

The newly equipped Home Economics room in the Quincy High School is a great credit to the school committee and to the school system. This was made possible during the year 1939 by your co-operative efforts and interest in giving the young women in the high school an opportunity to express themselves in this important field of work. The Home Economics department is growing and needs further extension. We must continue to keep abreast of the times.

You will recall that I asked for modern equipment at the Central Junior School. This was the first school in the system to take up Home Economics and the equipment is old and much of it is worn out and needs replenishing.

Quoting from my 1939 annual report, I am re-emphasizing the cafeteria situation at the Central Junior School:

"Another problem confronting the school system is the cafeteria situation at the Central Junior School. This has been brought to the attention of the committee on several occasions. If we cannot have new quarters for the cafeteria at that building, we should give our best efforts to improv-

ing the old. The equipment is inadequate and obsolete and should be replaced by new and up-to-date equipment."

The unsatisfactory lighting conditions in several of the buildings have been brought to my attention, and while I realize that the School Committee cannot do the impossible and convert a thirty or forty year old building into a modern building, we can at least make an effort to improve those conditions which are detrimental to the well-being of the children. I, therefore, recommend that we formulate a plan which will insure within a reasonable time that the school classrooms are adequately lighted.

I recommend that the School Committee give these items their earnest consideration.

I would like to bring to your attention a splendid piece of work that is being done in the schools by a committee that surveyed the professional literature in the extra-curricular field. This work is entitled to recognition. The report submitted by this committee provides an admirable basis for further study.

There are certain fundamental principles underlying the management of a school system. The School Committee must recognize these principles and be in unison with their executive officer or we cannot hope to maintain an effective and efficient school system. The schools are maintained for the education of the children and they represent an investment of public funds from which the community has reason to expect and demand maximum returns. At this time I present the following:

1. Educational considerations should come first. Those who are employed to serve the educational purposes of the schools should conceive of their employment to that end.

The schools are not maintained to serve those whom they employ.

2. Educational purposes should be served as effectively and as economically as possible—that is, a school system should be operated according to accepted professional standards.

Ineffectiveness or waste due to outmoded practice, inertia or lack of compliance should not be tolerated.

3. A school system should be operated as a school system with unity of purpose and direction.

There is plenty of room for initiative and originality on the part of principals and teachers, and they should be encouraged to make constructive contributions to the school system of which they are a part, but no school may be maintained as a private enterprise or other than in strict conformity with the principles governing the administration of the system as a whole.

4. Every activity sponsored by the schools should serve educational purposes and should be such that maximum educational values are derived.

Existing activities should be carefully scrutinized.

For the welfare of the children for whom we have assumed responsibility, the above require your very earnest consideration, your approval, and whole-hearted support. I ask definite action in this matter.

Respectfully submitted,

JAMES N. MUIR,
Superintendent of Schools.

REPORT OF THE ASSISTANT SUPERINTENDENT OF SCHOOLS

MR. JAMES N. MUIR, *Superintendent of Schools,
Quincy, Massachusetts*

MY DEAR MR. MUIR:

I submit the following report on the Trade School, Continuation School, Evening Classes, Evening Vocational Classes, Standardized Tests, Mentally Retarded Children, Special Classes and Physically Handicapped Children.

The Day Trade School

The total enrollment and average membership of the Quincy Trade School for the last five years are given in the table below.

	1934-35		1935-36		1936-37		1937-38		1938-39

Total Enrollment	299		286		289		287		298	
Total Average Membership		222.20		216.63		213.96		219.31		240.32

The figures for 1938-39 are very important as they represent the limit of growth that may be attained in the present building.

The efforts of the Advisory Committee, the School Committee and Superintendent, Mr. Muir, to obtain an addition to the Trade School are well known to all who will read this report and needs no further comment by me other than my thanks and appreciation of their efforts. In fact there has been so much discussion about the Trade School and so many facts reported to the School Committee and Advisory Committee that an annual report is hardly necessary.

Accurate figures for the total cost for the school year 1938-39 have just become available and are worthy of special attention.

The total cost for maintaining the Trade School for 1938-39 increased by \$2,973.98 to \$49,326.46. The table below gives the income to Quincy because of the Trade School for the last two school years:

	1937-38	1938-39
Tuition for non-residents	\$11,504.02	\$ 8,328.46
Cash for products made in the school.....	726.11	734.33
Aid from the Federal Government.....	3,926.67	5,355.67
Aid from the State of Massachusetts.....	13,606.12	16,102.64
Miscellaneous receipts	29.25	23.20
Total Receipts	\$29,792.17	\$30,544.30
Net Cost to City of Quincy.....	16,560.31	18,782.16

Note the decrease in tuition for non-residents! It is well to know that this figure will continue to decrease as in a few years the school will be almost completely filled with Quincy residents. The aid from the Federal Government, representing both Smith-Hughes and George-Deen funds will be less for 1939-40 and will grow less each year as Quincy gradually begins to pay part of the salaries of two new instructors whose salaries were to be paid from Federal funds for two years. Two years were completed for one of the instructors on February 1, 1940.

Much of the increase in total cost was caused by larger expenditures for supplies to meet the needs of an increased enrolment, replacement of obsolete and worn-out equipment and new equipment to handle properly improvements within the trades.

The Continuation School

The Continuation School has been discontinued. During the first part of the school year 1938-39 only five girls were enrolled, two of whom became sixteen before April 1, 1939.

The girls attended the Quincy Point Junior High School one day a week where they could receive a maximum amount of instruction in cooking and sewing. When Mr. Dana Clark, under whose supervision the Continuation School had been administrated, resigned in April 1939, the State Department agreed with our wish to discontinue the Continuation School and it was so done.

Only \$347.00 was expended for the school from September 1938 through April 1939, \$65.50 of which was furnished by the State. Actually the entire charge for the Continuation School is a pro rated charge representing that part of Mr. Clark's salary which theoretically covered the time he spent supervising the Continuation School girls. If this part of Mr. Clark's salary had not been charged to the Continuation School it would have been charged to Coordinate and Auxiliary Agencies.

Evening Classes

The table below shows the fall enrollment in the Evening Academic Classes for the fall of 1938 and 1939.

	1938	1939
Algebra	49
Mechanical Drawing	80	70
Grammar School Arithmetic	46	36
Grammar School English	66	48
Elementary Typewriting	272	274
Intermediate Typewriting	114	155
Advanced Typewriting	114	127
Elementary Stenography	169	141
Intermediate Stenography	68	99

Advanced Stenography	89	109
Intermediate Business English.....	102	73
Advanced Business English.....	200	237
Intermediate Business Arithmetic	55	61
Advanced Business Arithmetic	148	111
Classes for Adult Aliens.....	173	185
Total Enrollment	1696	1775

The class in Algebra has been held at the request of Fore River Apprentices and was very well attended until Christmas. Type-writing continues to be the most popular subject and more would have enrolled if we had had more typewriters available.

The decrease in elementary stenography and the increase in intermediate and advanced stenography is a healthy sign. I hope the same tendency will continue.

The increase in enrollment in the classes for adult aliens makes it the highest total enrollment for the last three years. In these difficult years it is very essential that the foreign born living here should be trained in American ways of living and government by teachers who have high ideals of living and government. Quincy is fortunate in having the right kind of teachers who have devoted years to this kind of teaching.

Evening Vocational Classes

The Evening Vocational Classes for men engaged in the trades were smaller than usual and applied to but two trades—Sheet Metal and Machine. Four teachers taught seventy-five men, thirty-two of this number were enrolled in sheet metal drafting and forty-three in machine shop practice.

There were not sufficient enrollments to start classes in Auto Mechanics, Plumbing or Electrical work, trades in which classes have been held in the past.

The tuition of thirty-two men was paid during the fall to attend evening vocational classes outside of Quincy. Twelve received instruction in the various branches of the electrical trade and twenty were scattered among ten different types of classes.

At the request of the Granite Manufacturers Association a class was started this fall in Memorial Salesmanship in which thirty-seven enrolled before Christmas. The attendance has been good for an evening class. This class was made possible by the George-Deen Act under which one-half the cost will be paid out of Federal funds, one-fourth out of State funds and the remaining one-fourth out of funds appropriated by Quincy.

During the school year 1938-39, \$1,317.61 was spent for Evening Vocational Classes. The city collected \$166.60 in tuition, \$478.90 was received from State Funds and \$165.14 from Federal Funds which reduced the net cost to \$506.97.

Standardized Tests, Mentally Retarded Children and Special Classes

The standardized achievement tests usually given in May of each year were omitted in 1938-39 as an economy measure. I believe teachers, principals and administrators in Quincy are unanimous in their opinion that the omission was no real economy.

Many teachers, who in the past have groaned over the extra work the giving and correcting of tests entails, have expressed the desire that standardized achievement tests be used in 1939-40.

The usual group intelligence tests were given to grades one and five in October and in December all junior high school pupils for whom there was no Terman Group Test I. Q. were tested with the Terman Group Tests of Mental Ability. Special reports have already been made to all those interested.

One hundred and twenty-two children were referred to various clinics to determine the quality of their intelligence. Ten were found to be normal, forty-three dull normal, sixty-five definitely mentally retarded and four children did not keep the clinic appointments.

No change has been made in the number of special classes for the mentally retarded and about the same number of pupils are enrolled in them as last year. The number of mentally retarded children is increasing in the north end of the city. For the first time since its establishment there has been a waiting list for the special class located in the Francis W. Parker School. The number of adolescent girls on the list of those three years mentally retarded has increased. If this increase continues the city will soon need another teacher for the older mentally retarded girls.

Physically Handicapped Children

During the school year ending in June 1939 there were twenty-five children scattered throughout the grades who were transported to the class for the physically handicapped. Fourteen children were so handicapped as to require the services of visiting teachers in their home. Eleven of the above children were able to return to their regular school classes in the fall of 1939.

Since the establishment of the class for physically handicapped children at the Thomas B. Pollard School in 1935, fifty-three pupils suffering from ten different types of disease have been enrolled in the class during the past four years. Of this number

- 21 have returned to their regular schools
- 1 received her high school diploma from the class
- 12 have become sixteen and have left school
- 5 have left the city
- 4 now require home teaching
- 1 is deceased

We should be encouraged by the larger number of children who are recovering from their handicaps. Heart disease caused by rheumatic fever keeps the largest number of children from the regular school but in turn a large number of the heart cases improve so that eventually they can return to regular class work.

The children in the handicapped class and those receiving home instruction not only make good progress in their work but also acquire excellent habits, attitudes and ideals.

The courage, cheerfulness and cooperation of the handicapped children is very noticeable, furnishing an inspiration to all who know them. The handicapped classroom houses one of the most cheerful groups of children in the city.

Respectfully submitted,

ALBERT H. COCHRANE,
Assistant Superintendent of Schools.

APPENDIX A

STATISTICAL DATA

1. Financial Statement for the Fiscal Year Ending

December 31, 1939

I. REGULAR AND STATE-AIDED SCHOOLS

Appropriated by City Council (exclusive of Federal Funds)	\$1,245,000.00

*Subject is called: Applied Citizenship in Grade 7; Educational and Vocational Planning in Grade 8; Problems of School Adjustment in Grade 9.

APPENDIX B

LIST OF GRADUATES AND AWARDS

1. Quincy High School

JUNE, 1939

507

Rodney R. Adams	Archie Brown
Eileen Mary A'Hearn	Joseph G. Brunet
Gervaise M. Ahern	Virginia Ruth Bubear
Irene Gertrude Ahern	Clifford Arnold Burchsted
Armando Aimola	Kenneth Ronald Burchsted
Edmund Arthur Aluisy	John William Burfitt
Leo H. Amet	Caroline F. Burkard
Agnes Marie Anderson	C. Sylvia Bursmith
Carl E. Anderson	Joseph L. Butt
Dorothy Ruth Anderson	Lillian K. Campbell
Lillian Doris Anderson	Raymond F. Campbell, Jr.
Risto Anderson	Mary G. Canavan
Julia M. Angelini	Eugene Cantelli
Viola R. Angelini	Doris M. Capiferri
Rae Appel	Levando Capobianchi
Walter Arsenault	Anthony Cardarelli
Norman Thom Arthur	Joseph Carinda
John Arvidson	Irene Carling
Audrey May Ash	Clarence Carlson
William Barnie Ash	Gildo Carrera
Marion Asnes	Richard Phelps Cassidy
Robert Bailey	Dina Josephine Cellini
Andrew L. Baker	Dante Cenci
Chester Clark Banks	Dorothy R. Ceriani
Ethel Barbadora	Frederick Perry Chase
Phyllis Isabel Barkley	Vera Elizabeth Chiavaroli
Agnes A. Barnes	Henry Peter Chiminiello
Priscilla E. Bartlett	John Patrick Chisholm
Richard F. Bartlett	Joseph S. Cipolla
Betty Barzelay	Madeline Rena Cislaghi
Olga M. Battistini	Harriett Esther Cohn
Joseph E. Beale	Florence Coletti
Earl William Beauregard	Barbara Collins
Violet E. Benedetti	Robert James Colman
Violet L. Bersani	George P. Comi
Harold P. Bertoni	Joseph Comoletti
Lawrence Joseph Bertrand	Louise May Connolly
Angelina Edith Biagini	Charles F. Conway
Ernest W. Blackmore	Ruth M. Coombs
Doris Violette Blake	Frances Roberta Cooney
Charles M. Blanchette	Lawrence David Copeland
Rita Mary Blinn	Thomas A. Cormier
Arthur J. Bogan	Marjorie Frances Costa
Theodore A. Bottiggi	Mary E. Costello
Paul C. Bowen	Marjorie I. Cotton
Pauline C. Bradford	Virginia G. Coughlin
Charles V. Bradley	Marion J. Creamer
Hilda E. Brandes	Ralph L. Croghan

George William Crosby	Richard Daniel Ford
Mary Margaret Cull	Janet Reston Tulloch Fowler
James Wilkinson Currie	Marjorie Gertrude French
Mary Eileen Curry	James A. Gabriel
Shirley Edith Cutter	Eva Anne Gacicia
Frederick Auburn Dahl	Jean B. Galbraith
Phyllis Evelyn Dahlbom	Evelyn Marie Gallagher
Edith Elizabeth Darling	Helen Theresa Gallagher
Brenda Marguerite Davison	Agnes Gallo
Thomas A. DeCaro	Alfio Gallo
Jack B. DeClerck	Reno Gallo
Lillian A. DeGravio	John P. Gamache
Frances Elizabeth Delaney	John Leo Gantley
Lena Anna DelGreco	Joseph Adam Gesswein
Henry W. Dell	Antonio Giacomozzi
Michael B. DelLongo	Dorothy I. Giarrusso
Leo F. Dempsey, Jr.	Dexter Franklin Gibbs
David DeSantis	Charles Louis Giudici
Frederick DeSantis	Eleanor Sylvia Goldstein
Ernest J. Deveau	Joseph H. Goodman
Eleanor T. DiAngelo	Marjorie E. Goodwin
Virginia DiAntonio	Paul Gorachy
Delmo DiBona	Jean G. Gossman
Virginia DiMonte	Earl John Graff
Alfred Daniel DiNardo	Doris E. Grahn

Raymond A. Hunt	John A. MacDonald
Ruth M. Huovinen	Hazel J. McDonald
Arthur Paul Hurley	Phyllis Ruth MacDonald
Roy M. Hutchins, Jr.	Robert G. McDonald
Barbara E. Inman	Thelma M. MacDonald
Agnes Wilson Jack	William F. MacDonald, Jr.
Alyce T. Jacobs	Robert R. McGee
Ann Emily Johnson	Helen McGrath
Barbara E. Johnson	Mary R. MacInnis
George A. Johnson	Gordon Murray McIntosh
Henry S. Johnson	J. Stewart McKay
Martha A. Johnson	Florence H. McKim
Vernon Johnson	Jean D. McKim
Ursula A. Kane	Josephine I. McLarnon
William B. Kataja	Eleanor M. McLaughlin
John Kaufman	John McLean
Wayne J. Kauranen	Elaine Hadden MacLeod
Agnes Louisa Kay	June I. MacLeod
Priscilla Kay	Margaret T. McNamara
Maura V. Keating	David McNamee
Robert Michael Kelcourse	John T. McNeilly
Catherine F. Kelly	Marion Davidson Macteer
Gordon R. Kenn	Arthur Mackie
Jacqueline Agnes Kennedy	George A. Macomber
Jessie Wood Kettlety	Phyllis E. Macomber
Robert Earl Kettlety	Joseph Michael Mahoney
Benedict Alfred Knasas	Joseph Allan Maki
Elizabeth Knowles	Theodore K. Maki
Robert H. Knowles	Keijo Walter Maki
Harry F. Koehler	Amelia M. Malvesti
Helen Elizabeth Kondelin	Jessie S. Manson
Hester Pauline Koskinen	Evo A. Marani
Edward James Kroesser	Elena Marchese
Lillian V. Kyllonen	Americo Alexander Mariano
Marjorie Odile LaBrecque	Eugene George Marini
Joan Frances Lahey	Leonard Markley
Alfred W. LaLond	Earland A. Marr
Clarice Landry	Margery L. Martin
Warren R. N. Larsen	Evelyn A. Mastico
Jessie Latou	Dean Maxwell
Joseph E. Leahy	William Burke Meade
Albert Edward LeCount	Albert James Meda
Loretta V. LeGrand	Duncan G. Melrose
Taimi S. Lehti	Jeanne Doris Mitchell
Ruth Eleanor Leonard	Albert H. Mizrahi
Bridget J. Little	Anthony J. Mollica, Jr.
Rosemary Logan	Ella Stewart Montgomery
Ernest J. Lorangeau	Linda I. Monti
Bette Lubarsky	Nicolas Montuori
Armando C. Lucci	Dina Morelli
Armando J. Luciani	Mary Morelli
Janet Althea Lvon	Betty Ann Morgan
Grace A. McClelland	Francis I. Morrissey
Frederick L. McClure	Ann Marie Moscone

Charles Sherman Mowbray	William Henry Rendle, Jr.
Mary H. H. Mowbray	Edward Walter Resell
Jennie A. Mucciarone	Mario Joseph Ricci
S. Jean Muir	Anna Lucy Richardi
Virginia Mula	Joan Richards
Dorothy Diane Mullaney	Marion F. Richardson
Daniel Thomas Mullen	Helen Louise Ricker
Edward R. Mullen	Doris L. C. Rioux
Edna Murphy	Charles C. Roberts
Elizabeth Murray	Eleanor F. Rogers
James Edward Murray	Frederick S. Royce
Mary Elizabeth Murray	David Edward Ryan
S. Gunnar Myrbeck	Gina Louise Sacchetti
Joseph Nelson	Joe Salorio
Eleanor J. Newell	Peter Robert Salvaggio
Robert W. Nicoll	Joseph Salvatore
Anna Elizabeth Nimeskern	John Francis Salvucci
Carolyn Nord	Sigurd William Sammeli
Jean Elizabeth Norrie	Gertrude Mabel Sandberg
Betty Ann Norton	Marian Sanfilippo
Edwin F. Norton	Michael A. Sanfilippo
Florence M. O'Brien	Richard Henry Saville
Jacqueline Louise O'Brien	John Walter Schmitz
Lillian Adele O'Brien	Rudolph Schneider, Jr.
Christopher W. O'Leary	David Leonard Sclarenco
Eileen Marie O'Leary	John J. Scolaro
Virginia Marie Olson	Eleanor Seaman
Dorothy I. O'Neill	John P. Seamans
Margaret Ord	Dorothy Frances Seaver
Norman L. Osberg	Richard B. Seymour
Roger L. Owens	Robert Shaw
George Page	Arthur Shea
Edna May Pagnani	Anna Theresa Sheehan
Raymond J. Palleschi	Cora Shepherd
Robert J. Palli	Alexander Sibbald
Edwin H. Palmer	Paul S. Siitonen
Josephine Ann Panarelli	Pentti Oswald Siitonen
Anna Diane Paolucci	Myer A. Simmons
Ugo Paone	David Simpson
Arthur John Papile	Paul Slate
Pearl E. Paris	Alice Smith
John F. Parziale	Barbara Smith
George H. Peachey, 3rd	Curtis Windsor Smith
John Charles Pearce	Earl Myles Smith
Nicholas Pepe	Stephen Thomas Smith
Earle W. Peterson	Dorothy Smullen
Eva M. Pettinelli	Roy Harold Snaith, Jr.
Dorothy Petzoldt	Edna Calista Spaulding
Carol Philip	Frederick Spencer
Arthur Paul Phillips, Jr.	Edmund John Spinney
Jean Rodena Phillips	Anna Mae Staples
Nancy A. Piazza	Elinor Virginia Steele
Jean Patricia Pinel	Thelma Steir
Mildred Velma Pitman	Bernard Stern
Mary Elder Provan	Jeanette L. Steward
Alfred Pugh	Allen G. Stewart
Marian T. Pugliesi	Margaret Stewart
Francis P. Quinn	Madelyn Stout
John Richard Quinn	Charlotte Geraldine Sullivan

Gerald Sullivan	Flora E. Volpe
Evelyn Dolores Swanson	John E. Volpe
Evelyn F. Sweeney	Aili Irene Walkama
Edna Tamm	Barbara Irene Wallace
Frances Anne Tantillo	Josephine Ward
Madge Gertrude Tarr	Edward J. Warmington
Agnes Ruth Tatro	Thomas F. Welch
Charles E. Theall	Paul Weston
Wesley R. Thomas, Jr.	Lawrence P. White
Arthur R. Thompson	Richard White
Mary Thompson	Wallace J. White
Jean G. T. Thomson	Ruth Esther Whiting
Loris Mae Thomson	Gwendolyn C. Wilbur
Edna P. Thorner	Howard N. Wilbur
Irma Mary Tocci	Barbara E. Williams
Leo Tocci	Ward Wilson
A. Frank Tocchio	Charles B. Winslow
Lorraine Enid Tolman	Paul Wolf
Virginia Ruth Traynor	Alfred A. Wuorela
George P. Treco	Betty Wylie
Frank J. Tropea	Marie Gertrude York
Frank D. Turner	Elvera Youdis
E. Geraldine Turney	Alpha Shirley Young
Eleanor A. Twiss	Bernard Young
Muriel Wallington Twyman	G. Rowland Young, Jr.
Marion L. Tyte	Helen Ann Zablosky
Emily A. Vaillancourt	Teresa Zezzos
William Rideout Vaughan	Norma Ann Zoost

Harold F. Keith	Dorothy Louise Naumann
Robert G. Kelley	Ruth F. Nichols
Luella Margaret Kemp	Ethel M. Nicholson
Robert Sherman Kenney	Selden Nickerson
Coleman E. King	Paul Ballard O'Donnell
Edmund J. King	Vivian M. Okerfelt
Charles Russell Kinney, Jr.	Leonore G. Olsen
Eugene Stone Kirkland	Marion Roberta Olson
Richard A. Knowles, Jr.	Ruth Elizabeth Oman
Jeanette Inez Lanius	Joan Audrey O'Neil
Joseph Patrick Larkin	Dorothy M. Paquette
Vincent Richard Larkin	Mildred Parsons
Lorraine I. Lawrence	Mildred Jean Patterson
Frank E. Lawson	Freda E. Pearce
Marilou LeDoux	Walter Joseph Pendergast

Pauline F. Perrin	Beatrice Anne Souza
Jean A. Peterson	Richard Spalding
Edwin F. Pleadwell	Kathleen A. Spillane
Robert J. Porthouse	Gene Sprague
Samuel Price	Frank L. Steeves
Eleanor E. Purpora	Leo F. Stephansky
Lawrence J. Purtell	Malcolm W. Stewart
Joseph Patrick Quinn	Arthur Meredith Stickney
C. Andrew Randall	Charles S. Strang
James Rattray	Doris May Sturgis
Russell Regan	Joseph Robert Sullivan
Agnes Reynolds	Elizabeth Sweetser
Frank J. Richards	William H. Thayer
Robert W. Richardson	Irene Selma Thompson
Sydney Richardson	Valerie Thornhill
Robert W. Riddell	Ruth Ann Tibbetts
Ellen F. Roach	Virginia Ann Toombs
Ruth Shirley Roberts	Roberta May Toomey
John H. Rooney	Richard M. Treco
Dorothy E. Rowell	Frank Tupper
Mae E. Rumrill	Russell G. Tyler
Richard J. Ryan	Helen Evelyn Waal
Julia R. Santosuosso	Doris Marie Wagner
Marguerite Frances Schaetzl	Shirley Wainwright
Millicent Rose Schauer	Robert G. Walker
Mabel G. Schwab	Alice Katherine Walsh
Eileen P. Sheehan	William E. Waters
Inez V. Simmons	Marjorie Lorraine Watts
Ruth Clare Simpson	Marjorie Enid Williams
Melvia Sloop	Harold H. Wills
James Small	Clifford N. Willy
Albert E. Smith	James Arthur Young
Frank E. Smith	William L. Zottoli

3. Trade School

JUNE, 1939

25

Auto Mechanics Department

Domenic Anthony Speranzo

Cabinet Making Department

Roland Patrick DelPico	John P. Lopreste
Lewis James Hannon, Jr.	Guy Peter Mastrianni
	Harold S. Sears, Jr.

Electrical Department

Justino Nicola Marrocco	Richard Andrew Mattulina
	Joseph W. Sheehan

Machine Department

Russell Paul Bates	Franklin E. Hatfield
Arthur Wilson Bryant, Jr.	George H. Penpraese
Thomas Martin Harding	Roger Sherwood Turner

Pattern Making Department

George B. Malmquist	Francis P. Sheehan
---------------------	--------------------

Plumbing Department

John Joseph Balzano	Thomas Alan Burke
Albert S. Bates	Albert Richard Cobb
	William Alfred Saxe

Sheet Metal Department

Charles J. Comis	Michael DelVecchio
	Leo Roche Murphy

4. Graduation Awards

JUNE, 1939

In the Quincy High School the following awards were made:

Harvard Club of Quincy Scholarship to Richard B. Seymour.

Harvard Club of Quincy—a book to the junior boy who in the opinion of the faculty and his class has contributed most to the school, to Donald J. White.

Honorary Science Award to Roy M. Hutchins, Jr.
